### **Principal activities and business review**

The principal activity of the company during the year was, and will continue to be, that of a holding company. The material investments of the company are shown in note 7.

At 31 December 2013 the company was a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media). Virgin Media became a wholly-owned subsidiary of Liberty Global plc (Liberty Global) as a result of a series of mergers that were completed on 7 June 2013 (the LG/VM Transaction). This is referred to in more detail in the consolidated financial statements of Virgin Media Inc which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP. The Virgin Media Inc consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (U K).

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the U K to both residential and business-to-business (B2B) customers. The group is one of the U K's largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of customers. The group believes its advanced, deep-fibre cable access network enables it to offer faster and higher quality broadband internet services than our digital subscriber line, or DSL competitors. As a result, it provides our customers with a leading next generation broadband internet service and one of the most advanced interactive digital cable services available in the U K market.

As of 31 December 2013, the group provided services to approximately 4.9 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers, providing mobile telephony services to 1.9 million contract mobile customers and 1.1 million prepaid mobile customers over third party networks. As of 31 December 2013, 84% of residential customers on the group's cable network received multiple services from the group, and 66% were "triple play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group.

In addition the group provides broadband internet, fixed-line and mobile telephony and other connectivity services to businesses, public sector organisations and service providers.

The company reported a movement from a net current liability to a net current asset position and an increase in total assets less current liabilities for the year ended 31 December 2013 as a result of normal operations and the impact of releases in debt and investment impairment. During the year, no new external finance was arranged and there was no movement in the called up equity share capital of the company.

The directors do not use key performance indicators (KPI's) to assess the performance of the company as its principal activity is that of a holding company.

During the year, the company recognised an operating exceptional item in respect of the release of historic investment impairment provisions of £515,318,000 (2012 - £nil) and the release of provisions against intercompany receivables of £185,323,000 (2012 - release of £3,281,000). There have been no other significant transactions during the period.

The company has not received any dividends from its subsidiaries during the period (2012 - £nil).

### **Future outlook**

The directors will continue to review management policies in light of changing trading and market conditions. Further detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2013, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

## **Notes to the Financial Statements**

**Year ended 31 December 2013**

### **1. Accounting policies**

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

#### **Basis of accounting**

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

#### **Group accounts**

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 14). These financial statements therefore present information about the company as an individual undertaking and not about its group.

#### **Investments**

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

#### **Cash flow statement**

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company.

#### **Deferred tax**

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

## Notes to the Financial Statements

Year ended 31 December 2013

### 1. Accounting policies *(continued)*

#### Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

### 2. Operating profit

Operating profit is stated after crediting

Release of provision against amounts due from group undertakings	(185,323)	(3,281)

The group's inter-company funding arrangements are managed centrally. Recoverability of inter-company receivables is assessed annually. The provision for non-recoverability may increase or decrease as a result of that review. The impairment review of inter-company indebtedness as at 31 December 2013 concluded that a release of provision against amounts due from group undertakings totalling £185,323,000 should be made (2012 - release of £3,281,000).

Investments are assessed and impairments released due to a change in the economic conditions or in the expected use of the asset in accordance with FRS 11 "Impairment of fixed assets and goodwill". Consequently the investment impairment review as at 31 December 2013 concluded that a release of an impairment of £515,318,000 should be made (2012 - £nil).

Auditor's remuneration of £1,000 (2012 - £1,000) represents costs attributed to the company, all of which is borne by a fellow group undertaking that pays all auditor's remuneration on behalf of the group.

The directors received remuneration for the year of £803 (2012 - £500) in relation to qualifying services as directors of this company, all of which was paid by, and is disclosed in the financial accounts of Virgin Media Limited. In 2013 this included an element relating to compensation for loss of office.
