NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2011

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with accounting principles generally accepted in the Island of Jersey, incorporating United Kingdom accounting standards

Going Concern

On 16 April 2012 the Company has provided a joint and several guarantee together with associated undertakings in respect of a secured term loan facility of £284,400,000 with Wells Fargo Bank N A London Branch which was extended to mature in October 2012

On the 23 August 2012 the Company and associated undertakings agreed a further extension of the secured term loan facility so that the final maturity date is now 17 December 2012

The Company and other associated undertakings are currently negotiating the terms of a new secured term loan facility with the bank. In addition the Company and other associated undertakings are negotiating alternative financing arrangements. The Directors are confident that the existing facility will be refinanced in due course or an alternative financing arrangement will be secured. The Directors of the Company note that the secured financing arrangements with Well Fargo Bank, N.A. (detailed above), do not contain a loan-to-value covenant, and that they reasonably expect that rental income received by the Company and other associated undertakings during the next 12 months will allow the Company to meet its interest cover obligations under the facility.

The Company's 50% voting shareholder WB Dolphin Square, LLC has provided the Company with an undertaking that for at least 12 months from the date of the approval of these financial statements, they will not seek repayment of the amounts currently made available to the Company (by way of unsecured subordinated shareholder loans made through Westbrook Dolphin Square Residential 1 Ltd through Westbrook Dolphin Square Residential 612 Ltd inclusive) if repayment of these amounts would result in the Company being unable to meet its obligations. This should enable the Company to continue to meet all of its obligations in the foreseeable future.

The Company's ability to continue as a going concern is dependent upon the successful renegotiation of the loan facility detailed above. As described above the Company and other associated undertakings are currently in negotiation with the lender, but the outcome of these discussions cannot be estimated with certainty at present. If the Company and other associated undertakings are unable to negotiate an extension or renewal, this could result in the loan being called by the lender. This indicates the existence of a material uncertainty which may cast significant doubt on the Company's ability to continue as a going concern. The Directors are of the opinion that based on the current discussions with the lender, it is appropriate to prepare the financial statements on a going concern basis. The financial statements do not include the adjustments that would result if the Company was unable to continue as a going concern.

The financial statements have been prepared on the going concern basis. The Directors believe this to be appropriate because the Company is in a position to continue to meet all its obligations in the foreseeable future.

The functional currency of the Company is pound sterling. The principal accounting policies are set out below
