1 Accounting policies

The following accounting policies have been applied consistently in the company's financial statements

Basis of preparation

The company is a private limited company incorporated in the Cayman Islands and registered in both the Cayman Islands and the UK. The company is not required to publish audited financial statements. The purpose of these financial statements is to meet the obligations for filing in both the UK and the Cayman Islands. The filing requirements for the Cayman Islands are significantly less in scope than those for the UK.

These financial statements have been prepared in accordance with United Kingdom Accounting Standards, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS 102) and UK companies' legislation as applied to overseas companies. References in these financial statements to the Companies Act and other legislation are therefore references to UK legislation. These financial statements comply with the Companies Act 2006 as applied to overseas companies.

The financial statements are presented in sterling, rounded to the nearest thousand. They are prepared on a going concern basis and under the historical cost convention. The principal accounting policies applied in the preparation of these financial statements are set out below.

The intermediate parent company, Prory Group No 1 Limited, has confirmed that it will continue to provide financial support to the company for the foreseeable future and for at least 12 months from the date of approval of these financial statements. Accordingly the financial statements have been prepared on the going concern basis.

The principle disclosure exemptions adopted by the company in accordance with FRS 102 are as follows:

- Statement of cash flows,
- Certain financial instrument disclosures,
- Disclosure of key management personnel compensation,
- Disclosures in respect of related party transactions entered into between fellow group companies (the company has no other related party transactions), and
- Roll-forward reconciliations in respect of share capital.

The preparation of financial statements in conformity with FRS 102 requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment.

Land is not depreciated on the basis that land has an unlimited life.

1 Accounting policies (continued)

Deferred taxation

The charge for taxation is based on the profit for the period and takes into account taxation deferred

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date

A deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured in a non-discounted basis

Group relief

Payment is generally made for group relief at the current tax rate at the time of first estimating the tax provision. To the extent that amendments are subsequently made to the group relief plan, there is generally no payment or receipt in respect of the change

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments

Financial liabilities, comprising loans from fellow group companies, are initially recognised at transaction price and subsequently carried at amortised cost using the effective interest method

2 Loss on ordinary activities before taxation

The directors received no emoluments for services to the company during the year (2014 nil). The company had no employees during the current or prior year

Current tax on income for the year	5	7

The tax charge of £5,000 (2014 £7,000) in the year is to be relieved by the surrender of losses by other group companies in exchange for payment of the same amount

The standard rate of tax for the year, based on the UK standard rate of corporation tax is 20.25% (2014 21.5%). The actual tax charge for the year is higher than (2014 higher than) the standard rate of corporation tax for the reasons set out in the following reconciliation

	2015 £000	2014 £000
Loss on ordinary activities before tax	(23)	(22)
Tax on loss on ordinary activities at standard rate	(5)	(5)

A change to the UK corporation tax rate was announced in the Chancellor's Budget on 16 March 2016. The change was to reduce the main rate to 17% from 1 April 2020.
