NOTE 1 Basis for the Preparation of the financial information

The financial statements of KNOT Offshore Partners UK LLC ("the Company") have been prepared in accordance with the provisions of section 396 and the accounting principles within Schedule 4 to The Overseas Companies Regulations 2009/1801. The financial statements of the Company are not audited.

The Company does not prepare consolidated accounts since it is not required by the Regulations (section 402a).

The Company and its investments are consolidated in KNOP's consolidated financial statements. The consolidated financial statements of the Company's parent company, KNOT Offshore Partners LP ("KNOP"), is available on the website (www.knotoffshorepartners.com).

NOTE 2 Accounting Principles

(a) Reporting Entity

The Company was formed as a limited liability company under the laws of the Republic of the Marshall Islands on 22 February 2013 and is the management entity of KNOT Shuttle Tankers AS ("KST") and its subsidiaries, which are ship-owning entities. (See NOTE 3 – Subsidiaries) The Company is a wholly owned subsidiary of KNOP and provides KNOP with administrative services and subcontracts certain of those services to Knutsen NYK Offshore Tankers AS ("KNOT"), Knutsen OAS Shipping AS ("KOAS"), and Knutsen OAS (UK) Limited ("KOAS UK").

The parent entity of the Company, KNOP, is a master limited partnership listed on the New York Stock Exchange (NYSE), and owned 69.5% by public unitholders, 28.4% by KNOT, and 2.1% by KNOT Offshore Partners GP LLC ("KNOT GP") at 31 December 2022. KNOT is owned 50% by TS Shipping Invest AS ("TSSI") and 50% by Nippon Yusen Kabushiki Kaisha ("NYK"). KNOT Management AS, a 100% owned subsidiary of KNOT, assumes responsibility for the commercial and technical management of the Vessels owned by KNOP Group.

(b) Reporting Currency

The financial statements are prepared in the reporting currency of US Dollars. Transactions involving other currencies during the period are converted into US Dollars using the exchange rates in effect at the time of the transactions. As of the statement of financial position date, monetary assets and liabilities that are denominated in currencies other than the US Dollar are translated to reflect the year-end exchange rates. Resulting gains and losses are reflected separately in the accompanying statement of profit and loss.

(c) Trade Accounts Receivable

Accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in existing accounts receivable. The Company establishes provisions for doubtful accounts on a case-by-case basis when it is unlikely that required payments of specific amounts will occur. In establishing these provisions, the Company considers the financial condition of the customer as well as specific circumstances related to the receivable. Receivable amounts determined to be unrecoverable are written-off. There were no provisions regarding allowance for doubtful accounts or amounts written-off against the allowance for doubtful accounts as of December 31, 2022. The Company does not have any off-balance-sheet credit exposure related to its customers.

(d) Investment in subsidiaries and associated companies

Investments in subsidiaries are accounted for at cost. The investments are measured at the lower of their carrying amount and fair value less costs to sell. Dividends from a subsidiary, joint venture or an associate are recognized in profit and loss in the Company's financial statements when its right to receive the dividend is established.

(e) Current assets/current liabilities

Current assets are valued at the lower of historical and market value in the statement of financial position. Current liabilities are in the same manner valued at the higher of cost and market value. This principle is not used for current items in foreign currency, which are valued at the rate of exchange at the year-end.

(f) Income tax

The tax expense in the income statement includes both tax payable and changes in deferred tax. Deferred tax is calculated on the basis of temporary differences between accounting and tax values and tax loss carried forward at the year end. Tax increasing and tax reducing temporary differences which reverse or may be reversed in the same period are assessed and netted.

(g) Cash and short-term deposits

Cash and short-term deposits in the statement of financial position comprise cash at bank and on hand and short-term deposits with a maturity of three months or less.

(h) Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. The Company does not have any commitments or contingencies as of December 31, 2022. See Note 14 – Commitments and Contingencies.

(i) Fair Value Measurements

The Company determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market. Fair value is defined as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(j) Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable taking into account contractually defined terms of payment and excluding taxes or duty.
