**DIRECTORS' RESPONSIBILITIES STATEMENT
FOR THE YEAR ENDED 31 DECEMBER 2016**

The directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and generally accepted accounting practice.

Company law applicable to companies in Jersey requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the surplus or deficit of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016**

1. General information

On 8 June 2016, the Company completed the migration requirements and formally transferred its place of registration from Luxembourg to Jersey as a private limited company in accordance with Companies (Jersey) Law 1991.

The nature of the Company's operations and principal activities is set out in the Directors' report.

The address of the registered office is given on the Company Information page.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' and the Companies (Jersey) Law 1991.

Information on the impact of first-time adoption of FRS 101 is given in note 16.

The preparation of financial statements in compliance with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

First time application of FRS 100 and FRS 101

In the current year the Company has adopted FRS 100 and FRS 101. In previous years the financial statements were prepared in accordance with Luxembourg GAAP.

This change in the basis of preparation has not materially altered the recognition and measurement requirements previously applied in accordance with Luxembourg GAAP. Consequently the principal accounting policies are unchanged from the prior year. The change in basis of preparation has enabled the Company to take advantage of some of the available disclosure exemptions permitted by FRS 101 in the financial statements, the most significant of which are summarised below. There have been no other material amendments to the disclosure requirements previously applied in accordance with Luxembourg GAAP.

The following principal accounting policies have been applied:

FOR THE YEAR ENDED 31 DECEMBER 2016**

2. Accounting policies (continued)

2.2 Financial reporting standard 101 - reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of IFRS 7 Financial Instruments: Disclosures
- the requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of:
 - paragraph 79(a)(iv) of IAS 1;
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements
- the requirements of IAS 7 Statement of Cash Flows
- the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors
- the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
- the requirements of paragraphs 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

2.3 Associates and joint ventures

Associates and Joint Ventures are held at cost less impairment.

2.4 Going concern

The Company's ability to operate as a going concern is assessed in conjunction with Anglo American plc and its subsidiaries (together the "Group") as its viability is dependent upon the ability of the Group companies to settle their intercompany balances with the Company and to provide funds for working capital needs. Anglo American Services (UK) Ltd have confirmed that they intend to provide financial resources, where requested, for at least 12 months from the date of signing these financial statements, whilst the Company remains a subsidiary of Anglo American plc.

The directors of the Company therefore feel that the Company will have sufficient funds, taking account of possible changes in trading performance and amounts owed by other Group companies, to conclude that the Company can adopt the going concern basis for the foreseeable future.

ANGLO AMERICAN EXPLORATION COLOMBIA LIMITED

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2016**

2. Accounting policies (continued)

2.5 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Investments in unlisted Company shares, whose market value can be reliably determined, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the Statement of comprehensive income for the period. Where market value cannot be reliably determined, such investments are stated at historic cost less impairment.

Investments in listed company shares are remeasured to market value at each Balance sheet date. Gains and losses on remeasurement are recognised in profit or loss for the period.

2.6 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.7 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.8 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below:

Financial assets

The Company classifies all of its financial assets as loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (e.g. trade receivables), but also incorporate other types of contractual monetary asset. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment.

Impairment provisions are recognised when there is objective evidence (such as significant financial difficulties on the part of the counterparty or default or significant delay in payment) that the Company will be unable to collect all of the amounts due under the terms receivable, the amount of such a provision being the difference between the net carrying amount and the present value of the future expected cash flows associated with the impaired receivable. For trade receivables, which are reported net, such provisions are recorded in a separate allowance account with the loss being recognised within administrative expenses in the Statement of comprehensive income. On confirmation that the trade receivable will not be collected, the gross carrying value of the asset is

2. Accounting policies (continued)

2.8 Financial instruments (continued)

written off against the associated provision.

Financial liabilities

The Company classifies all of its financial liabilities as liabilities at amortised cost.

At amortised cost

Financial liabilities at amortised cost including bank borrowings are initially recognised at fair value net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried into the Balance sheet.

2.9 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.10 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is USD.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

2.11 Interest income

Interest income is recognised in the Statement of comprehensive income using the effective interest method.

FOR THE YEAR ENDED 31 DECEMBER 2016

2. Accounting policies (continued)

2.12 Taxation

Tax is recognised in the Statement of comprehensive income, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

2.13 Exceptional items

Exceptional items are transactions that fall within the ordinary activities of the Company but are presented separately due to their size or incidence.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

There are no critical judgments made by the directors in applying the Company's accounting policies other than assessing investments for impairment. There are no key sources of estimation uncertainty.

Impairment of investments in subsidiaries

Determining whether the Company's debt and equity investments in subsidiaries have been impaired requires estimations of the recoverable amount of the investments. Recoverable amount is the higher of fair value less costs of disposal and value in use. The value in use calculations require the Company to estimate the future cash flows expected to arise from the investments and suitable discount rates in order to calculate present values. If the recoverable amount of an investment is estimated to be less than its carrying amount, the carrying amount of the investment is reduced to its recoverable amount. An impairment loss is recognised in the income statement.

4. Operating loss

The operating loss is stated after charging:

6. Taxation (continued)

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2015 - *higher than*) the standard rate of corporation tax of 20% (2015 - 20.25%). The differences are explained below:

| | 2016 \$ | 2015 \$ |
|---|-------------------|---------------------|
| Loss on ordinary activities before tax | <u>(31,559)</u> | <u>(473,036)</u> |
| Loss on ordinary activities multiplied by standard rate of corporation tax of 20% (2015 - 20.25%) | (6,312) | (95,790) |

| Foreign tax suffered | 625 | 1,068 |
| Total tax charge for the year | <u><u>625</u></u> | <u><u>1,068</u></u> |

Factors that may affect future tax charges

On 26 October 2015, the Finance (No. 2) Act 2015 was substantively enacted and provided for a reduction in the main rate of corporation tax from 20% to 19% effective from 1 April 2017 and a further 1% reduction to 18% from 1 April 2020. On 6 September 2016, the Finance Act 2016 was substantively enacted and provided for a reduction in the main rate of UK corporation tax to 17% from 1 April 2020.
