NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST JULY 2014

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board.

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3. Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 10 years.

1.4. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment	- 20% reducing balance
Motor vehicles	- 20% reducing balance

1.5. Stock

Stocks are valued on a first in first out (FIFO) basis at the lower of cost and net realisable value after making due allowance for any obsolete or slow moving items. Net realisable value comprises the actual or estimated selling price (net of trade discounts) less all further costs to be incurred in marketing, selling and distribution.

1.6. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

8. Going concern

The financial statements have been prepared on a going concern basis which assumes the company will continue in operational existence for the foreseeable future.

During the year the company recorded a loss of £53,845 (2013 : £18,803) and at the balance sheet date its liabilities exceeded its assets by £190,684 (2013 : £136,839). The company meets its day to day working capital requirements through group company financial support.

The board believes that it is appropriate for the financial statements to be prepared on a going concern basis due to continued group company support. Martin Services (Industrial) Limited have reviewed the ongoing cash requirements of the company for the foreseeable future and have confirmed that it is their policy to continue to provide financial support to the company and sufficient funds will be in place to meet the projected requirements.

If the company were unable to continue in operational existence for the foreseeable future, adjustments would have to be made to reduce the balance sheet value of assets to their recoverable amounts, to provide for further liabilities that might arise and to reclassify fixed assets as current assets

9. Approval of financial statements

The financial statements were approved by the Board on 20th April 2015 and signed on its behalf by Ian Martin and Joyce Martin.
