Notes to the abbreviated financial statements for the year ended 30 September 2010

1 Accounting policies

These financial statements have been prepared on the going concern basis under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. The principal accounting policies, which have been applied consistently throughout the year, are set out below.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible fixed assets is their purchase cost, together with any incidental costs of acquisition. Depreciation is calculated so as to write off the cost, of tangible fixed assets, less their estimated residual values, on a reducing balance basis over the expected useful economic lives of the assets concerned. The principal annual rates used are as follows:

Plant and machinery	-	25%
---------------------	---	-----

Debtors

Debtors are stated after all known bad debts have been written off and specific provision has been made against all debts considered doubtful of collection.

Turnover

Turnover represents the invoiced value of goods supplied during the year excluding value added tax and is net of sales returns, trade discounts and rebates. Revenue is recognised when, and to the extent that, the company obtains the right to consideration in exchange for its performance.

2 Going concern

The deficit of assets on the balance sheet in the amount of £34,548 (2009 £33,340) is created by a balance of £46,000 being owed to the members of the company in the event of a winding up (2009 £46,000). The members of the company are confident that the business will continue for the foreseeable future and that the members liability will not be recalled in that time.
