## **STRATEGIC REPORT**

**YEAR ENDED 31 DECEMBER 2013**

### **PRINCIPAL ACTIVITIES AND BUSINESS REVIEW**

The principal activity of the company is that of a holding company with a single subsidiary, East Down Education Partnership Limited.

The principal activity of the group is the provision of operational and maintenance services, including related financing arrangements for three colleges in East Down (Ballynahinch, Downpatrick and Newcastle colleges), in accordance with a project agreement entered into with the Governing Body of the South Eastern Regional College.

The colleges became fully operational in May 2011. The group is currently operating the facilities for a 25 year period, providing a full range of facilities management services under a contractual agreement that provides a regular income stream which is subject to deductions for service shortfalls and the unavailability of the facilities.

The group operates in a PFI market under strict contractual obligations. The industry is highly competitive and so companies have to differentiate themselves on affordability, innovation (both design and funding solutions) as well as identifying and satisfying the needs of all stakeholders.

The profit for the year, after taxation, amounted to £107,000 (2012: £12,000).

### **PRINCIPAL RISKS AND UNCERTAINTIES**

The management of the business and the execution of the group's strategy are subject to a number of risks.

The key business risks affecting the group are considered to relate to cash flow management, facility management compliance and review of the insurance cover and lifecycle profile.

The board formally reviews risks and appropriate processes are put in place to mitigate them.

### **FINANCIAL RISK MANAGEMENT**

The group's operations expose it to a variety of financial risks that include liquidity risk, interest rate risk and credit risk. The group has in place a risk management programme that seeks to limit the adverse effects on the financial performance of the group by monitoring levels of debt finance and the related finance costs.

The group's financial instruments comprise fixed and floating rate borrowings, the main purpose of which is to raise finance for the group's operations. The group does use derivative financial instruments and has entered into interest rate swaps, the purpose of which is to manage interest rate risk on the group's floating rate borrowings.

Given the size of the group, the directors have not delegated the responsibility of monitoring financial risk management to a sub-committee of the board. Bilfinger RE Asset Management Limited (formerly Bilfinger Project Investments Europe Limited), as a provider of financial services to the group under a contractual arrangement, implements the policies set by the board of directors. Bilfinger RE Asset Management Limited has a policy and procedures manual that sets out specific guidelines to manage interest rate risk and circumstances where it would be appropriate to use financial instruments to manage these.

#### **Liquidity risk**

The group minimises the risk of uncertain funding in its operations by having long-term committed facilities available.

# **EAST DOWN EDUCATION PARTNERSHIP (HOLDINGS) LIMITED**

## **STRATEGIC REPORT *(continued)***

**YEAR ENDED 31 DECEMBER 2013**

### **FINANCIAL RISK MANAGEMENT *(continued)***

#### **Interest rate cash flow risk**

The group seeks to minimise its exposure to an upward change in interest rates by both borrowing at fixed rates and borrowing at floating rates and using interest rate swaps to convert such borrowings from floating to fixed rates. At the balance sheet date all the group's floating rate borrowings were at fixed rates after taking account of interest rate swaps.

#### **Credit risk**

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge its obligation under the contract giving rise to the financial instrument. The group's credit risk is concentrated as its cash flows are generated from the PFI concession asset. The concentration of risk is mitigated as the cash flows are secured under contract with the Governing Body of the South Eastern Regional College, a government body.

### **KEY PERFORMANCE INDICATORS ("KPIs")**

#### **Performance deductions under the service contract**

Financial penalties are levied by the Authority in the event of performance standards not being achieved according to detailed criteria set out in the Project Agreement. These deductions are passed on to the service provider. In the year ended 31 December 2013, deductions of £nil (2012: £nil) had been levied which represents 0% (2012: 0%) of revenue. The directors believe the performance for the year to be satisfactory.

#### **Financial performance**

The directors have modelled the anticipated financial outcome of the Project across its full term. The directors monitor actual financial performance against this anticipated performance. As at 31 December 2013, the group's performance against this measure was satisfactory.

### **GOING CONCERN**

The directors have reviewed the group's projected cash flows by reference to a financial model covering accounting periods up to 31 December 2036. The directors have also examined the current status of the group's principal contracts and likely developments in the foreseeable future. Having reviewed the available information, the directors consider that the group and company will be able to meet their financial obligations on the due dates for the foreseeable future. Accordingly, the directors consider that it is appropriate for the financial statements of the group and company to be prepared on a going concern basis.

## **NOTES TO THE FINANCIAL STATEMENTS**

**YEAR ENDED 31 DECEMBER 2013**

### **1. ACCOUNTING POLICIES**

#### **Basis of accounting**

The financial statements have been prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom.

#### **Basis of consolidation**

The group financial statements consolidate the financial statements of the company and its subsidiary undertaking, East Down Education Partnership Limited.

#### **Turnover**

Turnover represents the value of services rendered, excluding sales related taxes, and is recognised to the extent that the group obtains the right to consideration in exchange for its performance. During the construction phase, which completed on 9 May 2011, revenues in excess of net operating and finance costs were deferred until completion of construction, whereupon they will be released to the profit and loss account over the remaining life of the concession. During the operational phase, turnover is recognised as contract activity progresses at a mark up on costs related to the provision of services. In line with FRS5 Application Note G, the mark up is calculated based upon the forecast service revenues and costs over the concession period.

All turnover originates in the United Kingdom.

#### **Contract debtor**

Amounts recoverable under long term Private Finance Initiative contracts will be transferred to a contract debtor in accordance with the requirements of FRS5 Application Note F - Private Finance Initiative and Similar Contracts. The amounts receivable (which include the costs of construction of assets) are treated as a long-term contract debtor from the commencement of the operating phase, with a constant proportion of the net revenue arising from the project (after allowing for income in respect of the provision of operating and maintenance services), being allocated to remunerate the contract debtor. Imputed interest receivable is allocated to the contract debtor using a property specific rate to generate a constant rate of return over the life of the contract.

# **EAST DOWN EDUCATION PARTNERSHIP (HOLDINGS) LIMITED**

## **NOTES TO THE FINANCIAL STATEMENTS**

**YEAR ENDED 31 DECEMBER 2013**

### **1. ACCOUNTING POLICIES** *(continued)*

#### **Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exception:

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### **Financial instruments**

The group uses derivative financial instruments to hedge its exposure to fluctuations in interest rates. Interest differentials on these derivative financial instruments are recognised, net of the interest payable on the related financial liability, in the profit and loss account in the period to which it relates. The group does not revalue the derivative financial instruments to fair value but the fair value of these instruments at the balance sheet date is disclosed in note 13.

Discounts, premia and related costs of debt issue are charged to the profit and loss account over the life of the instrument to which they relate.

#### **Interest capitalisation**

All net interest payable, receivable and finance costs during the construction period were capitalised into the contract debtor. Now the project is operational all net interest and finance costs will be recognised in the profit and loss account.

#### **Investments**

Investments in subsidiary undertakings are stated at cost, less an appropriate provision to reflect any impairment in the value of the investments.

#### **Segment reporting**

The group's activities consist solely of the provision of operation and maintenance services in respect of the three colleges and are undertaken entirely in the United Kingdom.

### **4. PARTICULARS OF EMPLOYEES**

### **7. TAXATION ON PROFIT ON ORDINARY ACTIVITIES**

#### **(a) Analysis of charge in the year**

The tax charge in the year is made up as follows:

	<b>2013</b> <b>£000</b>	<b>2012</b> <b>£000</b>
Current tax:		
UK Corporation tax based on the results for the year at 23.25% (2012 - 24.50%)	<u>32</u>	<u>4</u>
Total current tax (note 7(b))	<u>32</u>	<u>4</u>
Tax on profit on ordinary activities	<u>32</u>	<u>4</u>

#### **(b) Factors affecting current tax charge**

The current tax assessed on the profit on ordinary activities for the year is the same as (2012: same as) the standard rate of corporation tax in the UK of 23.25% (2012 - 24.50%).

The differences are reconciled below:

	<b>2013</b> <b>£000</b>	<b>2012</b> <b>£000</b>
Profit on ordinary activities before taxation	<u>139</u>	<u>16</u>
Profit on ordinary activities multiplied by rate of tax	<u>32</u>	<u>4</u>
Total current tax (note 7(a))	<u>32</u>	<u>4</u>

#### **(c) Factors that may affect future tax charges**

The 2013 Budget on 20 March 2013 announced that the UK corporation tax rate will reduce to 20% on 1 April 2015. A reduction in the rate from 24% to 23% (effective from 1 April 2013) was substantively enacted on 3 July 2012, and the further reductions to 21% (effective from 1 April 2014) and 20% (effective from 1 April 2015) were substantively enacted on 17 July 2013.

This will reduce the group's future current tax charge accordingly.

Included within Bank loan are unamortised issue costs amounting to £139,000 (2012: £151,000).

Bank loan relates to senior secured funding granted by the Bank of Ireland. The senior loan facility is for a total value of £25,501,000. Loan issue costs have been offset against bank loans and are amortised over the term of the loan in accordance with the provisions of FRS4.

The senior loan facility consists of two separate facilities; a standby facility of £750,000 which has not yet been drawn down and a term loan facility of £24,751,000 which is repayable in forty eight six-monthly instalments ending 7 February 2035. As at 31 December 2013, the total amount outstanding on the facility is £22,767,000 (2012: £23,630,000). Interest is charged on amounts drawn under the facility at LIBOR + 0.75%.

The group has also entered into a swap arrangement with Bank of Ireland in order to fix the base interest rate (LIBOR) at 5.0275% on the facilities to 2035. The fair value of the swap arrangement at the balance sheet date was a negative £4,523,000 (2012: negative £7,247,000). Market values have been used to determine the fair value of the swap arrangement. The senior loan facility is secured by a fixed charge over all leasehold interests, book debts, project accounts and intellectual property of the group and by a floating charge over the group's undertakings and assets.

Subordinated debt represents a £3,140,000 (2012: £3,140,000) unsecured subordinated loan facility due to the shareholders of the company, BBGI Investments S.C.A. (66.67%), and O'Hare & McGovern Limited (33.33%). The subordinated loan facility bears interest at a fixed rate of 11.53% and is fully repayable by 2036. The subordinated loan facility has been included in the maturity of debt analysis (note 14).
