STATEMENT OF MEMBERS' RESPONSIBILITIES

Company law, as it applies to limited liability partnerships, requires the members to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the limited liability partnership and of the profit or loss for that period. United Kingdom Accounting Standards require the financial statements to include a statement whether they have been prepared in accordance with the Statement of Recommended Accounting Practice "Accounting by Limited Liability Partnerships".

In preparing those financial statements, the members are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the membership will continue in business.

The members are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the membership and to enable them to ensure that the financial statements comply with the Companies Act 2006, as modified by the Limited Liability Partnerships Regulations 2008. The members are also responsible for taking such steps as are reasonably open to them to safeguard the assets of the membership and to prevent and detect fraud and other irregularities.

1 ACCOUNTING POLICIES

Accounting convention

These financial statements have been prepared under the historical cost convention as modified by the revaluation of certain properties and in accordance with applicable accounting standards which were in operation during the year. The recommendations of SORP "Accounting by Limited Liability Partnerships" have been followed in the preparation of these accounts.

Cash flow statement

The members have taken advantage of the exemption in Financial Reporting Standard No 1 (revised) from including a cash flow statement in the accounts on the grounds that the business is small.

Depreciation

Depreciation is calculated to write-off the cost of fixed assets on a reducing balance basis to match the Inland Revenue capital allowance rates. Depreciation is charged from the month of acquisition and the principal annual rates used for this purpose are:

All assets 25% written down value

Taxation

The charge for taxation is based on the result for the year as adjusted for disallowable items and for timing differences. The tax effect of timing differences which are likely to result in an actual tax liability is treated as a deferred tax liability or asset on a full provision basis.

Turnover

Turnover represents the invoiced value of services rendered, excluding value added tax.

Repairs and renewals

Repairs and renewals are charged to the profit and loss account as incurred.

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value. Cost represents actual invoice price and net realisable value is the price at which stocks can be realised in the normal course of business after allowing for the costs of realisation. Provision is made for obsolete, slow moving and defective stocks, if required.
