NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 5 APRIL 2011

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and the requirements of the Statement of Recommended Practice "Accounting for Limited Liability Partnerships" issued in March 2006 (SORP 2006)

Finance Leases

The LLP acts as a lessor. Under these leases, the LLP retains legal title to the assets but passes substantially all of the risks and rewards of ownership to the lessee, in return for a rental stream.

The capital element of all future rental payments is recorded in the balance sheet as a debtor at the amount of net investment in the lease less provision for any items such as bad and doubtful rentals receivable.

Rentals received are apportioned between finance income, which is credited to the profit and loss account, and the capital element, which reduces the debtor.

Taxation

Taxation on all partnership profits is solely the personal liability of the individual members. Consequently neither taxation nor related deferred taxation arising in the partnership has been accounted for in these financial statements.

2. TURNOVER

Turnover represents the finance income element of the rental stream allocated annually to give a constant periodic rate of return on the LLP's net cash investment in the lease in each financial year.

3. PARTICULARS OF MEMBERS

The average number of members during the period was 12, plus 2 designated members. The largest profit share attributable to a member for the period was £81,169.

Operating profit is stated after charging
