**1. STATUTORY INFORMATION**

K2 Equity Partners LLP is a limited liability partnership incorporated in England and Wales. The registered number is OC323527 and registered office is The Exchange, 5 Bank Street, Bury, BL9 0DN.

The LLP's principal activities and nature of its operations are disclosed in the Report of the Members'.

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the requirements of the Statement of Recommended Practice, Accounting by Limited Liability Partnerships. The financial statements have been prepared under the historical cost convention.

**Going concern**

At the year end the LLP had net liabilities of £756,559 (2021 - £754,787). Included in creditors falling due after more than one year are amounts due to related parties totalling £756,559 (2021 - £754,787) for which there is no requirement for the Limited LLP to repay. It is anticipated that these liabilities will be satisfied from the LLP's share of future profits from these entities.

**Turnover**

Turnover represents the amounts recoverable for the services provided to clients, excluding value added tax, under contractual obligations which are performed gradually over time.

**Tangible fixed assets**

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures, fittings and equipment	33 1/3% p.a on cost
----------------------------------	---------------------

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

**Financial instruments**

The LLP has elected to apply the provisions of Section 11 'Basic Financial Instruments of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the LLP's statement of financial position when the LLP becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

FOR THE YEAR ENDED 31 MARCH 2022**

**2. ACCOUNTING POLICIES - continued**

**Members' participation rights**

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with section 22 of FRS 102. A member's participation rights including amounts subscribed or otherwise contributed by members, for example members' capital, are classed as liabilities unless the LLP has an unconditional right to refuse payment to members, in which case they are classified as equity.

All amounts due to members that are classified as liabilities are presented within 'Loans and other debts due to members' and, where such an amount relates to current year profits, they are recognised within 'Members' remuneration charged as an expense' in arriving at the relevant year's result. Undivided amounts that are classified as equity are shown within 'Members' other interests'. Amounts recoverable from members are presented as debtors and shown as amounts due from members within members' interests.

Where they exist as an asset and liability component in respect of an individual member's participation rights, they are presented on a gross basis unless the LLP has both a legally enforceable right to set off the recognised amounts, and it intends either to settle on a net basis or to settle and realise these amounts simultaneously, in which case they are presented net.

**Cash and cash equivalents**

Cash and cash equivalents are basic financial instruments and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

NOTES TO THE FINANCIAL STATEMENTS - continued  
FOR THE YEAR ENDED 31 MARCH 2022

2. ACCOUNTING POLICIES - continued

**Basic financial assets**

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method.

**Impairment of financial assets**

Financial assets, other than those held at fair value through profit or loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more vents that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

**Classification of financial liabilities**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the LLP after deducting all of its liabilities.

**Basic financial liabilities**

Basic financial liabilities, including trade and other payables, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

**Equity instruments**

Equity instruments issued by the LLP are recorded at the fair value of the proceeds received, net of direct issue costs.

3. EMPLOYEE INFORMATION

There were no employees in the current or prior year.
