1. STATUTORY INFORMATION

Bevan & Clarke LLP is registered in England and Wales. The LLP's registered number and registered office address can be found on the General Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the requirements of the Statement of Recommended Practice, Accounting by Limited Liability Partnerships. The financial statements have been prepared under the historical cost convention.

The functional and presentational currency of the LLP is pounds sterling. Monetary amounts in these financial statements are rounded to the nearest £1, except where otherwise indicated.

Going concern

After reviewing the LLP's forecasts and projections, the members have a reasonable expectation that the LLP has adequate resources to continue in operational existence for the foreseeable future. The LLP therefore continues to adopt the going concern basis in preparing its financial statements.

Significant judgements and estimates

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. Turnover from the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the fair value of the consideration received or receivable.

Other income

Government grants are recognised on an accruals basis in accordance with the substance of the agreement. Interest income, including income arising from finance leases and other financial instruments, is recognised using the effective interest method.

Financial instruments

Basic financial assets, including trade and other receivables and cash and bank balances are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Such assets are subsequently carried at amortised cost, using the effective interest rate method.

Basic financial liabilities including trade and other payables are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

2. ACCOUNTING POLICIES - continued

Pension costs and other post-retirement benefits

The company contributes to personal pension schemes and the pension charge represents the amounts payable by the LLP to the funds in respect of the year.

Provision for liabilities

Provisions are recognised when the group has a present obligation (legal or constructive) as a result of a past event, it is probable that the LLP will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.
