## **Notes to the Financial Statements for the Year Ended 5 April 2022**

### **1 Accounting policies**

#### **Summary of significant accounting policies and key accounting estimates**

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **Statement of compliance**

These financial statements were prepared in accordance with Financial Reporting Standard 102 Section 1A 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

#### **General information and basis of accounting**

The limited liability partnership is incorporated in the United Kingdom under the Limited Liability Partnership Act 2000. The address of the registered office is given on the limited liability partnership information page. The nature of the limited liability partnership's operations and its principal activities are given in the members' report.

The financial statements have been prepared under the historical cost convention, modified to include certain items at fair value, and in accordance with Financial Reporting Standard 102 (FRS 102) issued by the Financial Reporting Council and the requirements of the Statement of Recommended Practice Accounting by Limited Liability Partnerships (issued July 2014).

The functional currency of Urbina Park Street LLP is considered to be pounds sterling because that is the currency of the primary economic environment in which the limited liability partnership operates.

#### **Going concern**

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The directors have been mindful of any potential future impact from events such as COVID-19, the impact of Brexit, the cost of living crisis and the current situation in Ukraine and have reviewed budgets and projections for the next twelve months. From this review, the directors consider that the company is unlikely to be significantly affected and thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

#### **Revenue recognition**

Revenue is recognised to the extent that the limited liability partnership obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, VAT and other sales tax or duty.

## **Urbina Park Street LLP**

### **Notes to the Financial Statements for the Year Ended 5 April 2022 (continued)**

#### **1 Accounting policies (continued)**

##### **Members' remuneration and division of profits**

The SORP recognises that the basis of calculating profits for allocation may differ from the profits reflected through the financial statements prepared in compliance with recommended practice, given the established need to seek to focus profit allocation on ensuring equity between different generations and populations of members.

Consolidation of the results of certain subsidiary undertakings, the provision for annuities to current and former members, pension scheme charges, the spreading of acquisition integration costs and the treatment of long leasehold interests are all items which may generate differences between profits calculated for the purpose of allocation and those reported within the financial statements. Where such differences arise, they have been included within other amounts in the balance sheet.

Members' fixed shares of profits (excluding discretionary fixed share bonuses) and interest earned on members' balances are automatically allocated and, are treated as members' remuneration charged as an expense to the profit and loss account in arriving at profit available for discretionary division among members.

The remainder of profit shares, which have not been allocated until after the balance sheet date, are treated in these financial statements as unallocated at the balance sheet date and included within other reserves.

##### **Taxation**

The taxation payable on the partnership's profits is the personal liability of the members. Consequently, neither partnership taxation or related deferred taxation are accounted for in these financial statements. Sums set aside in respect of members' tax obligations are included in the balance sheet within loans and other debts due to members, or are set against amounts due from members as appropriate.

other taxes policy

##### **Investment properties**

Investment properties for which fair value can be measured reliably without undue cost or effort on an ongoing basis are measured at fair value annually with any change recognised in the profit and loss account.

##### **Trade debtors**

Trade debtors are amounts due from customers for services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the limited liability partnership will not be able to collect all amounts due according to the original terms of the receivables.

##### **Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

## **Urbina Park Street LLP**

### **Notes to the Financial Statements for the Year Ended 5 April 2022 (continued)**

#### **1 Accounting policies (continued)**

##### **Trade creditors**

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the limited liability partnership does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

##### **Members' interests**

Members' capital is repayable on retirement of the member and is therefore classified as a liability. Because members may retire with less than one year's notice and typically have their capital repaid within one year of serving notice, members' capital is shown as being due within one year. Amounts due to members after more than one year comprise provisions for annuities to current members and certain loans from members which are not repayable within twelve months of the balance sheet date.

##### **Financial instruments**

###### **Classification**

Financial assets and financial liabilities are recognised when the limited liability partnership becomes party to the contractual provision of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is a contract that evidences a residual interest in the assets of the limited liability partnership after deduction of all of its liabilities.

###### **Recognition and Measurement**

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a finance transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the balance sheet when, and only when there exists a legally enforceable right to set off the recognised amounts and the limited liability partnership intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the limited liability partnership transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the limited liability partnership, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

## Urbina Park Street LLP

### Notes to the Financial Statements for the Year Ended 5 April 2022 (continued)

#### 1 Accounting policies (continued)

##### Impairment of financial assets

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the limited liability partnership transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the limited liability partnership, despite having retained some significant risks and rewards of ownership, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

##### Derivative financial instruments and hedging

###### *Derivatives*

The limited liability partnership uses derivative financial instruments to reduce exposure to foreign exchange risk and interest rate movements. The limited liability partnership does not hold or issue derivative financial instruments for speculative purposes.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

###### *Hedging*

The limited liability partnership designates certain derivatives as hedging instruments in respect of variable interest rate risk of the cash flows associated with recognised debt instruments measured at amortised cost and in respect of foreign exchange risk in firm commitments and highly probable forecast transactions.

At the inception of the hedge relationship, the entity documents the relationship between the hedging instrument and the hedged item, along with the clear identification of the risk in the hedged item that is being hedged by the hedging instrument. Furthermore, at the inception of the hedge and on an ongoing basis, the limited liability partnership assesses whether the hedging instrument is highly effective in offsetting the designated hedged risk.

The effective portion of changes in the fair value of the designated hedging instrument is recognised in other comprehensive income. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. Amounts previously recognised in other comprehensive income and accumulated in equity are reclassified to profit or loss in the periods in which the hedged item affects profit or loss or when the hedging relationship ends.

Hedge accounting is discontinued when the limited liability partnership revokes the hedging relationship, the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Any gain or loss accumulated in equity at that time is reclassified to profit or loss when the hedged item is recognised in profit or loss. When a forecast transaction is no longer expected to occur, any gain or loss that was recognised in other comprehensive income is reclassified immediately to profit or loss.

## Urbina Park Street LLP

### Notes to the Financial Statements for the Year Ended 5 April 2022 (continued)

#### 1 Accounting policies (continued)

##### Current versus non-current classification

Investments in non-convertible preference shares and non-puttable ordinary or preference shares (where shares are publicly traded or their fair value is reliably measurable) are measured at fair value through profit or loss. Where fair value cannot be measured reliably, investments are measured at cost less impairment.

In the limited liability partnership balance sheet, investments in subsidiaries and associates are measured at cost less impairment.

##### Fair value measurement

The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is estimated by using a valuation technique.

#### 2 Particulars of employees

The average number of persons employed by the limited liability partnership during the year was 8 (2021 - 8).

#### 3 Investment property

	2022 £
At 6 April	<u>1,650,000</u>

The members do not believe that the market value at the year end is materially different to that which is currently included in these financial statements.

At the year end, the investment property has been valued by the directors.

## Urbina Park Street LLP

### Notes to the Financial Statements for the Year Ended 5 April 2022 (continued)

#### 4 Debtors

	2022 £	2021 £
Trade debtors	1,075	250
Other debtors	7,736	7,653
Prepayments and accrued income	1,195	1,389
Total current trade and other debtors	10,006	9,292

#### 5 Creditors: Amounts falling due within one year

	2022 £	2021 £
Trade creditors	2,304	-
Other creditors	20,000	20,000
Accruals and deferred income	58,154	9,725
	80,458	29,725

#### 6 Control

The members are the controlling party by virtue of their controlling interest in the limited liability partnership. The ultimate controlling party is the same as the controlling party.
