1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), and in accordance with the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in March 2010 (SORP 2010).

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Revenue recognition

Turnover represents the right to consideration earned for the provision of legal services excluding VAT. All turnover derives from activities in the UK.

Services provided to clients during the period which, at the balance sheet date, have not been invoiced to clients, have been recognised in turnover in accordance with Financial Reporting Standard 5 'Reporting the substance of transactions', Application Note G 'Revenue Recognition' and the Urgent Issues Task Force Abstract 40 'Revenue recognition and service contracts'.

Turnover recognised is based on an assessment of the fair value of the services provided by the balance sheet date as a proportion of the total value of the engagement. Revenue is not recognised on those engagements where the right to receive payment is contingent on factors outside the control of the LLP. Unbilled revenue is included within debtors.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Office equipment	25% straight line basis
Fixtures and fittings	15% reducing balance

Members' remuneration

Members' capital

Members' capital balances are repayable to the members after cessation of membership and hence are shown as liabilities of the LLP. Members' capital balances are classified as "Loans and other debts due to members".

Members' remuneration

Profits at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately allocated and are no longer at the discretion of the Limited Liability Partnership. Unallocated profits that do not meet these criteria are disclosed in the notes to the financial statements and are included in other reserves

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the LLP after deducting all of its liabilities.
