NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 MARCH 2016

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), and the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in March 2010 (SORP 2010).

Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with FRS 25 (IAS 32) Financial Instruments: Disclosure and Presentation and UITF abstract 39 Members' shares in co-operative entities and similar instruments. A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities. They are therefore treated as an expense in the Profit and Loss Account in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the Balance Sheet.

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense. They are therefore shown as a residual amount available for discretionary division among members in the Profit and Loss Account and are equity appropriations in the Balance Sheet.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

All amounts due to members that are classified as liabilities are presented in the Balance Sheet within 'Loans and other debts due to members' and are charged to the Profit and Loss Account within 'Members' remuneration charged as an expense'. Amounts due to members that are classified as equity are shown in the Balance Sheet within 'Members' other interests'.
