**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 MARCH 2021**

1 Limited Liability Partnership

Connection Capital LLP is a private Limited Liability Partnership, registered in England and Wales, with registration number OC349617, and its registered office is at One Eleven, Edmund Street, Birmingham, B3 2HJ.

2 Accounting Policies

2.1 Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102, section 1a of the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland' ("FRS 102") and Statement of Recommended Practice: Accounting by Limited Liability Partnerships (LLPs SORP) 2018.

The financial statements are presented in £.

2.2 Going concern

The members have assessed the LLP's ability to operate as a going concern for the next 12 months from the date of signing the financial statements and based on their assessment, the members believe that it remains appropriate to continue to adopt the going concern basis in preparing these financial statements. Uncertainty as to the future impact on the LLP of the recent COVID-19 outbreak has been considered as part of this assessment.

The following principal accounting policies have been applied:

2.3 Turnover

Turnover represents the value, net of value added tax and discounts, in respect of services provided to customers for investment management services, including arrangement and monitoring fees.

2.4 Investments

Investments in other LLPs are included at cost plus share of profits/losses less drawings.

Investments includes unquoted equity investments which are measured at fair value, where this can be readily determined. Changes in fair value are recognised in profit and loss. Fair value is estimated using a valuation technique.

2.5 Taxation

The LLP is not subject to taxation as an entity. All members are required to calculate and settle their own tax liabilities due to the LLP's profit and losses.

2.6 Pensions

Defined contribution pension plan

The LLP operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the LLP pays fixed contributions into a separate entity. Once the contributions have been paid the LLP has no further payment obligations.

The contributions are recognised as an expense in the Statement of comprehensive income when they fall due. Amounts not paid are shown in accruals as a liability in the Balance sheet. The assets of the plan are held separately from the Company in independently administered funds.

2.7 Depreciation

Depreciation has been provided in order to write off the assets over their estimated useful lives on a straight line basis.

Fixtures and fittings	4 years
Computer equipment	2 years

2.8 Basic financial instruments

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment.

Trade and other creditors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method.

2.9 Leases

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the lease term.

2.10 Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

2.11 Members' participation rights (continued)

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with FRS 102. A member's participation right results in a liability unless the right to any payment is discretionary on the part of the LLP.

Amounts subscribed or otherwise contributed by members, for example members' capital, are classed as equity if the LLP has an unconditional right to refuse payment to members. If the LLP does not have such an unconditional right, such amounts are classified as liabilities.

Where profits are automatically divided as they arise, so the LLP does not have an unconditional right to refuse payment, the amounts arising that are due to members are in the nature of liabilities. They are therefore treated as an expense in the Statement of Comprehensive Income in the relevant year. To the extent that they remain unpaid at the year end, they are shown as liabilities in the Balance Sheet.

Conversely, where profits are divided only after a decision by the LLP or its representative, so that the LLP has an unconditional right to refuse payment, such profits are classed as an appropriation of equity rather than as an expense. They are therefore shown as a residual amount available for discretionary division among members in the Profit and Loss Account and are equity appropriations in the Balance Sheet.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as described above, according to whether the LLP has, in each case, an unconditional right to refuse payment.

All amounts due to members that are classified as liabilities are presented in the Balance Sheet within 'Loans and other debts due to members' and are charged to the Statement of Comprehensive Income within 'Members' remuneration charged as an expense'. Amounts due to members that are classified as equity are shown in the Balance Sheet within 'Members' other interests'.
