MEMBERS' REPORT FOR THE YEAR ENDED 31 MARCH 2019

The members present their annual report together with the financial statements of Crewkerne Healthcare LLP (the "LLP") for the year ended 31 March 2019.

Principal activities

The principal activity of the LLP during the year was that of a pharmacy.

Designated Members

The designated members who held office during the year and up to the date of signature of the financial statements were as follows:

Community Pharmacies (UK) Limited Judas Tree (Somerset) LLP

Members' capital and interests

Each member's subscription to the capital of the LLP is determined by their share of the profit and is repayable following retirement from the LLP.

Details of changes in members' capital in the ended 31 March 2019 are set out in the Reconciliation of Members' Interests.

Members are remunerated from the profits of the LLP and are required to make their own provision for pensions and other benefits. Profits are allocated and divided between members after finalisation of the financial statements. Members draw a proportion of their profit shares monthly during the year in which it is made, with the balance of profits being distributed after the year, subject to the cash requirements of the business.

This report was approved by the members on 2 December 2019 and signed on their behalf by:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

1. General information

Crewkerne Healthcare LLP is a limited liability partnership incorporated in England and Wales. The registered office is 2 Peterwood Way, Croydon, Surrey, United Kingdom, CR0 4UQ.

The limited liability partnerships principal activities and nature of its operations are disclosed in the Members' Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006 and the requirements of the Statement of Recommended Practice "Accounting by Limited Liability Partnerships".

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the LLP's accounting policies (see note 3).

The financial statements are prepared in sterling, which is the functional currency of the limited liability partnership. Monetary amounts in these financial statements are rounded to the nearest £.

The following principal accounting policies have been applied:

2.2 Going concern

The accounts have been prepared on a going concern basis which assumes the LLP will continue to be able to meet its financing obligations.

The accumulated losses reported in the period to 31 March 2019 were anticipated from the outset. The pharmacy continues to trade in line with expectations both financially and operationally. The continuing financial support of Santander provides a stable platform for growth. As the pharmacy grows towards maturity, the LLP is forecast to become cash generative in line with expectations enabling it to meet the repayments of its senior debt and any additional finance requirements.

The members will continue to provide additional financial support to the business, if required, to ensure that it is able to meet its financial obligations as they fall due.

2.3 Turnover

Turnover is shown, net of Value Added Tax, for goods and services provided to customers.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

2. Accounting policies (continued)

2.4 Members' participation rights

Members' participation rights are the rights of a member against the LLP that arise under the members' agreement (for example, in respect of amounts subscribed or otherwise contributed, remuneration and profits).

Members' participation rights in the earnings or assets of the LLP are analysed between those that are, from the LLP's perspective, either a financial liability or equity, in accordance with section 22 of FRS 102. A member's participation rights including amounts subscribed or otherwise contributed by members, for example members' capital, are classed as liabilities unless the LLP has an unconditional right to refuse payment to members, in which case they are classified as equity.

All amounts due to members that are classified as liabilities are presented within 'Loans and other debtsdue to members' and, where such an amount relates to current year profits, they are recognised within 'Members' remuneration charged as an expense' in arriving at the relevant year's result. Unallocated amounts that are classified as equity are shown within 'Members' other interests'. Amounts recoverable from members are presented as debtors and shown as amounts due from members within members' interests.

Where there exists an asset and liability component in respect of an individual member's participation rights, they are presented on a gross basis unless the LLP has both a legally enforceable right to set off the recognised amounts, and it intends either to settle on a net basis or to settle and realise these amounts simultaneously, in which case they are presented net.

Whilst the members' agreement does not differentiate between profits and losses for profit sharing purposes, it does stipulate that the LLP cannot demand additional contributions from members, and as a result the LLP does not have an unconditional right to demand payment from members for losses. Therefore, they are not recognised as a recoverable asset and so remain within equity as other reserves.

Other amounts applied to members, for example remuneration paid under an employment contract and interest on capital balances, are treated in the same way as all other divisions of profits, as describedabove, according to whether the LLP has, in each case, an unconditional right to refuse payment. Amounts payable to members under employment contracts and unavoidable interest on members capital are charged to "members remuneration charged as an expense" in the relevant year.

2.5 Operating leases: the LLP as lessee

Rentals paid under operating leases are charged to the Statement of Comprehensive Income on a straight line basis over the lease term.

2.6 Interest income

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

2. Accounting policies (continued)

2.7 Finance costs

Finance costs are charged to the Statement of Comprehensive Income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.8 Borrowing costs

All borrowing costs are recognised in the Statement of Comprehensive Income in the year in which they are incurred.

2.9 Pensions

Defined contribution pension plan

The LLP operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the LLP pays fixed contributions into a separate entity. Once the contributions have been paid the LLP has no further payment obligations.

The contributions are recognised as an expense in the Statement of Comprehensive Income when they fall due. Amounts not paid are shown in accruals as a liability in the Statement of Financial Position. The assets of the plan are held separately from the LLP in independently administered funds.

2.10 Intangible assets

Intangible assets comprise a licence to trade as a pharmacy. Intangible assets are stated at cost less amortisation and are reviewed for impairment whenever there is an indication that the carrying value may be impaired.

2.11 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Leasehold property - 7% straight line
Fixtures and fittings - 20% straight line
Computer equipment - 33% straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

2. Accounting policies (continued)

2.12 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at the lower of replacement cost and cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

2.13 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.14 Cash and cash equivalents

Cash and cash equivalents include cash in hand and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

2.15 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.16 Financial instruments

The LLP only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Statement of Comprehensive Income.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the LLP would receive for the asset if it were to be sold at the reporting date.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is an enforceable right to set off the recognised amounts and there is an

2.16 Financial instruments (continued)

intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2.17 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the limited liability partnership is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

In the application of the LLP's accounting policies, which are described in note 2, the members are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There are no critical judgements and estimations that the members have made in the process of applying the LLP's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

4. Turnover

The whole of the turnover is attributable to be that of retail pharmacy.
