Notes to the Accounts
for the year ended 31 March 2023

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard) and the Statement of Recommended Practice (SORP), Accounting by Limited Liability Partnerships.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer. Turnover from the rendering of services is recognised by reference to the stage of completion of the contract. The stage of completion of a contract is measured by comparing the costs incurred for work performed to date to the total estimated contract costs.

Division of profits

Profits are treated as being available for discretionary division only if the LLP has an unconditional right to refuse payment of the profits of a particular year unless and until the members agree to divide them. Profits are otherwise automatically divided and included under Members' remuneration charged as an expense in the profit and loss account.

Taxation

Taxation is not provided for in the accounts as taxation is the personal liability of the members. Any amounts held by the LLP on behalf of members in respect of their tax liabilities are treated as debts due to members.

Tangible fixed assets

Tangible fixed assets are measured at cost less accumulative depreciation and any accumulative impairment losses. Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost, less estimated residual value, of each asset evenly over its expected useful life, as follows:

Plant and machinery	over 5 years
Fixtures, fittings, tools and equipment	over 5 years

Provisions

Provisions (ie liabilities of uncertain timing or amount) are recognised when there is an obligation at the reporting date as a result of a past event, it is probable that economic benefit will be transferred to settle the obligation and the amount of the obligation can be estimated reliably.

Members' capital

Members' capital is classified as debt and not equity if there is a contractual obligation for the LLP to repay the capital to members, even if that obligation is conditional.
