LINDUSTRIES LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

1. General information

Lindustries Limited ("the Company") is a limited company incorporated and domiciled in the United Kingdom. The address of its registered office and principal place of business is disclosed in the Company Information.

The Company's financial statements are presented in Sterling, which is also the Company's functional currency, and all values are rounded to the nearest thousand pounds (£'000).

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102 (FRS102), the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006.

The Company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 400 of the Companies Act 2006. These financial statements therefore present information about the Company as an individual undertaking and not about its group.

The Company is part of the HeidelbergCement AG group and is included in the consolidated financial statements of HeidelbergCement AG. The Company therefore qualifies for the reduced disclosures for subsidiaries under FRS 102 including the exemption to present a cash flow statement. The Company is also exempt under Section 33.1A of FRS 102 from disclosing related party transactions with wholly owned subsidiaries of the HeidelbergCement AG group.

2.2 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

2.3 Classification of shares as debt or equity

An equity instrument is a contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Accordingly, a financial instrument is treated as equity if:

(i) there is no contractual obligation to deliver cash or other financial assets or to exchange financial assets or liabilities on terms that may be unfavourable; and

(ii) the instrument is a non-derivative that contains no contractual obligations to deliver a variable number of shares or is a derivative that will be settled only by the Company exchanging a fixed amount of cash or other assets for a fixed number of the Company's own equity instruments.

The proceeds of an issue are allocated to shareholders' equity, net of transaction costs. The carrying amount of equity is not re-measured in subsequent years.

When shares are issued that create a financial liability of the Company they are presented as a liability in the Balance Sheet; measured initially at fair value net of transaction costs and thereafter at amortised cost until extinguished on conversion or redemption. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss.

The Company's cumulative preference shares and preferred ordinary shares have been accounted for as equity (see note 6).

2.4 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

2. Accounting policies (continued)

2.4 Financial instruments (continued)

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the Profit and Loss Account.

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

6. Share capital (continued)

No dividends were declared or paid on the preference shares or preferred ordinary shares during the year.

The Directors have considered the accounting treatment of the 5% cumulative preference shares and the 6% preferred ordinary shares in relation to FRS102 Section 22: Liabilities and Equity, and are of the opinion that these shares are in substance equity instruments and are accordingly disclosed as share capital in the balance sheet.

7. Contingent liabilities

The Company has been notified of a number of claims from former employees in relation to alleged health related issues. The Directors do not consider it probable that an outflow of economic resources will be required by the Company to settle the obligation nor can the amount of any obligation be measured with sufficient reliability.

The Company's ultimate parent undertaking is HeidelbergCement AG, a company registered in Germany. The largest and smallest group in which the results of the Company are consolidated is that headed by HeidelbergCement AG.
