(forming part of the financial statements)

These financial statements have been prepared under the historical cost accounting rules and in accordance with applicable accounting standards.

2 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Turnover

Turnover represents fees for management services provided plus entry money received for lotteries taking place during the year and fees for sundry other activities.

Depreciation

Depreciation is provided on all fixed assets over the estimated useful life of the assets at the undernoted rates:

Office equipment - 20% to 50% per annum - straight line basis

Cash flow statement

Exemption has been taken under FRS 1 from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Pension costs payable in the course of a year are charged in that year.

Taxation

Deferred tax is recognised, without discounting, in respect of all material differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Any potential deferred tax asset is recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.
