## ACCOUNTING POLICIES

---

### BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention.

In accordance with FRS 18: Accounting policies, the Directors have reviewed the Company's accounting policies and consider that these remain appropriate.

The Company has taken advantage of the exemption in FRS 1: Cash flow statements (revised 1996) from the requirement to produce a cash flow statement on the grounds that its ultimate parent undertaking, Archer Daniels Midland Company, which is incorporated in Illinois, United States of America, prepares consolidated financial statements which include a cash flow statement and which are filed with the Securities and Exchange Commission and publicly available.

### GOING CONCERN

As the Company has made a loss for the year, ADM Milling Limited, the Company's immediate parent, has agreed to provide financial support for a period of at least twelve months from the date of signing these financial statements. On this basis and after considering the Company's forecast results and financial position, the Directors consider it appropriate that the going concern basis be adopted in preparing these financial statements.

### COMPLIANCE WITH ACCOUNTING STANDARDS

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

### TANGIBLE FIXED ASSETS AND DEPRECIATION

Fixed assets are stated at historical cost less depreciation.

Depreciation is provided on all tangible fixed assets at rates calculated to write each asset down to its estimated residual value over its expected useful life, as follows:

Buildings: Leasehold	over the lease term
----------------------	---------------------

The carrying values of tangible fixed assets are reviewed for impairment in periods when events or changes in circumstances indicate that the carrying value may not be recoverable, and if appropriate, an impairment provision will be made.

### DEFERRED TAXATION

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date, with the following exceptions:

- Provision is made for gains on disposal of fixed assets that have been rolled over into replacement assets only where, at the balance sheet date, there is a commitment to dispose of the replacement assets with no likely subsequent rollover or available capital losses;
- Provision is made for gains on revalued fixed assets only where there is a commitment to dispose of the revalued asset and the attributable gain can neither be rolled over nor eliminated by capital losses; and
- Deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.
