General information

The Company is wholly-owned by Santos International Holdings Pty Ltd, a subsidiary of Santos Limited. Santos International Holdings Pty Ltd and Santos Limited are companies incorporated and domiciled in Australia.

Santos Bangladesh Limited
Strategic Report
31 December 2019
Registered number 48610

The Directors present their Strategic Report for the year ended 31 December 2019.

Business review and future developments

The Company has had minimal activity since it executed a farm out agreement in February 2017, disposing of a 49% equity interest in Block 16 PSC. In May 2017, the Company also handed back the Magnama permit to the Bangladesh government.

Key performance indicators

The Company's ultimate parent entity Santos Limited is the parent entity in the consolidated Santos Group. At the reporting date the Company has no interests in any joint operations and there are no relevant KPIs.

Principal risks and uncertainties

The following are some of the key risks that face the Company:

Commodity prices, fiscal regimes and currency

Exposure to foreign currency risks arise in the normal course of the Company's business. Derivative financial instruments may be used by Santos Limited, the Company's ultimate parent entity, and Santos Finance Ltd, a subsidiary of Santos Limited, to hedge exposure to fluctuations in foreign exchange rates on behalf of the Santos Group.

Financing

The development of the Company's assets will depend upon the Company's ability to obtain financing through the joint operation of projects, debt financing (through Santos Finance Ltd), farm-downs or other means. There is no assurance that the Company will be successful in obtaining the required financing or attracting farm-in partners. If the Company is unable to obtain additional financing as needed through the attraction of suitable farm-in partners, some interests may be relinquished and/or the scope of the operations reduced.

It is expected that the company will continue its principal activities as set out above.

By order of the Board

Anthony Neilson
Director
Dated 20 May 2020

Santos Bangladesh Limited
Directors' report
31 December 2019
Registered number 48610

The Directors present their report, together with the financial statements, on the company for the year ended 31 December 2019.

Review of operations

The profit for the company after providing for income tax amounted to \$4,000 (31 December 2018: \$115,000).

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Matters subsequent to the end of the financial year

Subsequent to end of the financial year, the COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020. As a consequence of COVID-19 and other factors impacting supply and demand in global oil markets, there has been a downturn in global oil and LNG markets and a fall in global crude oil prices. At the date of finalisation of this report, the duration and extent of the downturn remains uncertain.

The financial statements have been prepared based upon conditions existing at 31 December 2019 and considering those events occurring subsequent to that date, that provide evidence of conditions that existed at the end of the reporting period. No adjustments have been made to financial statements as at 31 December 2019 for the impacts of the matters discussed above as the impacts are indicative of conditions that arose after the reporting period.

In future periods, the carrying value of loans and receivables are dependent on the extent that they are impacted by mid to longer term forecasts of commodity prices, foreign exchange rates and other macroeconomic assumptions. We do not consider it practicable to provide a quantitative or qualitative estimate of the potential impact of these factors on the entity at this time.

Going concern

Santos Limited (the ultimate parent entity) and its wholly-owned subsidiaries ("The Santos Group") have planned to fund the ongoing activities of the Company for at least twelve months from the date of signing the financial statements. Santos Limited has the financial capacity to fund the activities of the Company. Accordingly, the Company should be able to pay its debts as and when they fall due in the normal conduct of its business activities.

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and liabilities in the ordinary course of business.

Directors' statement as to disclosure of information to auditors

The Directors who were members of the Board at the time of approving the Directors' report are listed below. Having made enquiries of fellow Directors and of the Company's auditors, each of these Directors confirms that:

- to the best of each Director's knowledge and belief, there is no information (that is, information needed by the auditors in connection with preparing their report) of which the Company's auditors are unaware; and
- each Director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the Company's auditors are aware of that information.

Directors and their interests

The names of the Directors in office at the date of this report are:

Kevin Thomas Gallagher
Anthony Neilson
James Thorne

There were no other persons who acted as Directors at any time during the financial year and up to the date of this report.

Auditor

Pursuant to a shareholders' resolution, the Company is not obliged to reappoint its auditor annually and Ernst & Young LLP therefore continue in office.

Santos Bangladesh Limited
Directors' report
31 December 2019

This report is made in accordance with a resolution of Directors.

By order of the Board

Anthony Neilson
Director
Dated 20 May 2020

Santos Bangladesh Limited
Directors' responsibilities
31 December 2019

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable United Kingdom law and the International Financial Reporting Standards ("IFRS") as adopted by the European Union.

Under company law the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit and loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies in accordance with IAS 8: *Accounting Policies, Changes in Accounting Estimates and Errors* and then apply them consistently;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRS is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Company's financial position and performance;
- state that the Company has complied with IFRS, subject to any material departures disclosed and explained in the financial statements; and
- make judgements that are reasonable.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that its financial statements comply with the *Companies Act 2006*. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SANTOS BANGLADESH LIMITED

Opinion

We have audited the financial statements of Santos Bangladesh Limited for the year ended 31 December 2019 which comprise the Statement of profit and loss and other comprehensive income, Statement of financial position, Statement of changes in equity, Statement of cash flows, and the related notes 1 to 13, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 December 2019 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter – Effects of COVID-19

We draw attention to Notes 1 and 13 of the financial statements, which describes the economic and social disruption the company is facing as a result of COVID-19 which is impacting commodity prices. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SANTOS BANGLADESH LIMITED (CONT'D)

Other information

The other information comprises the information included in the Directors' report and accounts, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

Responsibilities of directors

As explained more fully in the Directors' responsibilities statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SANTOS BANGLADESH LIMITED
(CONTINUED)**

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Santos Bangladesh Limited
Notes to the financial statements
31 December 2019

Note 1. Significant Accounting Policies

Santos Bangladesh Limited ("the Company") is a company incorporated and domiciled in Scotland.

The Company is wholly-owned by Santos International Holdings Pty Ltd ("SIH"), a subsidiary of Santos Limited. SIH and Santos Limited are companies incorporated and domiciled in Australia.

The financial report was authorised for issue by the Directors on 20 May 2020.

(a) Statement of compliance

The Company's financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("Adopted IFRS") as they apply to the financial statements of the Company for the year ended 31 December 2019.

(b) Basis of preparation

The financial statements are prepared on a historical cost basis.

The financial statements are presented in United States dollars and are rounded to the nearest thousand dollars (US\$000) except when otherwise stated.

The Company's activities were conducted in Bangladesh under Production Sharing Contracts ("PSCs"). The Company accounts for PSCs on a net entitlements basis whereby hydrocarbon production, revenues and reserves are determined by reference to the terms of the PSC. Production and other operating costs are expensed as incurred.

Santos Limited (the ultimate parent entity) and its wholly-owned subsidiaries ("the Santos Group") have planned to fund the ongoing activities of the Company for twelve months from the date of signing the financial statements. Santos Limited has the financial capacity to fund the activities of the Company. Accordingly, the Company should be able to pay its debts as and when they fall due in the normal conduct of its business activities.

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and liabilities in the ordinary course of business.

Adoption of new accounting standards and amendments

Several new International Financial Reporting Standards, amendments to standards and interpretations were applicable for the first time in 2019, but were not relevant to the Company and do not have a material impact on its financial statements.

(c) Foreign currency

Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which it operates ("the functional currency"). The financial statements are presented in United States dollars ("US dollars") which is the Company's functional currency.

Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the foreign exchange rate ruling at the reporting date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined.

Note 1. Significant Accounting Policies (continued)

(d) Trade and other receivables

Trade and other receivables are initially recognised at fair value, which in practice is the equivalent of cost, less any impairment losses.

Long-term receivables are discounted and are stated at amortised cost, less impairment losses.

Trade receivables are non-interest-bearing and settlement terms are generally within 30 days. Trade receivables that are neither past due nor impaired relate to a number of independent customers for whom there is no recent history of default.

The Company applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. Under this method, determination for the loss allowance provision and expected loss rate incorporates past experience and forward-looking information, including the outlook for market demand and forward-looking interest rates. As the expected loss rate at 31 December 2019 is nil (2018: nil), no loss allowance provision has been recorded at 31 December 2019 (2018: nil).

(e) Other Financial Assets

Other financial assets, being intercompany receivables are assessed for impairment at each reporting date using the expected credit loss model as prescribed by IFRS 9. The Company initially assesses the receivables using the 12 month expected credit loss model, however when certain criteria are met, the Company assesses the receivables under the lifetime expected credit loss model. An impairment is recorded where the asset's carrying value exceeds the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the receivable is reduced through the use of an allowance account. Changes in the allowance account are recognised in the income statement.

The Company's intercompany receivables have been assessed as being Stage 2 or Stage 3 within the scope of IFRS 9 impairment requirements and therefore assessed for impairment using the lifetime expected credit loss model. All loans extended to Santos Group's subsidiaries have a term to maturity greater than 12 months and none are repayable on demand. The borrowing entities are not considered low credit risk since none hold external investment grade credit ratings, the benefit from credit enhancements and adverse changes in economic and business conditions in the longer term may reduce the ability of the borrower to fulfil their obligations. Management has considered the impact of factors such as commodity price, foreign exchange and interest rate fluctuations on the future cash flows of each entity and has determined that credit risk has increased since the origination of the loan.

(f) Cash and cash equivalents

Cash and cash equivalents comprises cash balances and short-term deposits that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and have an original maturity of three months or less.

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. Bank overdrafts are included within interest-bearing loans and borrowings in current liabilities on the statement of financial position

(g) Share capital

Ordinary share capital

Ordinary share capital is classified as equity.

Dividends

Dividends are recognised as a liability at the time the Directors resolve to pay or declare the dividend.

Note 1. Significant Accounting Policies (continued)

(h) Other income

Other income is recognised in the income statement at the fair value of the consideration received or receivable, when the significant risks and rewards of ownership have been transferred to the buyer or when the service has been performed.

The gain or loss arising on disposal of a non-current asset is included as other income at the date control of the asset passes to the buyer. The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

Transactions in currencies other than an entity's functional currency are initially recorded in the functional currency by applying the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in currencies other than an entity's functional currency are retranslated at the foreign exchange rate ruling at the reporting date. Foreign exchange differences arising on translation are recognised as other income or expense.

(i) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the amount of income tax payable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the appropriate tax bases. The following temporary differences are not provided for: the initial recognition of assets or liabilities that affect neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent it is probable that they will not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(j) Significant accounting judgements, estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on management's judgement regarding estimates and assumptions of future events. The reasonableness of estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The key judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of certain assets and liabilities within the next annual reporting period are:

Impairment of receivables from related entities

The Company assesses whether receivables from related entities are impaired on an annual basis. Refer to note 1(e) Other financial assets.

Impairment of financial assets

The company recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the company's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Note 1. Significant Accounting Policies (continued)

(k) Trade and other payables

Trade and other payables are recognised when the related goods or services are received, at the amount of cash or cash equivalent that will be required to discharge the obligation, gross of any settlement discount offered. Trade payables are non-interest bearing and are settled on normal terms and conditions.

Santos Bangladesh Limited

Intercompany loan debt forgiveness			135	-
Balance at the end of the year			<u>4,224</u>	<u>4,089</u>

Capital Risk Management

The Company's objective when managing capital is to safeguard the ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, and to maintain an efficient capital structure.

In order to maintain or adjust the capital structure the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Note 8. Notes to the Statement of Cash Flows

(a) Reconciliation of cash flows from operating activities

	2019 \$'000	2018 \$'000

Note 9. Commitments for Expenditure

(a) Capital commitments

There is no commitment for any capital expenditure as at the reporting date.

(b) Minimum exploration commitments

There are no commitments for any exploration expenditure as at the reporting date.

Santos Bangladesh Limited
Notes to the financial statements
31 December 2019

Note 10. Related Party Disclosures

(a) Parent entities

The Company's immediate parent entity is Santos International Holdings Pty Ltd ("SIH"), a company incorporated in Australia. The ultimate parent entity is Santos Limited, a company incorporated and domiciled in Australia. The address of the registered office of Santos Limited is:

Ground Floor Santos Centre
60 Flinders Street
Adelaide SA 5000
Australia.

The consolidated financial report of the Santos Group is available to the public and may be obtained from the above address. This is the smallest group into which the results of the Company are consolidated.

(b) Transactions with related entities

The following related party balances existed at the reporting date:

	2019 \$'000	2018 \$'000
Amount owing from related party	244	911

The amount owing from a related party is a receivable with Santos Finance Ltd, a related entity in the Santos Group. This amount is non-interest bearing.

(c) Key management personnel compensation

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including the Directors of the Company.

The following were Directors of the Company and therefore key management personnel of the Company for the periods shown:

Kevin Thomas Gallagher
Anthony Neilson
James Thorne

No remuneration was paid to Mr K Gallagher and Mr A Neilson directly for services to the Company during the current or prior years.

Mr J Thorne received US\$4,119 as key management personnel emoluments for the current year (2018: US\$4,313) for his services as a Director of the Company.

The Company employs no permanent staff.

Note 11. Financial Risk Management

Exposure to foreign currency risk, interest rate risk, commodity price risk, credit risk and liquidity risk arises in the normal course of the Company's business. Derivative financial instruments may be used by Santos Limited, the Company's ultimate parent entity, and Santos Finance Ltd, a subsidiary of Santos Limited, to hedge exposure to fluctuations in foreign exchange rates, interest rates and commodity prices, on behalf of the Santos Group.

Note 11. Financial Risk Management (continued)

(a) Foreign currency risk

The Company is not materially exposed to foreign currency risk as it principally incurs expenditure primarily in US dollars and has US dollar borrowings from a related entity.

(b) Interest rate risk

As the Company has no interest-bearing liabilities the Company is not exposed to changes in market interest rates on borrowings.

At the reporting date cash balances of US\$58,018 (2018: US\$226,375) are held with the bank. There are no funds on short-term deposit.

(c) Commodity price risk

At the reporting date, the Company has no open commodity price contracts (2018: nil) and hedging instruments have not been used.

(d) Credit risk

Credit risk arises from cash and cash equivalents, derivative financial instruments and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions, and represents the potential financial loss if counterparties fail to perform as contracted. The Company has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

The receivables balances are monitored on an ongoing basis and amounts outstanding at reporting date have subsequently been received. The Company does not hold collateral, nor does it securitise its trade and other receivables.

The Company's maximum exposure to credit risk is represented by the carrying amount of trade and other receivables recognised on the statement of financial position. At the reporting date there were no long overdue balances and therefore, there are no significant concentrations of credit risk.

The Santos Group controls credit risk on derivative financial instruments by setting exposure limits related to the creditworthiness of counterparties, all of which are selected banks or institutions with a Standard & Poor's rating of A or better.

(e) Liquidity risk

The Company aims to mitigate liquidity risk by maintaining sufficient cash balances to meet ongoing operational requirements and exploration activities, and has additional funding available to it through committed credit facilities held by Santos Finance Ltd, a subsidiary of Santos Limited.

The following table analyses the contractual maturities of the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date.

	On demand US\$000	Less than 6 months US\$000	6 to 12 months US\$000	More than 12 months US\$000
2019				
Trade and other payables	-	-	-	-
2018				
Trade and other payables	974	-	-	-

Note 11. Financial Risk Management (continued)

(f) Fair Values

The financial assets and liabilities of the Company are initially recognised on the Statement of Financial Position at their fair value in accordance with the accounting policies in note 1.

The significant methods and assumptions used in estimating the fair values of financial instruments are:

Trade and other receivables

The carrying value less impairment provision of trade receivables is a reasonable approximation of their fair values due to the short-term nature of trade receivables.

Financial liabilities

Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. Where the cash flows are in a foreign currency the present value is converted to US dollars at the foreign exchange rate prevailing at reporting date.

Note 12. Auditors' Remuneration

	2019 \$'000	2018 \$'000
Audit of these financial statements	<u>16</u>	<u>16</u>

The auditors' remuneration is borne by the ultimate parent entity, Santos Limited.

Note 13. Events after the reporting period

Subsequent to end of the financial year, the COVID-19 outbreak was declared a pandemic by the World Health Organization in March 2020. As a consequence of COVID-19 and other factors impacting supply and demand in global oil markets, there has been a downturn in global oil and LNG markets and a fall in global crude oil prices. At the date of finalisation of this report, the duration and extent of the downturn remains uncertain.

The financial statements have been prepared based upon conditions existing at 31 December 2019 and considering those events occurring subsequent to that date, that provide evidence of conditions that existed at the end of the reporting period. No adjustments have been made to financial statements as at 31 December 2019 for the impacts of the matters discussed above as the impacts are indicative of conditions that arose after the reporting period.

In future periods, the carrying value of loans and receivables are dependent on the extent that they are impacted by mid to longer term forecasts of commodity prices, foreign exchange rates and other macroeconomic assumptions. We do not consider it practicable to provide a quantitative or qualitative estimate of the potential impact of these factors on the entity at this time.
