Notes to the financial statements

for the year ended 28 February 2011

1. Accounting policies

Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards.

As at 28 February 2011, the company's liabilities exceeded its assets. The directors consider it appropriate to prepare the financial statements on a going concern basis as the shareholders have confirmed that they will continue to provide financial support by when required.

Cash flow statement

The company has taken advantage of the exemption conferred by Financial Reporting Standard 1 'Cash Flow Statements (Revised 1996)' not to prepare a cash flow statement on the grounds that it is a 'small' company under the Companies Act 2006.

Deferred taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that:

- deferred tax is not recognised on timing differences arising on revalued properties unless the company has entered into a binding sale agreement and is not proposing to take advantage of rollover relief; and
- the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances arising from underlying timing differences in respect of tax allowances on industrial buildings are reversed if and when all conditions for retaining those allowances have been met.

Deferred tax balances are not discounted.
