Going Concern

As detailed in note 1.3, the Directors are of the opinion that it is appropriate to adopt the going concern basis in the preparation of these financial statements.

These financial statements have been prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101") and the Companies Act 2006, as applicable to companies using FRS101.

The accounting policies set out below have been applied consistently in these financial statements.

In preparing these financial statements, the Company applies the recognition, measurement and disclosure requirements of International Accounting Standards in conformity with the requirements of the Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

Judgements made by the Directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year, are discussed in section 1.5.

The Company's financial statements are presented in sterling, which is the Company's functional currency.

The Company's Group parent undertaking, Ventient Energy Limited, includes the Company in its consolidated financial statements. The consolidated financial statements of Ventient Energy Limited are prepared in accordance with International Financial Reporting Standards and are available to the public and may be obtained from the Company Secretary, C/O Burness Paull LLP, 50 Lothian Road, Festival Square, Edinburgh, Scotland, EH3 9WJ.

In these financial statements, the Company has applied the exemptions available under FRS 101 in respect of the following disclosures:

1.3 Going concern

The financial statements have been prepared on the going concern basis. The Directors believe this to be appropriate for the following reasons:

The Company is dependent for its working capital on funds provided to it by entities within the Ventient Energy Limited Group ('the Group'). This Group is also subject to common bank loan arrangements. The Group Parent, Ventient Energy Limited, has confirmed that it will provide sufficient funds to allow the Company to meet its financial liabilities and obligations as they fall due for a period of at least twelve months after the date upon which the statutory financial statements of the Company are finalised by directors' approval. The Group Parent has confirmed that any intercompany balances, which are due on demand, will not be called for if such repayment would be likely to give rise to the inability of the Company to meet its financial liabilities and obligations as they fall due.

The Group Parent, has sufficient resources to make this commitment, and forecasts that it will continue to operate within its restrictive borrowing covenants for at least the next twelve months.

As such, the Directors consider that the support of the Group Parent will enable the Company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. such, the Directors consider that the support of the Group Parent will enable the Company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment.

1.4 Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Trade and other payables

Trade and other payables are carried at cost.

1.5 Accounting estimates and judgments

In the process of applying the Company's accounting policies, management necessarily makes judgments and estimates that have a significant impact on the values recognised in the financial statements. Changes in the assumptions underlying these judgments and estimates could result in a significant impact to the financial statements. The most critical of these accounting judgments and estimates are explained below.

1.6 Adopted IFRS not yet applied

Other accounting standards and interpretations have been published and will be mandatory for the Company's accounting period beginning on or after 1 January 2022 or later periods. The impact of these standards is not expected to be material to the reported results and financial position of the Company.

2 Staff numbers and costs

During the current and prior year the Directors were remunerated for services provided to the Ventient Energy Limited Group. In both the current and prior year any remuneration specific to qualifying activities performed solely in relation to the Company were trivial and were not recharged to the Company. The Company had no employees, apart from Directors during the current or prior year.

The Company was not audited in the year ended 31 December 2021 and hence there are no audit costs. The Company was audited in the previous financial year. The cost of £4,000 was borne by another Group entity, Ventient Energy Services Limited, and was not recharged to the Company.
