NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2011

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Fishing licences and quotas

Fishing licences and quotas were valued at cost less accumulated amortisation. Amortisation was calculated to write off the cost in equal annual instalments over their estimated useful life of 20 years. In the year to 30 June 2005, the directors reassessed the useful life of fishing licences and quotas and concluded that they have an indefinite useful life therefore have decided to no longer amortise these.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Vessels

- 6.25% straight line

Plant and machinery

- 20% reducing balance

Motor vehicles

- 20% reducing balance

New vessel

- 6.25% straight line

1.5 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.6 Investments

Fixed asset investments are stated at cost less provision for diminution in value.

1.7 Deferred taxation

In accordance with Financial Reporting Standard for Smaller Entities (effective April 2008) Deferred tax, deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or right to pay less tax, at a future date at rates expected to apply when they crystalise based on current tax rates and law. Timing differences arise from inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not they will be recovered. Deferred tax assets and liabilities are not discounted.

1.8 Government grants

Grants are credited to deferred revenue. Grants towards capital expenditure are released to the profit and loss account over the expected useful life of the assets. Grants towards revenue expenditure are released to the profit and loss account as the related expenditure is incurred.
