## NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2012

COMPANY REGISTERED NUMBER: SC168760

### 1. Accounting policies

#### Basis of accounting

The accounts have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

#### Turnover

Turnover represents invoiced sales of goods provided net of value added tax.

Revenue from the company's services is recognised when the goods have been provided and the right to consideration has been earned.

#### Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the economic life of that asset as follows:

Fixtures, fittings and equipment	-	15% reducing balance
----------------------------------	---	----------------------

#### Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

#### Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the reversal of the underlying timing differences can be deducted.

Any assets and liabilities recognised have not been discounted.
