NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 28 FEBRUARY 2016

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of investment properties and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life which is deemed to be 10 years.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Freehold land and buildings	2% straight line
Property improvements	2% straight line
Computer equipment	25% reducing balance
Fixtures, fittings & equipment	15% reducing balance

The investment properties are held for long term investment and are accounted for in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) in that they are carried at market value. The surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit or its reversal on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the period.

Although the Companies Act 2006 would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation on the investment properties is necessary in order for the accounts to give a true and fair view, since the current market value of the investment properties, and changes to that value, are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

1.5 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6 Stock

Stock is valued at the lower of cost and net realisable value.

1.7 Pensions

During the year the company made pension contributions to the personal pension plans of the directors. Contributions payable are charged to the profit and loss account in the year they are payable.

1 Accounting policies

(Continued)

1.8 Deferred taxation

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not they will be recovered. Deferred tax assets and liabilities are not discounted.
