Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Plant and machinery etc - 25% on reducing balance

Deferred tax

Deferred tax is recognised using the balance sheet liability method, in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes with certain limited exceptions

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the asset can be utilised.

Deferred tax is calculated on a undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date. The deferred tax balance is not discounted.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.
