## **Statement of directors' responsibilities in respect of the Directors' Report and the financial statements**

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

## Notes

*(forming part of the financial statements)*

### 1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

#### *Basis of preparation*

The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards.

As the company is a wholly owned subsidiary of Robertson Group (Holdings) Limited, the company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group. The consolidated financial statements of Robertson Group (Holdings) Limited, within which this company is included, can be obtained from the address given in note 17.

Under Financial Reporting Standard 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

#### *Going concern*

The financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reasons. Robertson Construction Group Limited and its subsidiaries (including the Company) ("RCGL") operate as the largely autonomous construction division of Robertson Group (Holdings) Limited. RCGL delivered strong financial performance for the year despite challenging market conditions. The directors have prepared trading and cash flow forecasts for RCGL for the year through to 30 September 2013. Although the current difficult economic conditions continue to create uncertainty over the timing and amount of the ultimate realisation of cash flows, these cash flow forecasts, which take account of sensitivities in relation to the key assumptions applicable to the business, including assumptions in relation to workload and margin, continue to demonstrate that RCGL is expected to remain profitable and cash generative for the foreseeable future.

The financing arrangements applicable to RCGL also form part of the wider financing arrangements of Robertson Group (Holdings) Limited. As explained in note 13, RCGL is a guarantor to Robertson Group (Holdings) Limited consolidated bank arrangements.

#### *Turnover*

Turnover represents the value of work performed and goods and services supplied by the company during the year and exclude VAT.

#### *Tangible fixed assets and depreciation*

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Plant and machinery                      -                      3 to 5 years

#### *Leases*

Operating lease rentals are charged to the profit and loss account on a straight line basis over the year of the lease.

#### *Pensions*

The company contributes to company personal pension plans for employees who also undertake to contribute, the costs of which are charged to the profit and loss account as they become payable. The amount charged to the profit and loss account represents the contributions payable to the scheme in respect of the accounting year.

## Notes (continued)

### 1 Accounting policies (continued)

#### Long term contracts

The amount of profit attributable to the stage of completion of a long-term contract is recognised when the outcome of the contract can be foreseen with reasonable certainty. Turnover for such contracts is stated at cost appropriate to their stage of completion plus attributable profits, less amounts recognised in previous years. Provision is made for any losses as soon as they are foreseen.

Contract work in progress is stated at costs incurred, less those transferred to the profit and loss account, after deducting foreseeable losses and payments on account not matched with turnover.

Amounts recoverable on contracts are included in debtors and represent turnover recognised in excess of payments on account. Payments on account received in excess of turnover recognised are included in creditors.

#### Development expenditure

Pre-contract costs are expensed as incurred until the company is appointed as sole preferred bidder. Provided the contract is expected to generate sufficient net cash inflows to enable recovery and the award of the contract is virtually certain, pre-contract costs incurred post the appointment as preferred bidder are included in debtors.

Where pre-contract bid costs that have been recognised as an asset are reimbursed at financial close both the income and the asset are released to the profit and loss account.

#### Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

### 2 Turnover

The turnover of the company for the year has been derived from its principal activity wholly undertaken in the United Kingdom.

### 6 Taxation (continued)

#### Factors affecting the tax charge for the current year

The current tax charge for the year is lower than (2011: lower than) the standard rate of corporation tax in the UK of 26% (2011: 28%) as explained below.

	Year ended 30 March 2012 £000	Year ended 4 April 2011 £000
<i>Current tax reconciliation</i>		
Profit on ordinary activities before tax	1,250	440
Current tax at 26% (2010: 28%)	325	123
Effects of:		
Group relief received for nil consideration	(279)	-
Adjustment in respect of prior years	4	(102)
Total current tax charge	50	21

#### Factors affecting the future current and total tax charges

The 2012 Budget on 21 March 2012 announced that the UK corporation tax rate will reduce to 22% by 2014. A reduction in the rate from 26% to 25% (effective from 1 April 2012) was substantively enacted on 5 July 2011, and further reductions to 24% (effective from 1 April 2012) and 23% (effective from 1 April 2013) were substantively enacted on 26 March 2012 and 3 July 2012 respectively. This will reduce the Group's future tax charge accordingly and further reduce the deferred tax asset at 30 March 2012.

It has not yet been possible to quantify the full anticipated effect of the announced further 1% rate reduction, although this will further reduce the Group's future tax charge and reduce the Group's deferred tax asset accordingly.
