## Notes to the abbreviated accounts For the year ended 31 March 2011

### Accounting policies

### 1.1 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

### 1.2 Accounting convention

The financial statements are prepared under the historical cost convention modified to include the revaluation of investment properties and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The directors remain confident that bank loan and other borrowing facilities will continue to be provided going forward and in any event for a period of not less than 12 months following their approval of these financial statments. On this basis, the directors consider it appropriate to prepare the financial statments on a going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of the loan facilities by the company's bankers or other providers.

#### 1.3 Turnover

Turnover represents rental income receivable during the period.

### 1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated residual value of each asset over its expected useful life, as follows:

Fixtures, fittings & equipment

3 years

Investment properties are included in the balance sheet at valuation.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

### 1.5 Taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.
