SWAN MARINE SURVEYORS LIMITED

NOTES TO THE UNAUDITED ABBREVIATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MAY 2016

1 Accounting policies

Basis of accounting

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover for the year has increased in comparison to 2015 and the company has reported a profit for the year. The directors are confident that turnover will continue at similar levels throughout the coming year and that the company will continue to be profitable. The financial statements are therefore prepared on a going concern basis.

Turnover

Turnover represents revenue recognised in the accounts. Revenue is recognised when the company fulfills its contractual obligations to customers by supplying goods and services and excludes value added tax.

Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Heritable buildings	2% straight line
Office equipment	33% straight line
Fixtures and fittings	20% straight line
Motor vehicles	25% straight line

Long term contracts

Amounts recoverable on long term contracts, which are included in debtors, are stated at the net sales value of the work done after provision for contingencies and anticipated future losses on contracts, less amounts received as progress payments on account. Excess progress payments are included in creditors as payments on account.

Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.

Financial instruments

Financial instruments are classified and accounted for according to the substance of the contractual arrangement as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
