**Notes to the Abbreviated Accounts
for the Year Ended 31 December 2010**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

At the year end the company had net liabilities of £13,483. In addition, the company's bank loan is currently due for renewal. The director is in discussion with the bank in order to secure facilities beyond this date.

The director expects that the facility will be renewed and that with the continued support of the bank and associated companies, believes that it is therefore appropriate to prepare these accounts on a going concern basis.

Turnover

Turnover represents income arising from property rental, excluding VAT.

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Deferred tax is provided at the average rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. Deferred tax assets and liabilities are not discounted.
