Directors' Report

The directors present their report and financial statements for Cairn UK Holdings Limited ("the Company") for the year ended 31 December 2016.

Business Review

This report has been prepared in accordance with the special provisions relating to small companies within Part 15 of the Companies Act 2006 and therefore does not prepare a strategic report.

During the year the Company made a loss before tax of US\$0.2m (2015: US\$313.3m) mainly due to costs incurred of US\$7.2m (2015: US\$4.2m) in defending the Company's tax position in India; these costs were offset by net finance income of US\$7.0m (2015: US\$9.5m). The surplus arising on the available-for-sale asset during 2016 of US\$272.1m has been reflected in Other Comprehensive Income and is held in the available-for-sale reserve as at 31 December 2016. The loss before tax in the prior year of US\$313.3m was primarily driven by an impairment of the available-for-sale financial asset of US\$318.6m.

The Directors do not propose paying a dividend for the year ended 31 December 2016 (2015: nil).

The Company received an assessment order from the Indian Income Tax Department ("IITD") relating to the intra-group restructuring undertaken in 2006 prior to the IPO of Cairn India Limited ("CIL") in India, which cites a retrospective amendment to Indian tax law introduced in 2012. The assessment order is in the amount of INR 102billion (approximately US\$1.5bn) plus interest back dated to 2007 totalling INR 188bn (approximately US\$2.8bn). The total assets of the Company have a current value of US\$749.3m and any recovery by the Indian authorities would be limited to such assets.

The Company strongly contests the basis of this attempt to retrospectively levy tax on an internal restructuring. The Company is pursuing its rights under Indian law to appeal the assessment, and additionally has commenced international arbitration proceedings, see note 11 for further details. No provision has been made in the financial statements relating to this assessment.

Cairn has reviewed the impact of the restriction on the sale of CIL shares and the receipt of the assessment in determining the ability of the Company to continue to operate as a going concern and the directors are satisfied that preparing the financial statements on a going concern basis is appropriate.

Principal Risks and Uncertainties

The principal risks and uncertainties facing the Company derive from holding investments in CIL. The assessment order received from the Indian Income Tax Department has restricted the Company's ability to sell the CIL shareholding.

Accounting Policies

The Company applies accounting policies in line with the Cairn Energy PLC Group accounting policies. Significant accounting policies of the Group are included in the Cairn Energy PLC financial statements. Accounting policies relating to non-material items are available on the Cairn Energy PLC website.

Financial Instruments

For detail of the Company's financial risk management policy see note 8.

Directors

The directors of the company who were in office during the year and up to the date of signing the financial statements were:

James Smith Simon Thomson

Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable International Financial Reporting Standards (IFRSs) as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Directors' Report (continued)

Disclosure of Information to Auditors

The directors of the Company who held office as at the date of this report confirm that, as far as they are aware, there is no relevant audit information of which the Company's auditors are unaware. In making this confirmation, the directors have taken appropriate steps to make themselves aware of the relevant audit information and that the Company's auditors are aware of this information.

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office, and a resolution that they be re-appointed will be presented at the annual general meeting.

By Order of the Board

Ameen Wood

Duncan Wood 50 Lothian Road Edinburgh EH3 9BY

7 March 2017

Independent auditors' report to the members of Cairn UK Holdings Limited

Report on the financial statements

Our opinion

In our opinion, Cairn UK Holdings Limited's financial statements (the "financial statements"):

- give a true and fair view of the state of the company's affairs as at 31 December 2016 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

What we have audited

The financial statements, included within the Report & Financial Statements (the "Annual Report"), comprise:

- the balance sheet as at 31 December 2016;
- the income statement and statement of comprehensive income for the year then ended;
- the statement of cash flows for the year then ended;
- · the statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is IFRSs as adopted by the European Union, and applicable law.

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' Report for the financial year for which the financial statements are prepared
 is consistent with the financial statements; and
- the Directors' Report has been prepared in accordance with applicable legal requirements.

In addition, in light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we are required to report if we have identified any material misstatements in the Directors' Report. We have nothing to report in this respect.

Other matters on which we are required to report by exception

Adequacy of accounting records and information and explanations received

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' remuneration

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

Entitlement to exemptions

Under the Companies Act 2006 we are required to report to you if, in our opinion, the directors were not entitled to take advantage of the small companies exemption from preparing a strategic report. We have no exceptions to report arising from this responsibility.

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Statement of Directors' Responsibilities set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

We conducted our audit in accordance with ISAs (UK & Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the company's circumstances and have been consistently
 applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report. With respect to the Directors' Report, we consider whether those reports include the disclosures required by applicable legal requirements.

Michael Timar (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP

Notes to the financial statements

1 Significant Accounting Policies

a) Basis of preparation

The financial statements of Cairn UK Holdings Limited for the year ended 31 December 2016 were authorised for issue in accordance with a resolution of the directors on 7 March 2017. The Company is a limited company incorporated in Scotland and domiciled in the United Kingdom. The registered office is located at 50 Lothian Road, Edinburgh, Scotland. The registered company number is SC304517.

The Company prepares its financial statements on a historical cost basis, unless accounting standards require an alternate basis. Where there are assets and liabilities calculated on a different basis, this fact is disclosed in the relevant accounting policy or notes to the financial statements. The accounting policies have been consistently applied to all the years presented. The financial statements comply with the Companies Act 2006 as applicable to companies using International Financial Reporting Standards ("IFRS").

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Business Review on page 2. The financial position of the Company, its liquidity position and borrowing facilities are presented in the financial statements and supporting notes. In addition, note 8 to the financial statements includes the company's objectives, policies and processes for managing its capital; its financial risk management objectives and details of its financial instruments; and its exposures to liquidity risk.

b) Going concern

The Company has sufficient financial resources with which the directors believe that the Company is well placed to manage its business risks successfully. The parent company, Cairn Energy PLC, will continue to pay operational expenses on behalf of the Company up to the level of the outstanding loan receivable by the Company. The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least 12 months from the date of signing these financial statements.

The Company has reviewed the impact of the restriction on the sale of CIL shares and the subsequent receipt of the assessment order in determining the ability of the Company to continue to operate as a going concern. The directors are confident that the Company will be successful in the arbitration process and accordingly do not expect this to cause an outflow of cash in the going concern period.

Based on the above, the directors are satisfied that preparing the financial statements on a going concern basis is appropriate.

c) Accounting standards

The Company prepares its financial statements in accordance with applicable IFRS, issued by the International Accounting Standards Board ("IASB") as adopted by the EU, and interpretations issued by the IFRS Interpretations Committee and Companies Act 2006 applicable to companies reporting under IFRS. The Group's financial statements are also consistent with IFRS as issued by the IASB as they apply to accounting periods ended 31 December 2016.

Effective 1 January 2016, the Company has adopted the following amendments to standards:

- Annual improvements to IFRSs 2012-2014 Cycle
- Amendments to IFRS 10 Consolidated Financial Statements
- Amendments to IFRS 11 Joint Arrangements
- Amendments to IFRS 12 Disclosure of Interests in Other Entities
- Amendments to IAS 1 Presentation of Financial Statements
- Amendments to IAS 16 Property, Plant and Equipment
- Amendments to IAS 27 Separate Financial Statements
- Amendments to IAS 28 Investments in Associates and Joint Ventures
- Amendments to IAS 38 Intangible Assets

The adoption of these amendments has had no material impact on the Company's results or financial statement disclosures.

Notes to the financial statements

1 Significant Accounting Policies (continued)

The following new standards issued by the IASB and endorsed by the EU have yet to be adopted by the Company:

- IFRS 9 Financial Instruments (effective 1 January 2018)
- IFRS 15 Revenue from Contracts with Customers (effective 1 January 2018)

The adoption of these standards is not expected to have a material impact on the Company's results or financial statement disclosures.

The following new accounting standards and amendments to existing standards have been issued but are not yet effective and have not yet been endorsed by the EU

- IFRS 16 Leases (effective 1 January 2019)
- Amendments to IFRS 2 Share Based Payments (effective 1 January 2018)
- Amendments to IAS 7 Statement of Cash Flows (effective 1 January 2017)
- Amendments to IAS 12 Income Taxes (effective 1 January 2017)
- Clarifications to IFRS 15 Revenue from Contracts with Customers (effective 1 January 2018)

The Company is currently assessing the impact of adopting the new accounting standards noted above on its audited financial statements.

The Company has not early adopted any other standard, amendment or interpretation that was issued but is not yet effective.

d) Foreign currencies

These financial statements continue to be presented in US dollars (US\$), the functional currency of the Company.

The Company translates foreign currency transactions into the functional currency at the rate of exchange prevailing at the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into the functional currency at the rate of exchange prevailing at the balance sheet date. Exchange differences arising are taken to the income statement.

Rates of exchange to US\$1 were as follows:

		YTD		YTD
	Closing 2016	Average 2016	Closing 2015	Average 2015
Indian Rupee	67.95	67.17	66.21	64.08

e) Finance income

Dividend income is recognised on an accruals basis where the right to receive a payment is established. Dividend income is recognised within finance income.

f) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets are categorised as financial assets held at fair value through profit or loss, held-to-maturity investments, loans and receivables and available-for-sale financial assets. The Company holds financial assets which are classified as either available-for-sale financial assets held at fair value or other receivables held at amortised cost.

Financial liabilities generally substantiate claims for repayment in cash or another financial asset. Financial liabilities are categorised as either fair value through profit or loss or held at amortised cost. All of the Company's financial liabilities are held at amortised cost.

Financial instruments are generally recognised as soon as the Company becomes party to the contractual regulations of the financial instrument.

Notes to the financial statements

Significant Accounting Policies (continued)

g) Available-for-sale financial assets

The Company's available-for-sale financial assets represent listed equity shares which are held at fair value (the quoted market price). Movements in the fair value during the year are recognised directly in equity and are disclosed in the Statement of Comprehensive Income. The cumulative gains or losses that arise on subsequent disposal of available-for-sale assets are recycled through the income statement.

At each reporting date, the fair value of the financial asset is compared to the value at the date of its initial recognition for signs of a prolonged or significant deficit in the valuation, which would indicate impairment. Where impairment is identified, cumulative losses recognised in other comprehensive income are recycled to the income statement. In the event of a subsequent recovery in the valuation of the asset, there is no reversal of impairment; any such post-impairment gains are recognised as a surplus through other comprehensive income. Any further impairment losses will be recognised through the income statement.

h) Other receivables

Other receivables (classified as loans and receivables under IAS 39) that have fixed or determinable payments that are not quoted on an active market are initially measured at fair value and then subsequently at amortised cost using the effective interest method less any impairment. Other receivables include dividends which are recognised on the ex-dividend date.

The carrying amounts of other receivables are tested at each reporting date to determine whether there is objective material evidence of impairment, for example overdue debt. Any impairment losses are recognised through the use of an allowance account. When a receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in the income statement or balance sheet in accordance with where the original receivable was recognised.

i) Equity

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs, allocated between share capital and share premium.

j) Taxation

The total tax charge or credit represents the sum of current tax and deferred tax. The current tax is based on taxable profit or loss for the year. Taxable profit or loss differs from net profit or loss as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit or loss. Deferred tax assets are recognised for deductible temporary differences that exist only where it is probable that taxable profits will be generated against which the carrying value of the deferred tax asset can be recovered. Deferred tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint operations where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

A deferred tax asset or liability is not recognised if a temporary difference arises on initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

Current and deferred tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Notes to the financial statements

1 Significant Accounting Policies (continued)

k) Significant accounting judgements, key estimations and assumptions

The Company has used accounting judgment, estimates and assumptions in arriving at certain figures within the financial statements. The resulting accounting estimates may not equate with the actual results which will only be known in time. Those areas believed to be key areas of estimation are noted below, with further details of the assumptions contained in the relevant note.

Contingent liability - taxation

The Company has received an assessment order from the Indian Income Tax Department relating to the intra-group restructuring undertaken in 2006 in the amount of US\$1.5bn plus interest back dated to 2007 totalling US\$2.8bn. The Company strongly contests the basis of this assessment, and is pursuing its rights under Indian law to appeal the assessment, and furthermore has commenced international arbitration proceedings, see note 11 for further details. The Company has not made any accounting provision in respect of the tax assessment.

2 Operating Loss

Administrative expenses

Administrative expenses of US\$7.2m (2015: US\$4.2m) represent costs incurred defending the Company's tax position in India.

Auditors' Remuneration

The Company's auditors' remuneration for 2016 was US\$23,045 (2015: US\$25,816). Auditors' remuneration for other services is disclosed in the financial statements of Cairn Energy PLC, the ultimate parent undertaking.

The Company has a policy in place for the award of non-audit work to the auditors which, in certain circumstances, requires approval by the Audit Committee of Cairn Energy PLC, the ultimate parent undertaking. Details of this policy can be found on the Cairn Energy PLC website. No such costs were incurred by the Company during the year (2015: US\$nil).

Employees

This company has no employees (2015: none).

3 Finance Income

mance moone	2016 US\$m	2015 US\$m
Dividend income	8.2	11.6
	8.2	11.6

Dividend income is receivable from CIL. See notes 5, 6 and 11.

Notes to the financial statements

Taxation

Analysis of tax credit in year	2016 US\$m	2015 US\$m
Deferred tax:		
ndian deferred tax at 21.63% (2015: 21.63%) on valuation of financial asset	-	(9.4)
Tax credit on loss	-	(9.4)

	2016 US\$m	2015 US\$m
Loss before taxation	(0.2)	(313.3)
Tax at the standard rate of UK corporation tax of 20%		
(2015: 20.25%)	•	(63.4)
Effects of:		
Non-taxable income	(1.6)	(2.4)
Deferred tax asset not recognised	0.5	60.3
Non-deductible expenses	1.1	0.5
Impact of overseas tax rate		(4.4)
Total tax credit	<u> </u>	(9.4)

The reconciliation shown above has been based on the average UK statutory rate of corporation tax for 2016 of 20% (2015: 20.25%).

The UK main rate of corporation tax is currently 20% (21% prior to 1 April 2015).

Reconciliation of Deferred Tax Liability

	Total US\$m
At 1 January 2015	(9.4)
Credit to income statement Credit recognised in other comprehensive income on valuation of	9.4
available-for-sale financial asset	9.4
Recycled from other comprehensive income on impairment of available-for-sale financial asset	(9.4)
At 31 December 2015 and 31 December 2016	-

No deferred tax asset has been recognised in respect of the tax base in excess of the carrying value of the availablefor-sale financial asset of US\$2.7m (2015: US\$274.8m), expenses of management carried forward for future relief of US\$5.5m (2015: US\$4.9m), or non-trade finance deficits of US\$4.1m (2015: US\$3.7m) as it is not considered probable that these will be utilised in future periods.

Notes to the financial statements

5 Available-for-sale Financial Assets

	Listed equity shares US\$m
As at 1 January 2015	702.6
Deficit on valuation	(318.6)
As at 1 January 2016	384.0
Surplus on valuation	272.1
As at 31 December 2016	656.1

Available-for-sale financial assets represent the Company's remaining investment in the fully diluted share capital of CIL, listed in India, which by its nature has no fixed maturity or coupon rate. These listed equity securities present the Company with an opportunity for return through dividend income or trading gains.

At 31 December 2016, the value of the investment in CIL had increased to US\$656.1m.

The significant accumulated deficit during 2015 of US\$318.6m was recycled to the 2015 income statement and recorded as impairment.

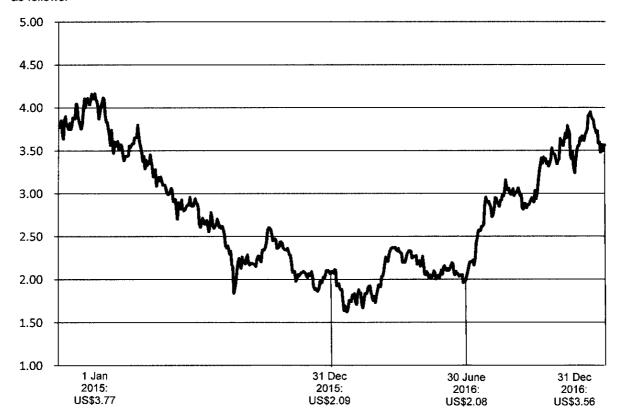

The Company is currently restricted from selling its shares in CIL. See note 11.

The Company is exposed to equity price risks arising from the listed equity investments it holds in CIL.

Movements in the fair value during the year are recognised directly in equity and are disclosed in the statement of comprehensive income. The cumulative gain or loss that arises on disposal of available-for-sale financial assets is recycled through the income statement.

Sensitivity analysis

At the year end the closing CIL share price used to value the available-for-sale financial assets was INR 242.15/US\$3.56 (2015: INR 138.10/US\$2.09). The movement in the CIL share price over the current and prior year is as follows:

Notes to the financial statements

5 Available-for-sale Financial Assets (continued)

The sensitivity analysis below has been determined based on the exposure to equity price risks at the reporting date, assuming all other variables are held constant. Sensitivities have been run based on various scenarios including the highest and lowest share prices measured in the preceding 12-month period. Those prices are determined using the closing INR share price converted to US\$ at the daily rate.

	As at 31 December 2016	Effect on loss for year US\$m	Effect on Equity US\$m
	Increase to the highest share price in 2016 – INR 266 (US\$3.95)	_	56.4
	Decrease of 10% on closing share price in 2016 - INR 217 (US\$3.21)	-	(65.6)
	Decrease to the two year average share price to 31 December 2016 - INR 180.28	-	(148.4)
	(US\$2.76) Decrease to the lowest share price in 2016 - INR 110 (US\$1.62)	(85.5)	(357.5)
		Effect on loss	Effect on

8 Financial Risk Management: Objectives and Policies

The main risks arising from the Company's financial instruments are liquidity risk, foreign currency risk, and market risk arising from equity price fluctuations, see note 5. The Board of the Company's ultimate parent company, Cairn Energy PLC, through the Treasury Sub-Committee, and Executive team as appropriate, reviews and agrees policies for managing each of these risks and these are summarised below.

Management of these risks is carried out by monitoring of cash flows, investment and funding requirements using a variety of techniques. These potential exposures are managed whilst ensuring that the Company and the Group have adequate liquidity at all times in order to meet their immediate cash requirements. There are no significant concentrations of risks unless otherwise stated. The Company does not enter into or trade financial instruments, including derivatives, for speculative purposes.

The primary financial assets and liabilities of the Company comprise listed equity shares (CIL only), intra-group loans and other receivables. Cairn Energy PLC's strategy has been to finance the operations of subsidiaries through a mixture of retained profits and bank borrowings. Other alternatives such as equity issues and other forms of non investment-grade debt finance are reviewed by the Cairn Energy PLC Board, when appropriate.

Liquidity risk

Cairn Energy PLC closely monitors and manages the liquidity risk of its subsidiaries using both short and long-term cash flow projections, supplemented by debt and equity financing plans and active portfolio management. Cash forecasts are regularly produced and sensitivities run for different scenarios including, but not limited to, changes in and delays of development projects. The forecasts show that the Group will be able to operate within its current debt facilities and have financial headroom for the 12 months from the date of approval of the Cairn Energy PLC 2016 Annual Report and Accounts.

Surplus cash is invested in a combination of money market liquidity funds, repos, notice accounts and term deposits with a number of international and UK financial institutions, ensuring sufficient liquidity to enable the Cairn Energy PLC Group and its subsidiaries to meet its short and medium-term expenditure requirements.

Foreign currency risk

The Company manages exposures that arise from non-functional currency receipts and payments by matching receipts and payments in the same currency and actively managing the residual net position. Where residual net exposures do exist and they are considered significant to the Company, the Group may from time to time opt to use derivative financial instruments to minimise the exposure to fluctuations in foreign exchange and interest rates.

Capital Management

The Group's treasury function monitors the long-term cash flow requirements of the business in order to assess the requirement for changes to the capital structure to meet that objective and to maintain flexibility.

The Company manages the capital structure and makes adjustments to it in light of changes to economic conditions. To maintain or adjust the capital structure, the Company may issue shares for cash, put in place new debt facilities or other such restructuring activities as appropriate. No significant changes were made in the objectives, policies or processes during the year ended 31 December 2016.

Company capital and net debt were made up as follows:

sompany dapital and not debt here made up as folience.	31 December 2016 US\$m	31 December 2015 US\$m
Other payables	0.4	0.5
Net debt	0.4	0.5
Equity	748.9	477.0
Capital and net debt	749.3	477.5
Gearing ratio	0.05%	0.12%

Notes to the financial statements

9 Financial Instruments

The Company calculates the fair value of assets and liabilities by reference to amounts considered to be receivable or payable on the balance sheet date. The Company's financial assets and liabilities, together with their fair values are as follows:

Carrying amount		Fair value	
31 December	31 December	31 December	31 December
2016	2015	2016	2015
US\$m	US\$m	US\$m	US\$m
656.1	384.0	656.1	384.0
50.6	43.1	50.6	43.1
42.6	50.4	42.6	50.4
749.3	477.5	749.3	477.5
	31 December 2016 US\$m 656.1 50.6 42.6	2016 2015 US\$m US\$m 656.1 384.0 50.6 43.1 42.6 50.4	31 December 31 December 31 December 2016 2015 2016 US\$m US\$m US\$m 656.1 384.0 656.1 50.6 43.1 50.6 42.6 50.4 42.6

The receivables above are current and unimpaired.

The fair value of financial assets has been calculated by discounting the expected future cash flows at prevailing interest rates.

Fair value

The Company holds listed equity shares as a non-current available-for-sale financial asset. The Company determines and discloses the fair value of these by reference to the quoted (unadjusted) prices in active markets for those shares at the measurement date.

At 31 December the Company held the following financial instruments measured at fair value:

Assets measured at fair value – Level 1	2016 US\$m	2015 US\$m
Available-for-sale financial assets		
Equity shares - listed	656.1	384.0
	656.1	384.0

10 Related Party Transactions

The following table provides the balances which are outstanding with the Group companies at the balance sheet date:

	31 December 2016 US\$m	31 December 2015 US\$m
Amounts receivable from parent company	42.6	50.4
	42.6	50.4

The amounts outstanding are unsecured, repayable on demand and will be settled in cash.

Remuneration of key management personnel and directors

The directors of the Company are also directors of other companies in the Cairn Energy PLC group. The directors received remuneration for the year of US\$2.3m (2015: US\$2.5m) and pension contributions of US\$0.2m (2015: US\$0.2m) all of which was paid by other companies in the group. The directors do not believe that it is practicable to apportion this amount between their services as directors of the Company and their services as directors of Cairn Energy PLC and fellow subsidiary companies. There are no agreements between the Company and the Board of Directors.

Other transactions

During the year, the Company's parent company Cairn Energy PLC, issued invoices to the Company of US\$6.2m (2015: US\$3.5m), and Capricorn Energy, a fellow subsidiary of the Company, issued invoices to the Company of US\$1.2m (2015: US\$1.7m).

Notes to the financial statements

11 Contingent Liability

The Company has received an assessment order from the Indian Income Tax Department ("IITD") relating to the intragroup restructuring undertaken in 2006 prior to the IPO of CIL in India, which cites a retrospective amendment to Indian tax law introduced in 2012. The Company strongly contests the basis of this attempt to retrospectively levy tax on an internal restructuring.

The assessment order is in the amount of INR102billion (approximately US\$1.5bn) plus interest back dated to 2007 totalling INR 188bn (approximately US\$2.8bn). The total assets of the Company have a current value of US\$749.3m (comprising principally the group's 9.8% shareholding in CIL) and any recovery by the Indian authorities would be limited to such assets.

The Company is pursuing its rights under Indian law to appeal the assessment, both in respect of the basis of taxation and the quantum assessed. The 9.8% shareholding in CIL was originally attached by the IITD in January 2014 and the Company continues to be restricted by the IITD from selling such shares. See note 5.

Furthermore, the Company has also commenced international arbitration proceedings against the Republic of India under the UK-India Bilateral Investment Treaty (the "Treaty"), on the basis that India's actions have breached the Treaty by (1) expropriating the Company's property without adequate and just compensation, (2) denying fair and equitable treatment to the Company in respect of its investments and (3) restricting the Company's right to freely transfer funds in connection with its investment. Based on detailed legal advice, the Company is confident that it will be successful in such arbitration.

The seat of arbitration has been agreed as The Hague in the Netherlands and the Company has filed its Statement of Claim which clearly demonstrates that applying the retrospective amendment to the Company and seizing US\$1bn worth of CIL shares (the value at the date of application of the retrospective amendment) was in breach of the Treaty obligations of fair and equitable treatment and its protections against expropriation. The Republic of India's Statement of Defence was filed in early February 2017 with evidential hearings now expected to take place in January 2018.

The Company has asked the arbitration panel either to order India to withdraw its unlawful tax demand and compensate the Company for the harm suffered by the seizure of the CIL shares, being not less than US\$1.1bn (plus costs); or, if the tax demand remains in place, compensate the Company for the quantum of the tax assessment and the harm suffered by the seizure of the CIL shares, being together not less than US\$5.6bn (plus costs).

12 Ultimate Parent Company

The Company is a subsidiary of Cairn Energy PLC, registered in Scotland, whose principal place of business is at 50 Lothian Road, Edinburgh, EH3 9BY.

Copies of Cairn Energy PLC's financial statements are available to the public and may be obtained from the above mentioned address.
