**Notes to the Abbreviated Accounts
for the Year Ended 30 June 2015**

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

At the period end the company had net liabilities of £867,804. Since July 2013, the company's bank facilities have been provided on a rolling basis.

The director believes that with the continued support of the bank and associated companies, the company will be able to continue in operational existence for the foreseeable future and assuming that the current tenants continue to pay their rent in accordance with the terms of their lease. Should these factors change then additional support will be required. The director believes that these circumstances will not arise in the next twelve months. As such, it is therefore appropriate to prepare these accounts on a going concern basis.

Turnover

Turnover represents net invoiced rental income and sales of services, excluding value added tax.

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Deferred tax is provided at the average rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. Deferred tax assets and liabilities are not discounted.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
