## Bridgewater Hospital (Manchester) Limited ACCOUNTING POLICIES

#### **BASIS OF ACCOUNTING**

The financial statements have been prepared under the historical cost convention, and on a going concern basis, which is reliant on the continuing support of the other group companies and the group's lenders.

#### **CASH FLOW STATEMENT**

The directors have taken advantage of the exemption of Financial Reporting Standard No 1 (Revised 1996) from including a cash flow in the financial statements on the grounds that the Company is wholly owned and its parent publishes a consolidated cash flow statement.

#### **TURNOVER**

The turnover shown in the profit and loss account represents amounts invoiced during the period, exclusive of Value Added Tax.

#### **FIXED ASSETS**

All fixed assets are initially recorded at cost.

#### DEPRECIATION

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Equipment

- 10% - 20% reducing balance

Fixtures and Fittings

- 15% - 20% reducing balance

Leasehold Improvements

- 15% reducing balance or over term of lease

#### **STOCKS**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

#### **OPERATING LEASE AGREEMENTS**

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

#### **DEFERRED TAXATION**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

#### PENSION COSTS

The Company made contributions into employees' private pension schemes during the year. The assets of these schemes are held separately from those of the Company. The contributions are charged to the profit and loss.

## Bridgewater Hospital (Manchester) Limited ACCOUNTING POLICIES

#### FINANCIAL INSTRUMENTS

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

## Bridgewater Hospital (Manchester) Limited NOTES TO THE FINANCIAL STATEMENTS

for the year to 28 December 2013

#### **TURNOVER**

The turnover for the year was derived from the Company's principal activity. The whole of the turnover is attributable to the UK market.
