The directors present their Strategic Report on ScottishPower Renewables (WODS) Limited ("the Company") for the year ended 31 December 2022.

INTRODUCTION

The principal activity of the Company, registered company number SC374288, is the joint operation of the West of Duddon Sands ("WODS") offshore wind farm located in the East Irish Sea. This activity will continue for the foreseeable future.

The ultimate parent of the Company is Iberdrola, S.A. ("Iberdrola") which is listed on the Madrid stock exchange. The immediate parent of the Company is ScottishPower Renewables (UK) Limited ("SPRUKL"). Scottish Power Limited ("SPL") is the United Kingdom ("UK") holding company of the Scottish Power Limited Group ("ScottishPower") of which the Company is a member.

The Company is part of ScottishPower's Renewables business ("Renewables") responsible for the origination, development, construction and operation of renewable generation plants, principally onshore and offshore wind, with a growing presence in emerging renewable technologies and innovations such as battery storage and solar.

STRATEGIC OUTLOOK

Operating review

The 389 megawatt ("MW") WODS project is a 50/50 joint arrangement with Orsted West of Duddon Sands (UK) Limited. These Accounts contain the Company's share of the WODS joint arrangement. The project is in its second operational term, with Orsted Wind Power A/S providing operations and maintenance services. The site continues to deliver availability in line with expectations.

2022 Performance

·	Revenue* ·		 Opera 	Operating profit*		Capital investment**	
	2022	2021	2022	2021	2022	2021

ScottishPower Renewables WODS Ltd	131.0	107.2	67.7	53.4	(21.0)	(0.2)	

^{*}Revenue and Operating profit are presented on the Income statement and statement of comprehensive income on page 13.

Revenue increased by £23.8 million to £131.0 million in 2022 due to higher wind output reflecting more productive weather conditions and higher energy and Renewables Obligation Certificates ("ROCs") prices.

Operating profit increased by £14.3 million to £67.7 million in 2022 principally due to higher revenue, partially offset by increases in Procurements and Net operating costs.

Capital investment decreased by £20.8 million to (£21.0) million reflecting a reduction in decommissioning assets due to an increase in discount rates.

Non-financial key performance indicators			Notes	2022	2021
Plant output (GWh)	•		(a)	771	648
Generating capacity (MW)	,	••	(b)	194	194
Availability			(c)	97%	97%

⁽a) Plant output is a measure of the electrical output generated in the year measured in gigawatt hours ("GWh"), which in turn drives the revenue of

Financial instruments

The Company has Trade and other receivables (principally with Iberdrola Group companies), Trade and other payables and Loans and borrowings. The Company has exposure to credit risk and Treasury risk (comprising both liquidity and market risk) arising from these financial instruments.

Credit risk is the risk that a counterparty will not meet its contractual obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk from Iberdrola Group companies is considered to be low as no Iberdrola Group company has a credit rating lower than BBB+ (in line with Standards & Poors external credit ratings). Liquidity risk is the risk that the Company will have insufficient funds to meet its liabilities and market risk is the risk of loss that results from changes in market rates (e.g., interest rates). Both are managed by ScottishPower's Treasury department who are

^{**} Additions to Property, plant and equipment and reassessment of decommissioning asset within Property, plant and equipment (refer to Note 3 on page 21).

⁽b) Generating capacity represents the total number of MW fully installed within the wind farm site. This includes all turbines irrespective of whether they are generating or not.

⁽c) Availability is a measure of how effective the business is at ensuring wind generating plant is available and ready to generate

STRATEGIC OUTLOOK continued

responsible for arranging banking facilities on behalf of the Company. The Company produces short-term rolling cash flow requirements and if necessary any required funding is obtained via credit facilities already in place.

PRINCIPAL RISKS AND UNCERTAINTIES

To deliver its strategy, ScottishPower and therefore the Company conducts business in a manner benefitting customers through balancing cost and risk, while delivering shareholder value and protecting its performance and reputation by prudently managing the risks inherent in the business. To maintain this strategic direction, ScottishPower develops and implements risk management policies and procedures, and promotes a robust control environment at all levels of the organisation. Further details of ScottishPower's risk management practices can be found in the most recent Annual Report and Accounts of SPL.

The principal risks and uncertainties of the Company, that may impact current and future operational and financial performance and the management of these risks are described below.

ENGAGING WITH STAKEHOLDERS

The importance of engaging with stakeholders

The Company strongly believes that effective and meaningful engagement with stakeholders, especially employees, is key to promoting its success and values. Meaningful engagement with stakeholder groups supports the ethos of section 172 of the Companies Act 2006 which states that directors should have regard to stakeholder interests when discharging their duty to promote, in good faith, the success of the Company for the benefit of its members as a whole. Details of how the Company, engages with its stakeholders, and how these activities influence the Company's operations, are set out below.

Key stakeholders

The Company, has four key stakeholder categories: customers; government and regulators; suppliers and contractors; and community and environment.

Behind these stakeholders are many people, and institutions, organisations and groups. All of them, with their decisions and opinions, influence the Company, and they are also affected by the Company's activities. In addition, these stakeholders interact with each other, creating a universe of relationships that the Company needs to manage in order to achieve a better understanding of its operating environment and to deliver a more sustainable performance across its activities.

Shareholders are important to the Company. The Company's relationship with its shareholders is governed by the Company's Articles of Association and provisions of the Governance and Sustainability System which apply to the Company and the Group, of which the Company is a member. As the Company is ultimately wholly-owned by Iberdrola, all ultimate shareholder management activities are carried out by Iberdrola in accordance with its own Shareholder Engagement Policy as published at www.iberdrola.com.

CUSTOMERS .

The Company's key customer is ScottishPower Energy Retail Limited ("SPERL"), which is a fellow Iberdrola Group company, to whom it provides energy and related services. The success of the Company depends on continuous engagement to understand and provide for the needs of SPERL.

GOVERNMENT AND REGULATORS

Governments and regulators play a central role in shaping the energy sector. ScottishPower and the Company engage with them directly and through trade associations, responding to issues of concern and providing expertise to support policy development. Through this engagement, ScottishPower aims to contribute to the delivery of a UK energy system that functions in the interests of customers now, and in the future, including achievement of the UK and Scottish Governments' net zero decarbonisation targets.

SUPPLIERS AND CONTRACTORS

As part of ScottishPower, the Company's engagement with its suppliers and contractors is driven by the decisions, policies and procedures in place at a ScottishPower level. The directors of the Company ensure that in applying these ScottishPower decisions, policies and procedures they are meeting their duties to the Company.

The Company aims to develop and maintain strong relationships across its supply base with a focus on health and safety, quality, cost and sustainability. The Company expects its suppliers to operate to a high standard including working in an ethical and sustainable manner, and we have a range of policies that all suppliers must adhere to, including the ScottishPower Code of Ethics.

Modern Slavery Statement

The term 'modern slavery' covers both slavery and human trafficking. The Company is committed to human and labour rights and to eliminating modern slavery that could in any way be connected to its business. In accordance with the Modern Slavery Act 2015, ScottishPower has produced its own Modern Slavery Statement, which is subject to annual approval by the board of directors of SPL. This statement is published on the ScottishPower website at: www.scottishpower.com / 'Sustainability' / 'Sustainable business' / 'ScottishPower's Modern Slavery Statement'.

COMMUNITY AND ENVIRONMENT

The Company continually strives to be a trusted, respected and integrated part of the community, by operating with integrity, transparency, and working closely within the community to build relationships. The Company is committed to being a good neighbour throughout all its operations to ensure the benefits are realised in local areas by helping to create local employment and enabling improvements to local infrastructure and services.

ENGAGING WITH STAKEHOLDERS continued

The Company is committed to reducing its environmental footprint by: reducing emissions to air, land and water and preventing environmental harm; minimising energy consumption and use of natural and man-made resources; sourcing material resources responsibly, cutting waste and encouraging re-use and recycling; and protecting natural habitats and restoring biodiversity.

SECTION 172 STATEMENT

Statement by the directors in performance of their statutory duties in accordance with section 172 of the Companies Act 2006

The Companies (Miscellaneous) Reporting Regulations 2018 requires the directors of the Company to give a statement which describes how the directors have had regard to the matters set out in section 172(1) of the Companies Act 2006 when discharging their duty under that section.

The directors acknowledge and understand their duties and responsibilities, including that, under section 172 of the Companies Act 2006, a director of a company must act in the way they consider, in good faith, would be most likely to promote the success of the company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- a) the likely consequences of any decision in the long-term;
- b) the interests of the company's employees;
- c) the need to foster the company's business relationships with suppliers, customers and others;
- d) the impact of the company's operations on the community and the environment;
- e) the desirability of the company maintaining a reputation for high standards of business conduct; and
- f) the need to act fairly as between members of the company.

The delivery of the strategy of Renewables (headed by ScottishPower Renewables Energy Limited) of which the Company is a member, requires the Company business to conduct business in a manner benefitting customers through balancing cost and risk while delivering shareholder value and protecting the performance and reputation of the Company by prudently managing risks inherent in the business. In carrying out this strategy, the directors' duties under section 172 of the Companies Act 2006 have been considered.

The directors believe strongly that effective and meaningful engagement with stakeholders and employees is key to promoting the success of the Company. Details and examples of the key stakeholders of the Company, and how it engages with them are as follows:

- Customers: details of how the Company engages with its customers are explained in the 'Customers' sub-section of the Strategic Report, on page 4. The Company's board of directors ("the Board") recognises that the Company's key customer is ScottishPower Energy Retail Limited, a fellow subsidiary, to which it provides energy and related services.
- Communities and the environment: details of how the Company, engages with communities and considers the
 environment are set out in the 'Community and environment' sub-section of the Strategic Report, on pages 4 and 5.
 During the year, the directors noted that the ScottishPower Group, of which the Company is a member, is expressly
 committed to reducing its environmental footprint, and that engagement with communities, as stakeholders, is
 essential to delivering ScottishPower's objectives.
- Suppliers and contractors: details of how the Company engages with its suppliers are set out in the 'Suppliers and contractors' sub-section of the Strategic Report, on page 4. During the year, the Board considered and approved the adoption by the Company of ScottishPower's 2021 Modern Slavery Statement.
- Government and regulators: details of how the Company engages with governments and regulators are set out in
 the 'Government and regulators' sub-section of the Strategic Report, on page 4. During the year, the directors noted
 that ScottishPower had committed significant resource in its capacity as a principal sponsor to supporting the UK
 Government in delivering the climate change conference COP26 in Glasgow.

SECTION 172 STATEMENT continued

In addition, a statement in relation to the Company's interaction with its shareholders is described in the introduction to the 'Engaging with stakeholders' section of the Strategic Report on page 4.

The directors, both individually and together as a board, consider that the decisions taken during the year ended 31 December 2022 in discharging the function of the Board were in conformance with their duty under section 172 of the Companies Act 2006.

The Board is assisted in considering key stakeholders as part of the decision-making process by including stakeholder considerations in board papers as appropriate, and board papers are carefully reviewed and considered by all directors.

ON BEHALF OF THE BOARD

Heater Coming while

Heather Chalmers White Director 21 June 2023

SCOTTISHPOWER RENEWABLES (WODS) LIMITED DIRECTORS' REPORT

The directors present their report and audited Accounts for the year ended 31 December 2022.

INFORMATION CONTAINED WITHIN THE STRATEGIC REPORT

The directors have chosen to disclose information on the following, required by the Companies Act 2006 to be included in the Directors' Report, within the Strategic Report, found on pages 1 to 6:

- information on financial risk management and policies; and
- information regarding future developments of the Company's business.

STREAMLINED ENERGY AND CARBON REPORTING

The Company is exempt under section 20A of The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018 from the requirements to present disclosures concerning greenhouse gas emissions, energy consumption and energy efficiency action as such disclosures relating to the SPL Group, of which the Company is a part, are presented in the most recent Annual Report and Accounts of ScottishPower UK plc ("SPUK").

RESULTS AND DIVIDEND.

The net profit for the year was £50.1 million (2021 £20.6 million). A dividend of £48.6 million was paid during the year (2021 £14.3 million).

DIRECTORS

The directors who held office during the year were as follows: Heather Chalmers White Charles John Jordan Javier Garcia Gonzalez Quijano (appointed 10 June 2022) Victor Rey Romero (resigned 25 May 2022)

At the date of this report, there have been no changes to the composition of the board of directors of the Company since year end.

DIRECTORS INDEMNITY

In terms of the Company's Articles of Association, a qualifying third-party indemnity provision is in force for the benefit of all the directors of the Company and has been in force during the financial year.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND ACCOUNTS

The directors are responsible for preparing the Annual Report and Accounts in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including Financial Reporting Standard 101, 'Reduced Disclosure Framework' ("FRS 101").

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that their financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND ACCOUNTS continued material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the directors are also responsible for preparing a Strategic Report and Directors' Report that complies with that law and those regulations.

The directors are responsible for the maintenance and integrity of the corporate and financial information relating to the Company that is included on the ScottishPower website. Legislation in the UK governing the preparation and dissemination of the financial statements differs from legislation in other jurisdictions.

Disclosure of information to auditor

Each of the directors in office as at the date of this Annual Report and Accounts confirms that:

- so far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

AUDITOR

KPMG LLP was re-appointed as the auditor of the Company for the year ending 31 December 2023.

ON BEHALF OF THE BOARD

Hearry alite

Heather Chalmers White Director 21 June 2023

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF SCOTTISHPOWER RENEWABLES (WODS) LIMITED

Opinion

We have audited the financial statements of Scottish Power Renewables (WODS) ("the Company") for the year ended 31 December 2022 which comprise the Statement of Financial position, Income statement, Statement of comprehensive income, Statement of changes in equity and related notes, including the principal accounting policies in Note 2.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to
 events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue
 as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Fraud and breaches of laws and regulations - ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors, the internal audit function, the Company's legal function and the compliance function and
 inspection of policy documentation as to the Company's high-level policies and procedures to prevent and detect
 fraud and the Company's channel for "whistleblowing", as well as whether they have knowledge of any actual,
 suspected or alleged fraud.
- · Reading Board minutes.
- Using analytical procedures to identify any unusual or unexpected relationships.
- Consultation with our own forensic professional regarding the identified potential fraud risks. This involved
 discussion between the forensic professional and the senior members of the engagement team.

We communicated identified fraud risks throughout to the audit team and remained alert to any indications of fraud throughout the audit.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SCOTTISHPOWER RENEWABLES (WODS) LIMITED continued

Fraud and breaches of laws and regulations - ability to detect continued

As required by auditing standards, and taking into account possible pressures to meet profit targets and our overall knowledge of the control environment, we performed procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because, the Company's revenues consist entirely of routine, non-complex transactions which are subject to systematic processing and do not require significant judgements. We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation. These included those posted by senior finance management and those posted to unusual accounts.
- Assessing significant accounting estimates for bias.

Identifying and responding to risks of material misstatement related to compliance with laws and regulations. We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, through discussion with the directors and other management (as required by auditing standards), and from inspection of the Company's regulatory and legal correspondence and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably. Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including form and content) including related companies legislation, distributable profits legislation, pensions legislation in respect of multi-employer defined benefit pension schemes, tax legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: GDPR compliance, health and safety legislation, fraud, corruption and bribery legislation, employment and social security legislation including minimum wage and pension auto-enrolment and environmental protection legislation. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore, if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non- detection of fraud, as this may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SCOTTISHPOWER RENEWABLES (WODS) LIMITED continued

Strategic report and directors' report continued

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

'Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

1 BASIS OF PREPARATION

A COMPANY INFORMATION

ScottishPower Renewables (WODS) Limited, registered company number SC374288, is a private company limited by shares, incorporated in Scotland and its registered address is 320 St. Vincent Street, Glasgow, G2 5AD.

B BASIS OF PREPARATION

B1 BASIS OF PREPARATION OF THE ACCOUNTS

The Company is required by law to prepare accounts and to deliver them to the Registrar of Companies. The accounts are prepared in accordance with the accounting policies set out in Note 2. Monetary amounts are presented in pounds Sterling and are rounded to the nearest hundred thousand unless otherwise indicated. The Accounts are prepared on the historical cost basis apart from certain financial assets and liabilities which are measured at fair value.

The accounts contain information about ScottishPower Renewables (WODS) Limited as an individual company and do not contain consolidated financial information as an investor in a joint venture. The Company is exempt under Section 400 of the Companies Act 2006 from the requirements to prepare consolidated accounts as it and its joint venture are included by full consolidation in the consolidated accounts of SPUK.

The Accounts have been prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' ("FRS 101"). In preparing these financial statements, the Company has applied the recognition, measurement and disclosure requirements of international accounting standards ("IAS") as adopted by the UK ("UK-adopted IAS") in conformity with the requirements of the Companies Act 2006 including newly effective IAS for the year ended 31 December 2022 (refer to Note 1C). In applying FRS 101, the Company has made amendments where necessary in order to comply with the Companies Act 2006.

The Company has applied the exemptions available under FRS 101 in respect of the following disclosures for the Annual Report and Accounts:

- certain disclosures regarding revenue;
- comparative period reconciliations for property, plant and equipment;
- disclosures in respect of transactions with wholly-owned subsidiaries of Iberdrola, S.A.;
- disclosures in respect of capital management;
- the effects of new, but not yet effective, IAS pronouncements;
- disclosures in respect of the compensation of key management personnel; and
- the preparation of a Statement of cash flows and the related notes.

As the consolidated financial statements of Iberdrola, S.A. include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of certain disclosures required by IFRS 13 'Fair Value Measurement' and the disclosures required by IFRS 7 'Financial Instruments: Disclosures'.

B2 CHANGE IN PRESENTATION - LOANS RECEIVABLE

IAS 1 'Presentation of Financial Statements' requires that loans should be classified as current or non-current in line with whether the entity expects them to be settled or received within twelve months of the reporting date. Following a review of its loans, the directors identified that certain loans receivable (those due from Iberdrola Group companies which are repayable on demand) were classified as current and should have been classified as non-current. The effect of this reclassification has not been reflected as a restatement to the prior year Statement of financial position as the directors do not consider this to have had a material impact on the Current and Non-current trade and other receivables line items. There is no impact on the Company's net assets position at 1 January 2021 or its results for the year ended 31 December 2021. Refer to Note 6 for further detail.

B3 GOING CONCERN

The financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons.

The principal activity of the Company is the joint operation of the WODS offshore wind farm within the group headed by SPUK ("the SPUK Group"). SPUK, the Company's intermediate parent company is itself a subsidiary of Iberdrola, S.A., the ultimate parent undertaking. The Company's cash flows are therefore dependent on the continuation of those operations and have been considered as part of the SPUK Group's cash flow forecasts, on which the directors of the SPUK Group have performed an assessment of reasonably possible downsides.

1 BASIS OF PREPARATION continued

To meet its working capital requirements, the Company participates in a UK centralised treasury function operated by the Company's intermediate parent company SPL, the parent company of SPUK. At 31 December 2022, the Company had a loan receivable of £18.5 million with SPL. ScottishPower's treasury function works closely with Iberdrola to manage the Company's funding requirements. There has been no indication that these arrangements may change.

The directors have performed a going concern assessment which indicates that, in the case of reasonably possible downsides, the Company will require additional funds, through funding from SPUK, to meet its liabilities as they fall due for at least one year from the date of approval of these financial statements.

SPUK has indicated its intention to make available such funds as are needed by the Company, in the event this is required. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Consequently, the directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least one year from the date of approval of these financial statements and, therefore, have prepared the financial statements on a going concern basis.

C IMPACT OF NEW IAS

As noted above, these Accounts have been prepared in accordance with UK-adopted IAS. In preparing these Accounts, the Company has applied all relevant standards and interpretations that have been adopted by the UK as of the date of approval of these Accounts and that are mandatory for the financial year ended 31 December 2022.

For the year ended 31 December 2022, the Company has applied the following amendments for the first time:

Standard	•	Note
Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets: Onerous		(a)
Contracts - Cost of Fulfilling a Contract'	•	
• Amendments to IFRS 3 'Business Combinations: Reference to the Conceptual Framework'	٠	(a)
• Amendments to IAS 16 'Property, Plant and Equipment: Proceeds before Intended Use'		(a)
Annual Improvements to IFRS Standards 2018-2020 Cycle		(a)

(a) The application of these amendments has not had a material impact on the Company's accounting policies, financial position or performance.

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES

In determining and applying accounting policies, judgement and estimation is often required in respect of items which have a significant effect on the reported amounts of assets, liabilities, income and expenses recognised in the financial statements. Management considers significant judgements and estimates to be those with a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year due to inherent uncertainty regarding estimates and assumptions. There are no significant judgments at 31 December 2022.

Significant estimation uncertainty in applying the Company's accounting policies - Provision for decommissioning costs Decommissioning costs are subject to a degree of uncertainty as they are estimated at the reporting date and actual decommissioning will take place in the future. There is also uncertainty over when the actual decommissioning costs will be incurred. The sources of estimation uncertainty relate to the estimated value of the costs at the reporting date and the discount rate applied. This estimation uncertainty creates a risk of a material adjustment to the provision in the next financial year. Refer to Note 2E for further details. Sensitivity disclosures are set out in Note 9.

The value of decommissioning provisions in the Statement of financial position is £34.3 million (2021 £54.7 million). The decrease in the year is primarily due to the increase in the discount rates used in the calculation.

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES *continued*Non-significant judgement in applying the Company's accounting policies - Consideration of climate change

The impact of climate change on the financial statements, including the risk identified in the Strategic Report on page 2 has been considered. No material impact on the judgements and estimates made in the preparation of the financial statements has been identified. This consideration focussed on the following areas:

- the Company's going concern position, including the cash flow prepared for the directors' assessment referred to in Note 1B3; and
- the risk that increasing variability in weather patterns could result in lower output from renewable generation assets and that there could be a reduction in wholesale electricity prices.

Additionally, consideration has been given to any estimates over the longer-term which should be disclosed to allow for an understanding of the financial statements. The Company has no estimates of this nature to disclose.

The principal accounting policies applied in preparing the accounts are set out below:

- A PROPERTY, PLANT AND EQUIPMENT
- **B** LEASED ASSETS
- C FINANCIAL INSTRUMENTS
- D IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT AND LEASES
- **E DECOMMISSIONING COSTS**
- F REVENUE
- **G** PROCUREMENTS
- **H** OTHER OPERATING RESULTS
- I TAXATION

A PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at cost and depreciated on a straight-line basis over the estimated operational lives of the assets. Property, plant and equipment includes capitalised employee costs, interest, lease depreciation and other directly attributable costs. Reviews of the estimated remaining lives and residual values of property, plant and equipment are undertaken annually. Residual values are assessed based on prices prevailing at each reporting date.

The main depreciation periods used by the Company are as set out below:

· · · -		 Years
Wind power plants	•	 . 24
Distribution facilities	•	24

B LEASED ASSETS

A contract is, or contains a lease if, at inception, the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16 'Leases' ("IFRS 16").

An identified asset will be specified explicitly, or implicitly, in the contract, and will be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, the asset is not identified.

A contract conveys the right to control the use of an identified asset if the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use, and the customer has the right to direct the use of the asset. The customer has this right when they have the decision-making rights that are most relevant to changing how and for what purpose the asset is used. Where this is predetermined, the customer has the right to direct the use of the asset if either they have the right to operate the asset or they designed the asset in a way that predetermines how and for what purposes it will be used.

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued

The Company has elected not to separate non-lease components and thus accounts for the lease and non-lease components in a contract as a single lease component.

B1 LESSEE

As a lessee, the Company recognises a right-of-use asset at the lease commencement date, measured initially at cost. This comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred, and an estimate of costs to dismantle and remove the underlying asset, or restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated on a straight-line basis from the commencement date over the shorter of the useful life of the underlying asset and the lease term. The right-of-use asset is reduced by any impairment losses and adjusted for certain remeasurements of the lease liability. The Company presents Right-of-use assets within Noncurrent assets in the Statement of financial position and the deprecation charge is recorded within Depreciation, amortisation and provisions in the Income statement and statement of comprehensive income. The lease liability recognised at the commencement date is measured initially at the present value of the lease payments that are not paid at that date. Where the rates implicit in the leases cannot be readily determined, the liabilities are discounted using the Company's incremental borrowing rate, being the currency-specific interest rate that would be incurred on a loan, with similar terms, to purchase a similar asset. The incremental borrowing rates will be updated annually and applied to leases commencing in the subsequent year. Therefore, the lease liability is measured at amortised cost using the effective interest rate method. Lease payments included in the measurement of the lease liability comprise fixed payments (including insubstance fixed payments); variable lease payments that depend on an index or a rate initially measured using the index or rate at the commencement date; lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option; and penalties for early termination of a lease unless the Company is reasonably certain not to do so.

The lease liability is remeasured when there is a change in the future lease payments arising from a change in the index or rate, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. This change in the lease liability will result in a corresponding adjustment to the carrying amount of the right-of-use asset, or in profit or loss if the carrying amount of the right-of-use asset is zero.

The Company presents lease liabilities separately in the Statement of financial position; the discount on the liabilities unwinds over the term of the lease and is charged to Finance costs in the Income statement and statement of comprehensive income.

The Company has elected not to recognise right-of-use assets and lease liabilities for certain short-term leases that have a lease term of twelve months or less. The Company recognises any lease payments associated with such leases as an expense on a straight-line basis over the lease term.

C FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

C1 FINANCIAL ASSETS

C1.1 CLASSIFICATION

Financial assets are classified as being measured at amortised cost. The classification of financial assets depends on the Company's business model for managing them to generate cash flows.

The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. The business model of the Company does not depend on the intentions of management for an individual instrument. Therefore, it is not an instrument-by-instrument classification approach but determined from a higher level of aggregation.

A financial asset is measured at amortised cost if it meets both of the following conditions:

it is held within a business model whose objective is to hold assets to collect contractual cash flows; and

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued

• its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding. This assessment is referred to as the 'SPPI' test.

Financial assets are only subsequently reclassified when the Company changes its business model for managing them. Reclassifications are effective from the first day of the first reporting period following the change in business model. Such reclassifications are expected to be infrequent.

C1.2 RECOGNITION AND MEASUREMENT

(a) Initial recognition and measurement

All financial assets, except for trade receivables which are initially recognised when they originate, are initially recognised when the Company becomes party to the contractual provisions of the instrument.

Financial assets are initially measured at fair value plus transaction costs that are directly attributable to its acquisition or issue except trade receivables without a significant financing component which are measured at the transaction price determined under IFRS 15 'Revenue from Contracts with Customers' ("IFRS 15").

(b) Subsequent measurement and gains and losses

Financial assets classified as amortised cost are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, and net credit losses are recognised in the Income statement and statement of comprehensive income. Any gain or loss on derecognition is also recognised in the Income statement and statement of comprehensive income.

(c) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when either the rights to receive cash flows from the asset have expired and there is no reasonable expectation of recovering all, or a portion of, the contractual cash flows.

C2 FINANCIAL LIABILITIES

C2.1 CLASSIFICATION

Financial liabilities are classified as measured at amortised cost.

C2.2 RECOGNITION AND MEASUREMENT

(a) Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

(b) Subsequent measurement and gains and losses

Financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the Income statement and statement of comprehensive income. Any gain or loss on derecognition is also recognised in the Income statement and statement of comprehensive income.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees, or costs that are an integral part of the effective interest rate. The effective interest charge is included as Finance costs in the Income statement and statement of comprehensive income.

(c) Derecognition

The Company derecognises a financial liability when the obligation under that liability is discharged, cancelled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, the original liability is derecognised and a new liability recognised. The difference in their respective carrying amounts is recognised in the Income statement and statement of comprehensive income.

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued D IMPAIRMENT OF PROPERTY, PLANT AND EQUIPMENT AND LEASES

At each reporting date, the Company reviews the carrying amount of its property, plant and equipment and leased assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset (the greater of its value-in-use and its fair value less costs to sell) is estimated in order to determine the extent of the impairment loss (if any). In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money, the risks specific to the asset and lease liabilities under IFRS 16.

An impairment loss is recognised if the carrying amount of an asset exceeds its estimated recoverable amount. Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. Any impairment is recognised in the Income statement and statement of comprehensive income in the period in which it is identified. Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been recognised, net of depreciation or amortisation, if no impairment loss had been recognised.

E DECOMMISSIONING COSTS

Provision is made, on a discounted basis, for the estimated decommissioning costs of certain non-current assets. Capitalised decommissioning costs are depreciated over the useful lives of the related assets. The unwinding of the discount is included within Finance costs in the Income statement and statement of comprehensive income. The discount rate used for each provision is based on UK treasury bonds with maturities which are similar to the expected decommissioning date. The future estimated costs are based on the value of the costs at the reporting date, uplifted for inflation to the end of the useful economic life of the underlying asset, then discounted.

F REVENUE

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which it expects to be entitled in exchange for the goods and services. All revenue is earned wholly within the UK and is wholly attributable to the principal activity of the Company.

The supply of electricity is a performance obligation satisfied over time because the customer consumes the benefits of the Company's performance at the same time as it is supplied. Volume is used to measure progress towards complete satisfaction of the performance obligation as this represents the transfer of electricity to the customer. Revenue is therefore recognised based on the number of units supplied at the unit rate specified in the contract. Units are based on energy volumes that can be sold on the wholesale market and are recorded on wind farm meters and industry-wide trading and settlement systems.

The supply of ROCs is a performance obligation satisfied at a point in time. Revenue is recognised at the point the customer obtains control of the ROC, which is when the associated electricity is generated, at the unit rate specified in the contract.

Other revenues are recognised based on the consideration specified in a contract with a customer, to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur in the future. The Company recognises revenue either at a specific point in time or over a period of time based on when control is transferred to the customer based on the performance obligations in the contract.

G PROCUREMENTS

Procurements principally comprise the cost of electricity purchased during the year in relation to energy generation, and related direct costs and services for the use of the energy network. Costs are recorded on an accruals basis.

H OTHER OPERATING RESULTS

Other operating results includes maintenance income from the offshore transmission asset and compensation.

2 JUDGEMENTS, ESTIMATION UNCERTAINTIES AND PRINCIPAL ACCOUNTING POLICIES continued I TAXATION

Assets and liabilities for current tax are calculated using the tax rates that have been enacted, or substantively enacted, at the reporting date.

Deferred tax is the tax expected to be payable, or recoverable, on the difference between the carrying amounts of assets and liabilities in the Statement of financial position and the corresponding tax bases used in the computation of taxable profits (temporary differences), and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences, unused tax losses or credits can be utilised.

Deferred tax is calculated on a non-discounted basis at the tax rates that are expected to apply in the period in which the liability is expected to be settled, or the asset realised, based on tax rates and laws enacted, or substantively enacted, at the reporting date. Deferred tax is charged to the Income statement and statement of comprehensive income.

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the Income statement and statement of comprehensive income.

At 1 January 2022		466.5	0.4	466.9

⁽a) Additions to wind power plants relate to a reduction in the prior year's additions due to final pricing negotiations.

4 LEASING

The Company leases land. Information about leases for which the Company is a lessee is presented below.

(a) Nature of leases

Land-

The Company holds agreements to lease land (including seabeds) and for the assignment of rights to use land, primarily for operational assets, mainly a wind farm, with the terms running up to 24 years. Certain agreements can be terminated with appropriate notice, generally up to twelve months.

Some leases contain variable lease payments that are based on the output from the wind farm. These payment terms are common for this type of lease. The fixed annual payments for the year were £0.8 million compared to variable payments made of £0.7 million. The Company expects the relative proportions of fixed and variable lease payments to remain broadly consistent in future years.

⁽b) Included within the cost of property, plant and equipment is capitalised interest of £6.1 million (2021 £6.1 million).

4 LEASING continued

Other information

The Company has not committed to any leases that have not yet commenced. The Company has no contracts containing residual value guarantee, no leases subject to significant restrictions or covenants and no sale and leaseback transactions.

(b) Right-of-use assets

Year ended 31 December 2021	Note	£m	£m	£m'	. £m
Decommissioning	(a)	56.6	(2.3)	0.4	54.7

			At 1 January	Reassessment of decommissioning	_	At 31 December
			2022	costs	discount	2022
Year ended 31 December 2022		Note	£m	£m	. £m	£m
Decommissioning		(a)	54.7	(20.9)	0.5	34.3

⁽a) The provision for decommissioning costs is the discounted future estimated costs of decommissioning the Company's wind farm. The decreases in both years resulted from an increase in the discount rates used in the calculations. The discount rates applied are based on UK treasury bonds with maturities which are similar to the expected decommissioning date. The discount rate utilised in the current year was 3.91%. The decommissioning of the wind farm is expected to begin in 2038.

Sensitivity analysis reflecting reasonably probable fluctuations to the main assumptions in the calculation of the decommissioning provision has been performed. Had the estimated value of the costs at the reporting date been 10% higher or lower, this would have resulted in the decommissioning provision being approximately £3.4 million higher and lower respectively. Had the inflation rate applied been 1% higher or lower, this would have resulted in the decommissioning provision being approximately £6.5 million higher and lower respectively. Had the discount rates applied been 1% higher or lower this would have resulted in the decommissioning provision being approximately £5.4 million lower and higher respectively. Refer to Note 2E which outlines the accounting policy in respect of decommissioning provisions.

18 INCOME TAX

		2022	2021
		£m	£m
Current tax:			
UK Corporation Tax charge on profits for the year		12.8	9.0
Adjustments in respect of prior years	•	(0.3)	-
Current tax for the year		12.5	9.0
Deferred tax:	•		
Origination and reversal of temporary differences	•	(0.7)	0.6
Adjustments in respect of prior years		(0.9)	-
Impact of tax rate change on opening deferred tax balance			16.0
Deferred tax for the year		(1.6)	16.6
Income tax expense for the year		10.9	25.6

The tax charge on profit on ordinary activities for the year varied from the standard rate of UK Corporation Tax as follows:

				2022	2021
	· .			£m	£m
Corporation Tax at 19% (2021 19%)		•	•	11.6	8.8
Adjustments in respect of prior years				(1.2)	-
Impact of tax rate change on opening deferred tax balance			. ` `	-	16.0
Impact of tax rate change on current year charge				-	0:2
Non-deductible expenses and other permanent differences				0.5	0.6
Income tax expense for the year	•			10.9	. 25.6
Non-deductible expenses and other permanent differences			•	·	. 0

Legislation was enacted on 10 June 2021 under the Finance Act 2021 that will increase the UK Corporation Tax rate to 25% from 1 April 2023. Accordingly deferred tax balances at 1 January 2021 were increased by £16.0 million reflecting the rate that the temporary differences are expected to reverse at.
