31 March 2022

These financial statements were approved by the board of directors and authorised for issue on 13 May 2022 , and are signed on behalf of the board by:

Dr Richard Evans

Director

Company registration number: SC424646

Ossian Property Investments Ltd

Notes to the Financial Statements

Year ended 31 March 2022

1. General information

The company is a private company limited by shares, registered in Scotland. The address of the registered office is The Old Manse, 9 The Square, Rhynie, Aberdeenshire, AB54 4HD, United Kingdom.

2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

3. Accounting policies

(a) Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss. The financial statements are prepared in sterling, which is the functional currency of the entity. Rounding of monetary values has been carried out to the nearest pound sterling.

(b) Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. No material judgements, estimates or assumptions have been made in preparing the financial statements for the current or comparative years.

(c) Revenue recognition

The turnover shown in the profit and loss account represents rental income receivable during the year. This equates to rental income accruing for the period.

(d) Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

(e) Tangible assets

Tangible assets other than investment property are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The policy on investment property is stated in note 3(g).

(f) Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Furniture & fittings	-	25% straight line
----------------------	---	-------------------

(g) Investment property

Investment properties are revalued annually at their fair values in accordance with Financial Reporting Standard 102. The surplus or deficit on revaluation is transferred to the profit and loss account. No depreciation is provided in respect of such properties. Although the Companies Act 2006 would normally require the systematic annual depreciation of fixed assets it is believed that this policy of not providing depreciation is necessary for the accounts to give a true and fair view, since the current value of investment properties, and changes in that current value, are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been shown cannot be separately identified or quantified.

(h) Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

(i) Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction other than directors loans, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost. Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately. Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

4. Staff numbers

There were no employees during the year (2021: Nil).

5. Tangible assets

	Land and buildings £	Fixtures and fittings £	Total £
Cost			
At 1 April 2021 and 31 March 2022	529,188	5,638	534,826
	-----	-----	-----
Depreciation			
At 1 April 2021	—	4,885	4,885
Charge for the year	—	189	189
	-----	-----	-----
At 31 March 2022	—	5,074	5,074
	-----	-----	-----
Carrying amount			
At 31 March 2022	529,188	564	529,752
	-----	-----	-----
At 31 March 2021	529,188	753	529,941
	-----	-----	-----

The amount shown under Land and Buildings is held as investment property. The directors have carried out an assessment of the values of the investment properties held at the end of the accounting period, using as a basis the recent selling prices of similar properties in the same local area. The directors concluded that fair values were not materially different at that date from the existing book values. An independent valuer holding a recognised and relevant qualification has never been employed by the company in a valuation of the properties.

6. Debtors

	2022	2021
	£	£
Other debtors	150	—
	----	----

7. Creditors: amounts falling due within one year

	2022	2021
