BLAGDEN PROPERTY SOLUTIONS LTD
NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 31 DECEMBER 2018

1 Statutory information

Blagden Property Solutions Ltd is a private company, limited by shares, registered in Scotland, registration number SC465592. The registered office is Kirkhouse, Traquair, Innerleithen, Peeblesshire, EH44 6PU.

2 Compliance with accounting standards

The accounts have been prepared in accordance with the provisions of FRS 102 Section 1A Small Entities. There were no material departures from that standard.

3 Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same accounts.

Basis of preparation

The accounts have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets.

Presentation currency

The accounts are presented in £ sterling.

Turnover

Turnover represents the value of consultancy services provided.

Revenue from consulting is recognised when the service has been provided and all obligations to the customers under the consulting agreement have been fulfilled.

Tangible fixed assets policy

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Computer equipment - 50% straight line

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

A net deferred tax asset is regarded as recoverable and therefore recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the reversal of the underlying timing differences can be recovered.
