## Notes to the Financial Statements for the Year Ended 31 March 2022

#### 1. STATUTORY INFORMATION

Brownings The Bakers (Holdings) Ltd is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

## 2. ACCOUNTING POLICIES

#### Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

#### Going concern

After reviewing the company's current and future trading performance, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The directors therefore continue to adopt the going concern basis in preparing the company's financial statements.

The company relies on external bank borrowings to finance working capital from time to time. These borrowings are subject to review on a yearly basis. The directors have no reason to believe that their current borrowing requirements will not be renewed going forward.

#### Preparation of consolidated financial statements

The financial statements contain information about Brownings The Bakers (Holdings) Ltd as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under Section 399(2A) of the Companies Act 2006 from the requirements to prepare consolidated financial statements.

#### Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

### Turnover/revenue recognition

Sales comprise the fair value of the consideration received or receivable for the sale of goods and rendering of services in the ordinary course of the Company's activities.

Sales are presented, net of value-added tax, rebates and discounts.

The Company recognises revenue when the amount of revenue and related cost can be reliably measured, it is probable that the collectability of the related receivables is reasonably assured and when the specific criteria for each of the Company's activities are met.

#### Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

#### **Investment property**

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in fair value is taken to the profit and loss account.

## Notes to the Financial Statements - continued for the Year Ended 31 March 2022

#### 2. ACCOUNTING POLICIES - continued

#### Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

#### Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash held by the company and short term bank deposits with an original maturity of three months or less from inception and are subject to insignificant risk of changes in value.

#### Financial instruments

Financial assets and liabilities are recognised when the company becomes a party to the contractual provisions of the instrument and are classified in accordance with their underlying economic reality.

The company has two main categories of financial instruments, which are loans and other receivables and other financial liabilities:

#### Loans and other receivables

Loans and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Upon recognition, these assets are measured at fair value less directly related transaction expenses. In successive periods these are measured at amortised cost, and any differences between acquisition cost and redemption value is accounted for over the borrowing period by using the effective interest method. If transaction costs are immaterial and the credit period is short, amortised cost is equal to the nominal value less any allowance for credit losses.

#### Other financial liabilities

Other financial liabilities are recognised initially at fair value, net of transaction costs incurred. In successive periods these are measured at amortised cost. Any differences between acquisition cost and redemption value is accounted for over the borrowing period by using the effective interest method. If transaction costs are immaterial and the credit period is short, amortised cost is equal to the nominal value.

#### Impairment of financial instruments

A provision for impairment is established when there is objective evidence that, as a result of one or more events that occurred after the initial recognition, the estimated future cash flows have been impacted.

#### 3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 2 (2021 - 2).
