Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention.

Going concern

The directors are satisfied that the Company will have access to sufficient funds to ensure that all liabilities will be met as they fall due over a period of at least 12 months from the approval date of these financial statements. Consequently, the directors consider it appropriate to prepare the financial statements on a going concern basis.

Revenue

Revenue represents the amounts derived from the provision of goods and services, excluding value added tax and trade discounts.

Inventories

Work in progress is valued at the lower of cost and net realisable value.

Cost is calculated using the first-in, first-out method and includes all purchase, transport, and handling costs in bringing stocks to their present location and condition.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
