Report of the members of the administrative organ for the year ended 31 March 2012

The members of the administrative organ present their report and the audited financial statements for the year ended 31 March 2012. The Company's registered number is SE26.

Corporate information

The Company was incorporated in The Netherlands on 20 February 1998 as GUS Ireland Holdings BV. On 14 July 2009, the Company changed its legal structure from a Dutch private limited company to a Dutch public limited company and on 18 August 2009 it changed its legal structure to a European public limited company (Societas Europaea). One of the requirements of the laws relating to European public limited companies is that there is oversight by an administrative organ made up of two or more members and accordingly references to members within this report and the audited financial statements are to members of the Company's administrative organ rather than to the Company's shareholders.

Principal activity

During the year under review, the Company was a wholly-owned subsidiary of Experian plc and its principal activity was to act as an intra-group finance company.

Review of business and future developments

The Company has traded satisfactorily during the year and the members of the administrative organ anticipate that it will continue to act as an intra-group finance company.

Principal risks and uncertainties

The principal operational risks and uncertainties facing the wider group, together with the main means by which they are managed or mitigated, are set out on pages 24 to 27 of the Experian plc annual report for the year ended 31 March 2012, which does not form part of this report. As the Company was an intra-group finance company during the year, its own principal risks and uncertainties were only indirectly related to such risks but were more directly related to the treasury, currency and other risks identified and discussed in the financial review on pages 40 to 46 of that annual report. Such risks are managed on a group basis.

Financial risk management

The members of the administrative organ monitor the risks and uncertainties facing the Company with reference to exposures to price, credit, liquidity, cash flow, interest rate and exchange risks. They are confident that there are suitable policies in place and that all material risks are appropriately considered.

Key performance indicators

As the relevant risks of the Company are managed on a group or divisional basis, the members of the administrative organ believe that analysis using key performance indicators for the Company is not necessary or appropriate for an understanding of its development, performance or position.

Results and dividends

The profit for the financial year was US\$35,407 (2011: US\$803,546). No dividends were paid or proposed in respect of the year. An interim dividend of some US\$0.02 per share, with a total cost of US\$2,793,670,032, was paid in the prior year.

In accordance with Financial Reporting Standard ('FRS') 18 'Accounting Policies', the Company has conducted a review of its accounting policies and estimation techniques, which has not resulted in any change to the Company's accounting policies or estimation techniques.

The Company is also exempt under the terms of FRS 8 'Related party transactions' from disclosing transactions with entities that are wholly owned by Experian plc.

Foreign currency

Transactions in foreign currencies are recorded at the rates in effect at the transaction date. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates ruling at the balance sheet date. All differences are taken to the profit and loss account in the financial year in which they arise.

Deferred tax

Deferred tax has been recognised as a liability or asset if transactions have occurred at the balance sheet date that give rise to an obligation to pay more tax, or a right to pay less tax, in the future. A deferred tax asset is not recognised to the extent that the transfer of economic benefits in the future is uncertain. Deferred tax assets and liabilities recognised have not been discounted.

Dividend distribution

Interim dividends are recognised in the Company's financial statements when they are paid. Other dividend distributions are recognised in the Company's financial statements in the year in which the dividends are approved in general meeting by the Company's shareholders.
