STRATEGIC REPORT

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

The directors present their strategic report for the financial year ended 31 December 2022.

Principal activities

The principal activities of the Company comprise brewing, packaging and the supply of beer, cider, wines, spirits and soft drinks. Sales are primarily in England and Wales led by the Carling brand (a mainstream lager). Other brands distributed include Coors, Doom Bar, Cobra, Aspall, Staropramen, Pravha, Worthington's, Rekorderlig Cider and Madri Excepcional.

The Company has a joint arrangement for the production and distribution of Cobra brands in the UK and Republic of Ireland, distribution rights for Rekorderlig brands in the UK, factored brand sales (beverage brands owned by other companies but sold and delivered to retailers by the Company), a 100% investment in Sharp's Brewery Limited which owns the Doom Bar brand, and 100% investment in Aspall Holdings Limited which owns the Aspall Cyder brand.

Review of the business

The Company's key performance indicators are turnover, gross profit and profit/(loss) for the year after taxation. The financial performance is summarised as follows:

	2022	2021		Change
	£'000	£'000	£'000	- %
Turnover	1,507,395	1,168,020	339,375	29.06
Gross profit	239,038	193,634	45,404	23.45
Profit before taxation	21,595	18,447	3,148	17.07
Profit after taxation	22,390	29,283	(6,893)	(23.54)
Net assets	330,994	330,901	93	0.03

Reflecting the first full year trading without covid restrictions, the Company delivered strong sales of £1,507,395,000 (2021: £1,168,020,000), an increase of 29.06% (2021: increase of 24.6%).

Increase in gross profit and profit before taxation are slightly lower at 23.45% and 17.07% respectively due to higher cost base caused by inflation as well as increased investment in marketing.

Profit after taxation reduced from £29,283,000 to £22,390,000. This is mainly because the Company recognised in 2021 a £10,836,000 tax credit from remeasuring deferred tax asset balance at an increased tax rate. There is no change in tax rate in 2022.

The Company remains focused on its core strategy of building strong brands for the long-term and being first choice for customers and consumers. The Company's core strategy is underpinned by its revitalisation plan which began in late 2019, aimed at streamlining the organisation and reinvesting resources into its brand and capabilities by:

- · Building on the strength of its iconic core brands
- · Boldly growing its above premium portfolio
- Planting the seeds for future growth outside the beer aisle

Further detail of the Company's strategy from a brands, customers, suppliers, community, and environmental perspective is available in the Section 172 statement within the Strategic Report on page 5.

Going concern

The financial statements have been prepared on a going concern basis. In adopting a going concern basis, the Company has considered business activities, principal risks and uncertainties as set out within the Strategic report, and the impact of macroeconomic factors such as the ongoing cost of living crisis. The Directors have performed an assessment of the businesses' ability to continue as a going concern for a period of at least 12 months from the date of approval of these financial statements. In order to make this assessment, a cash flow forecast up to the period ending 31 December 2024 has been prepared. A reasonable severe but plausible scenario has also been modelled. Under both scenarios the business has sufficient funding to meet liquidity requirements to support its ongoing operations through the remainder of 2023 and 2024.

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

In addition, the directors have received confirmation from the Company's ultimate parent undertaking that the Company will receive support, if required, in order to meet its liabilities as they fall due for a period of not less than 12 months from the approval date of these financial statements. As a result, the directors consider it appropriate to prepare the financial statements on a going concern basis.

Principal risks and uncertainties

The management of the business and the execution of the Company's strategy are subject to a number of risks. The key business risks affecting the Company are set out below. Risks are formally reviewed by the Board and appropriate processes put in place to monitor and mitigate them. If more than one event occurs, it is possible that the overall effect of such events would compound the possible adverse effects on the Company.

Sales volume trends in the UK brewing industry reflect movement from on-premise locations to off-premise locations, a trend which adversely impacts the Company's profitability

In recent years, beer volume sales in the UK have been shifting from pubs and restaurants (on-premise) to retail stores (off-premise), for the industry in general. Margins on sales to off-premise customers tend to be lower than margins on sales to on-premise customers. As a result, continuation or acceleration of this trend could adversely impact the Company's profitability.

Increasing inflation and cost of living crisis

The Company faced significant inflation in its cost base in 2022, despite benefiting from the hedges made in 2021. Moreover, the cost of living crisis, with rising housing prices and increasing living expenses have adversely affected consumer purchasing power. We closely monitor the inflationary trends, particularly in relation to key inputs, and implement appropriate strategies such as pricing adjustments, supply chain optimization, and cost control measures to mitigate the potential adverse effects. However, the extent and duration of inflationary pressures and their implications on our financial performance remain uncertain and pose a continued risk to our operations and financial results.

The Company's success as a business depends largely on the success of one primary product in a mature market; failure or weakening could materially adversely affect our financial results

Although the Company has a wide variety of different products in its portfolio which continues to expand, Carling lager is the best-selling lager brand in the United Kingdom. Any material shift in consumer preferences away from this brand, or from the categories in which it competes, would have a disproportionately large adverse impact on our business. To mitigate this risk, the Company has made strong marketing investment in Carling to strengthen consumer demand. The risk is also mitigated by the increase in demand for premium world beers, a market that the Company continues to perform strongly in.

The Company depends exclusively on one logistics provider for distribution of our products in the United Kingdom

Tradeteam handles all physical distribution for the Company in the UK, except where a different distribution system is requested by a customer. If Tradeteam were unable to continue distribution of our product and suitable alternative could not be found in a timely manner, the Company could experience significant disruptions in its business that could have an adverse financial impact.

Changes in tax, environmental or other regulations or failure to comply with existing licensing, trade and other regulations could have a material adverse effect on the Company's financial condition

The Company's industry is highly regulated in matters such as licensing requirements, trade and pricing practices, labelling, advertising, promotion and marketing practices, relationships with distributors and other matters. These laws and regulations are subject to frequent re-evaluation. Failure to comply with existing laws and regulations or changes in these laws and regulations or in tax and environmental laws and regulations and excise tax levels could result in the loss, revocation, or suspension of the Company's licences, permits or approvals and could have a material adverse effect on the business, financial condition, and results of operations.

The Company's operations face significant commodity price change exposure which could materially and adversely affect its operating results

The Company uses a large volume of agricultural and other raw materials to produce its products, including barley, barley malt, hops, corn, other various starches, water and packaging materials, including aluminium,

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

cardboard, and other paper products. The Company also uses a significant amount of diesel fuel and electricity in our operations.

The supply and price of these raw materials and commodities can be affected by several factors beyond the Company's control, including market demand, global geopolitical events (especially regarding their impact on crude oil prices and the resulting impact on diesel fuel prices), frosts, droughts and other weather conditions, economic factors affecting growth, plant diseases and theft. To the extent that any of the foregoing factors affect the prices of ingredients or packaging or the Company's hedging arrangements do not effectively or completely hedge changes in commodity price risks, the results of the Company's operations could be materially and adversely impacted.

Poor investment performance of pension plan holdings and other factors impacting pension plan costs could adversely impact liquidity and results of operations

The Company's costs of providing for historical defined benefit pension plans are dependent upon several factors, such as the rates of return on the plan's assets, discount rates, the level of interest rates used to measure the required minimum funding levels of the plan, future government regulation and our required and/or voluntary contributions to the plan. Without sustained growth in the plan's investments over time to increase the value of the plan assets, and depending on certain other factors as listed above, the Company could be required to fund the plan with significant amounts of cash. Such cash funding obligations could have a material impact on the Company's cash flows, credit rating and cost of borrowing, financial position, or results of operations.

Financial risk management

The Company's operations are exposed to a variety of financial risks that include currency risk, credit risk, commodity risk, liquidity risk and interest rate cash flow risk. The Company has financial risk management control processes in place that seek to limit the adverse effects of financial performance of the Company by monitoring levels of trade debtors and creditors. Overseas suppliers and customers are monitored, though dealings with overseas suppliers and customers are limited, hence minimising the Company's exposure to currency risk. The Company uses derivative financial instruments to manage currency risk and commodity risk exposure in the form of forward purchase contracts. The Company is funded through various intra-group loans, details of which are provided in the notes to the financial statements.

Currency risk

The Company undertakes few transactions in foreign currency and its exposure to currency risk is considered to be minimal. From time to time, the Company minimises exposure to currency risk by entering into forward contracts to purchase foreign currency at fixed exchange rates.

Commodity risk

The Company purchases a variety of commodities for use in the production process. In the current period, forward contracts for the purchase of raw materials used in the brewing process, diesel and natural gas have been used to minimise the risk caused by price fluctuations in the markets for those commodities.

Credit risk

Policies are in place that require appropriate credit checks to be completed in respect of potential customers before sales are made. The Company's policies also require continued contact with customers after sales have been made. The amount of exposure to any individual counter party is subject to a limit, and the limit is reassessed by senior management on a regular basis.

Liquidity risk

Management actively monitors working capital and ensure that the Company has sufficient available funds for operations and meeting its debts as they fall due.

Interest rate cash flow risk

The Company has both interest-bearing assets and interest-bearing liabilities. Interest bearing assets include trade loans and cash balances. Interest bearing liabilities include bank overdrafts and intercompany debt. The Company has a policy of maintaining debt at a fixed rate to ensure certainty of future cash flows. This is in line with group policy.

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Section 172 statement

Under section 172(1) of the Companies Act 2006, the Board has a duty to act in good faith and in a way that would be most likely to promote the success of the Company for the benefit of its members as a whole whilst having regard to matters set out in S172(1) (a-f) of the Act:

- the likely long-term consequences of decisions;
- the interest of the Company's employees;
- the need to foster the Company's business relationships with suppliers, customers and others;
- the impact of the Company's operations on the community and the environment;
- the desirability of the Company maintaining a reputation for high standards of business and conduct; and
- the need to act fairly, as between the Company's members.

This section addresses the material actions and decisions which the leadership took in discharging their duties pursuant to section 172 of the Companies Act 2006; namely, the duty to consider the interests of various stakeholders in the success of the business.

People

The Company is committed to its people, as demonstrated by its first core value; "Put People First". The Company values and respects differences and believes that a diverse, equitable and inclusive culture is the key to collaboration and a winning team. The Company also recognises that its people are its key value driver, and that employee engagement and wellbeing is fundamental to promoting the success of the Company.

During 2022 the Company continued its Diversity, Equity and Inclusion (DEI) journey, working alongside the Employers Network for Equality & Inclusion (ENEI), D&I In Grocery and the British Beer & Pub Association as a signatory to its Open To All Charter. The Company's ambition is to build and sustain an inclusive workplace where all employees' unique talents, skills and perspectives are valued and leveraged. To support this ambition four Employee Resource Groups were established in 2022 on Gender, Disability, LGBTQ+ and Ethnicity, alongside a DEI Council, to better allow the leadership to listen to feedback from employees, respond and take any necessary action to better support a more diverse and inclusive workplace.

More broadly, the Company and its Directors engage with employees through forums, which include a number of employee-elected representatives and the senior leadership, and is designed to provide not only a direct 'temperature check' of what these representatives are observing in the business, but also a vector by which employees can make thoughts or concerns known, on an anonymous basis if desired, about decisions the company has made. The leadership considers this a vital forum, knowing well that it is possible to become disconnected from the true views of the workforce if there is not an opportunity to enter into a dialogue. The opportunity to hear these views, and either clarify, course-correct or explain decisions made is vital to workforce engagement, and leadership is strongly of the view that this is a key factor in the success of any business. The Company also utilised pulse surveys which provide employees an opportunity to confidentially share their experience across a range of topics, the results of which are reviewed and used by leadership to build a better workplace. The Company's relationship with trade unions is also very positive and supports the overall employee engagement framework.

The Company also continues to provide programmes and benefits that support its employees mental and physical wellbeing. In 2022 the business continued with its "Moments that Matter" programme, including its innovative Life Leave policy, offering staff up to two weeks extra paid leave for the significant moments in life, whether moving house, studying for exams or the days leading up to a wedding. The Company is also committed to ensuring that its pension company is properly funded and 2022 presented no risks to the pension contributions. The company also continues to offer a competitive set of benefits such as private healthcare and product allowance.

The Company's success in supporting its people has been recognised through a number of key achievements and awards. In 2022, the Company was awarded Gold status from mental health charity, MIND, in its 2021/22 Workplace Wellbeing Index, achieving excellence in successfully embedding mental health policies and practices and demonstrating a long-term, in-depth commitment to staff mental health and achieving change within its workplace. The Company was also certified as a Top Employer for the tenth time. The Company also has dedicated Mental Health Champions around the business who are having a real impact, from creating awareness to providing early intervention help for employees who may be developing a mental health issue.

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Product Categories

The Company's product and brand offering continues to evolve in response to changing consumer tastes.

The Company continues to perform strongly in the standard and standard-premium beer category with iconic brands such as Carling, Coors and Doom Bar. These brands continue to perform but given the growing consumer trend towards premium and above-premium products and occasions, a trend that has been accelerated by COVID-19, the business has been well-placed to respond given its careful expansion of its portfolio over the past few years. The acquisition of Aspall Cyder, buyback of the UK distribution rights to Staropramen and acquisition of the distribution rights to Rekorderlig Ciders were key strategic plays in prior years and those brands continued to receive focus as key components of the strategy not only to premium product categories, but also in diversifying Molson Coors' portfolio.

During 2022 the Madri Excepcional brand, a new European-style lager developed in partnership with the La Sagra brewery near Madrid in Spain, continued to grow significantly across the On and Off trade.

Key Customers, Suppliers and Partnerships

The Company continued to support its customers as the UK built-back post pandemic, in particular through strong brand investment programmes that helped to fuel consumer demand in the UK off- and on-trade. This was particularly evident through strong brand performance from Madri Excepcional, Staropramen, as well as continued support for category leading brands Carling and Coors.

The Company continues to support and promote campaigns supporting the UK pub industry, such as Long Live The Local which calls for Government to enact legislative change to support UK pubs.

The Company has also made appropriate supplier arrangements linked to complexities created through Brexit and has continued to uphold internal standards on "Responsible Sourcing". As part of these standards, the business expects suppliers to make every effort to limit the environmental impact of their business operations and to have programs in place to help achieve this objective. The Company also monitors supplier performance, continuously assesses potential risks and performs regular audits to ensure "Supplier Standards" are being met.

The Company also complies with the UK Modern Slavery Act of 2015. A copy of the Company's Modern Slavery Statement for the financial year ended 31 December 2022 can be found on the Company's website.

The Community and the Environment

Dovetailing with the employee 'Wellbeing' agenda is a focus on mental health in the wider community. Work began in 2019 with C.A.L.M (the Campaign Against Living Miserably), a charity focussed on suicide prevention, with a particular acknowledgment that suicide is the biggest killer of males under 45 in the UK. The corporate charity partnership was launched in 2019 and has been activated through the Carling brand to help raise awareness of the support CALM offers and encourage people to talk about everyday struggles. In 2022 Carling continued its work with CALM through its More Than a Game campaign, championing the role grassroots football clubs play in communities in bringing people together. With the help of CALM Ambassador Marvin Sodell and Darren Bent, the campaign launched the CALM Playbook, a toolkit from CALM to support local clubs to help teams tackle mental health struggles together with helpful advice and ways to access further support.

Molson Coors' Environment, Social and Governance (ESG) approach is encapsulated by its Our Imprint 2025 sustainability goals – which set out targets against two areas – People and Planet and full details can be found in the Company's latest Our Imprint report, which can be found at https://www.molsoncoors.com/sustainability/sustainability-reporting.

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Planet

Back in 2017, the company set itself ambitious sustainability targets to achieve by 2025 against areas aligned to the UN Sustainable Development Goals where it felt it could have the greatest positive impact. Its 2025 Planet goals are focused around three core areas – reducing its carbon footprint to play its part in fighting climate change, protecting one of the world's most precious resources, water, and developing packaging solutions that are reusable, recyclable or compostable to improve the circular economy.

Our Imprint 2025 Planet goals

Climate:

- o Reduce carbon emissions by 50% in our direct operations
- o Decrease carbon emissions by 20% across our value chain

Water:

- o Make our products with 22% less water hl/hl (2.8 hl/hl)
- Improve water availability in our water-stressed brewery watersheds and restore 3.5 billion gallons of water
- o Grow our barley with 10% less water

Packaging:

- Ensure our packaging is 100% reusable, recyclable or compostable, and consumer-facing plastic is made from at least 30% recycled content
- o Achieve zero waste to landfill at 100% of our operations

At a local UK level, Molson Coors has achieved the following milestones against its Imprint 2025 Planet goals:

Climate

We have reduced our direct carbon emissions by more than 60% - exceeding our 2025 global target here in the UK. That achievement is down to a long-term, comprehensive approach to reducing our carbon footprint.

We've been investing heavily in our breweries over the past decade, particularly in our biggest brewery in Burton, to make our operations more energy efficient. Carbon dioxide is used throughout the brewing and packaging process and in Burton, we have a carbon recovery plant, which allows us to recover carbon dioxide from the fermentation process each day.

Back in 2021 we took another major step forward when we became the first major UK brewer to make all of our products using 100% renewable electricity. All of our electricity now comes from 22 turbines at Tween Bridge wind farm – powering all of our production sites and our offices. In an average year we consume about the same amount of electricity as about 25,000 households – or the population of our brewing home in Burton upon Trent. – and since March 2021 all of this electricity now comes from our Tween Bridge wind farm.

Water

We measure our water intensity across our UK breweries and use this data to benchmark performance across sites and against our other global breweries. Our water performance in 2022 has improved against previous years as we've seen volume recovery post pandemic delivering volume based efficiencies and without having to carry out additional keg washing linked to lockdowns. We continue to see changes in product mix requiring more cleans and constantly seek to minimise the impact of this through more cleaning optimisation and upgrade of cleaning sets.

Packaging & waste

In the UK, all of our production sites are zero waste to landfill, and back in April 2021 we achieved our goal of removing all single-use plastic from across our major brands. In 2020 we removed the plastic wrap around our larger packs, moving to fully enclosed cardboard and in 2021 we removed plastic rings, switching to cardboard sleeves that are fully recyclable, made from renewable wood fibres from certified sources and contain up to 17% recycled carton board.

Beyond 2025

In our latest Our Imprint report, Molson Coors has committed to reaching net zero carbon emissions across our business globally by 2050. In the UK, we are working to an accelerated net zero glidepath, with the ambition to reach net zero carbon emissions across our direct operations (scopes 1 & 2) by 2035.

STRATEGIC REPORT (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Ethics, Compliance and Business Conduct

The governance of Molson Coors Beverage Company embraces both strong family traditions and performance-based management. We set our sights on the highest standards of good corporate governance in order to fulfil our responsibilities to our employees, customers and suppliers and comply with all relevant regulatory requirements.

The building blocks of our strategy are embodied in our ESG approach and full details can be found on our website https://www.molsoncoors.com/sustainability/sustainability-reporting and in our Code of Business Conduct via https://www.molsoncoors.com/about/governance-and-ethics. Our approach includes our Alcohol Responsibility Commitment, People focus through our Diversity, Equity and Inclusion strategy and our robust Governance processes that underpin everything we do.

Shareholders

Molson Coors Brewing Company (UK) Limited and the other members of the UK subsection of the enterprise are wholly owned by Molson Coors Beverage Company in the United States. As a result, the purpose and direction of the business, as well as any dialogue with both the Molson and Coors families but also external investors, are held at the global enterprise level. The key deliverables of the various business units are cascaded and agreed down to the divisional, and ultimately, business unit level. In 2022, the Company formed a part of the EMEA APAC division and as a result took its direction in this manner from the EMEA APAC divisional leadership team.

On behalf of the Board

all here.

R Eveson Director

22 September 2023

REPORT OF THE DIRECTORS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

The directors present their report, together with the audited financial statements for the financial year ended 31 December 2022.

Directors

The directors who served the Company during the financial year and up to the date of signing these financial statements unless otherwise stated were:

R Eveson

P Whitehead

A Pickering (resigned 16 December 2022)

Results and dividends

The trading results for the financial year and the Company's financial position at the end of the financial year are shown in the financial statements and are discussed further in the Strategic Report on pages 2 to 8. During the financial year ended 31 December 2022, the Company declared and paid dividends of £26,750,000 (2021: £13,412,000).

Research and development

Research in the brewing business is concentrated on the development of new products and dispense technologies capable of generating increased turnover as well as sustainability.

Post balance sheet events and future developments

Details of the likely future developments of the business of the Company are provided in the Strategic Report.

The Company declared and paid a dividend after the year end. Details are disclosed in note 30.

Financial instruments

Details of financial instruments are provided in the Accounting Policies on page 29.

Financial risk management

Details regarding the Company's financial risk management measures are provided in the Strategic Report on page 4.

Going concern

The directors have documented their going concern assessment in the Strategic Report on page 2.

Political donations

No political donations were made during the year (2021- £nil).

Disabled employees

Applications for employment from disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

REPORT OF THE DIRECTORS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Employee share scheme

During the financial year, some of the Company's employees have continued to be encouraged, by the Company's parent undertaking, Molson Coors Beverage Company, to be involved in the Company's performance under the Molson Coors Beverage Company Incentive Compensation Plan.

Employee consultation

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through formal and informal meetings, and the internal communications website. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests. Further details of employee engagement are provided in the Section 172 Statement on page 5.

Directors' indemnities

The directors have the benefit of an indemnity which is a qualifying third-party indemnity provision as defined by Section 234 of the Companies Act 2006. The indemnity was in force throughout the last financial year and is currently in force.

Statement of corporate governance arrangements

The Company is owned by Molson Coors Beverage Company, incorporated in Delaware, US, and is traded on the New York and Canadian Stock Exchange. Details of the Leadership Team and Board are available at https://www.molsoncoors.com/uk/about.

The Molson Coors Corporate Governance Code is applied across the global enterprise, and is available at https://www.molsoncoors.com/about/governance-and-ethics. The Charters for our Global and Board level committees can also be accessed here (Governance Committee, Audit Committee, Compensation and Human Resources Committee and Finance Committee).

Our ambition is to be the First Choice for our People, Our Consumers and Our Customers.

Our purpose is Uniting People to Celebrate all Life's Moments.

Our values are: Put People First, Be Bold and Decisive, Take Accountability, Learn Every Day, Celebrate Together

The Company forms part of our EMEA APAC Division, which is led by the President and CEO of EMEA APAC and the Divisional Leadership Team (DLT). The Company is led locally by our Western Europe Regional Leadership Team (RLT). The RLT are aware of their directors' duties and responsibilities as prescribed by the Companies Act 2006, and refresher training is undertaken regularly. These duties, alongside Molson Coors' Corporate Governance Code and company values are the guiding principles in how the Company is managed.

The RLT is led by the Western Europe Managing Director and consists of business function directors from all business units. The RLT meets weekly to discuss general issues, monthly to review the business performance, and business strategy and risks and opportunities. Additional meetings are held for long range planning.

The RLT consists of a mix of skill, gender and working experiences and promotes diversity, equity and inclusion. All RLT members are set targets and monitored against these regularly. The RLT provides a monthly business update to the DLT. Enterprise risks are reviewed by the RLT at least twice a year and reported to the DLT.

Employee engagement

The Companies (Miscellaneous Reporting) Regulations 2018 require that the directors report on how they have engaged with employees and how the directors have regard to employee interests. This information is included within the Section 172 Statement included in the Strategic Report on page 5 as well as the Employee consultation section within the Report of the Directors.

REPORT OF THE DIRECTORS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Business relationships

The Companies (Miscellaneous Reporting) Regulations 2018 require that the directors report on how they have engaged with suppliers, customers, and others in a business relationship with the company. This information is included within the Section 172 Statement included in the Strategic Report on page 6.

Energy and Carbon Reporting

The Companies (Miscellaneous Reporting) Regulations 2018 require that the directors report on energy consumption and carbon emissions of the Company. This is the third year that the Company is reporting on energy consumption and carbon emissions. Through our cycle of continuous improvement we have made further electricity and heat savings through the year, benefitting from volume recovery post covid delivering further efficiencies and resulting in lower operational emissions despite producing more. 2022 was our first full year using only renewable electricity sourced through our Power Purchase Agreement (PPA) deal from Tween Bridge wind farm, reducing our scope 2 emissions to zero when using market based factors.

The GHG Protocol Corporate Accounting and Reporting Standard has been used in determining this disclosure, whereby carbon emissions are calculated based on energy usage amounts which are converted to tonnes of CO2 (tCO2e) at UK Government GHG Conversion Factors for Company Reporting in 2022 and 2021 as determined by the Department for Business, Energy & Industrial Strategy (BEIS).

The scope of the data includes all operational offices and breweries of the Company which are all UK-based.

	2022	2021
	kWh	kWh
Energy consumption	192,121,859	191,232,592
Scope 1 emissions	tCO2e	tCO2e
Emissions from combustion of gas Emissions from combustion of fuel for transport* Total Scope 1 emissions	21,942 3,154 25,096	21,978 4,221 26,199
Scope 2 emissions		
Emissions from purchased electricity	10,983	12,345
Total gross emissions	36,079	38,544
	tCO2e/kHI	tCO2e/kHI
Carbon emissions per kHI of product produced	4.74	5.63

^{*} includes business mileage on rental cars or employee-owned vehicles where the Company is responsible for purchasing fuel.

REPORT OF THE DIRECTORS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Directors' confirmations

In the case of each director in office at the date the directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Reappointment of auditors

al her.

PricewaterhouseCoopers LLP have indicated their willingness to continue in office.

On behalf of the Board

R Eveson Director

22 September 2023

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited

Report on the audit of the financial statements

Opinion

In our opinion, Molson Coors Brewing Company (UK) Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2022 and of its profit for the year then
 ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and financial statements (the "Annual Report"), which comprise: the Statement of financial position as at 31 December 2022; the Income statement, Statement of comprehensive income and Statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

We have provided no non-audit services to the company or its controlled undertakings in the period under audit.

Our audit approach

Overview

Audit scope

A full scope audit was conducted on the financial statements

Key audit matters

Valuation, accuracy and completeness of customer discounts and rebates

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited (continued)

Materiality

- Overall materiality: £15,074,000 (2021: £11,680,000) based on 1% of revenue.
- Performance materiality: £11,305,000 (2021: £8,760,000).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

This is not a complete list of all risks identified by our audit.

The key audit matters below are consistent with last year.

Key audit matter

Valuation, accuracy and completeness of customer discounts and rebates

The company has agreements with customers whereby volume-related allowances, promotional and marketing allowances and various other rebates and discounts are given in connection with the sale of goods. As such, the Company recognises a reduction in revenue as a result of amounts payable to customers. The Company assesses customer performance against specific criteria relevant to the incentive schemes and accrue based on expected pay-out levels. Where the scheme is not aligned with the financial year, retrospective rebate and discount arrangements are accrued for on a pro-rata basis. Given the nature of certain arrangements in place and the need to assess at the period end the level of likely retrospective pay-out, the accounting for these arrangements involves a degree of estimation uncertainty which could result in over or under accrual at the year end.

How our audit addressed the key audit matter

We obtained a detailed understanding and evaluated the design and operational effectiveness of controls that the Company has established in relation to customer discounts, promotional spend and rebate arrangements. In addition, our substantive audit procedures included a combination of the following:

- Recalculation of customer discount accruals using sales data and contractual discount rates or other associated contractual metrics on a sample basis, including assessment of customer performance against contractual criteria.
- Enquiry of key account managers and senior commercial finance managers with respect to the completeness of the period end liability. Testing settlement of balances accrued for at the prior year end to assess historical accuracy of accruals:
 Review

of accrued rebates aging for evidence of unclaimed balances;
• Reviewed post year end credit notes issued to identify amounts not accrued at year end. We found the valuation and completeness of accruals in relation to customer discounts, promotion spend and rebate arrangements at the year end to be appropriate. Customer discounts and rebates expense are netted off revenue in the income statement. We confirmed these have been correctly included within the revenue amount disclosed in the income statement and note 2. Customer discounts and rebates liability are presented within creditors: amounts falling due within one year on the balance sheet. We confirmed these have been correctly included within accruals and deferred income in note 19.

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited (continued)

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates.

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the company, the accounting processes and controls, and the industry in which it operates. As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud. The Company comprises of one reporting unit which has been subject to a full scope audit for the purposes of the audit of the financial statements.

The impact of climate risk on our audit

As part of our audit we made enquiries of management to understand the process adopted to assess the extent of the potential impact of climate risk on the company's financial statements. Given the principal activities of the company, it is likely that climate risk will have an impact on the business but this is not expected until the long term. As part of our audit, we evaluated management's climate change risk assessment including the identified physical and transitional risks and the assessment of the impact of those risks on the financial statements. We note management's conclusion that material physical and transitional risks are likely to arise in the longer term and therefore have no current financial statement impacts. We performed procedures to evaluate the appropriateness of management's risk assessment. Our procedures did not identify any material impact on the financial statements or our key audit matters for the year ended 31 December 2022.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Overall company materiality	£15,074,000 (2021: £11,680,000).
How we determined it	1% of revenue
Rationale for benchmark applied	We believe that revenue is an appropriate benchmark as management make decisions and monitor performance based on market share with focus on brand growth and retention.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% (2021: 75%) of overall materiality, amounting to £11,305,000 (2021: £8,760,000) for the company financial statements.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount in the middle of our normal range was appropriate.

We agreed with those charged with governance that we would report to them misstatements identified during our audit above £1,500,000 (2021: £1,166,000) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included:

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited (continued)

- We evaluated management's base case and severe but plausible forecast scenarios, challenging key assumptions including the forecast cash flows;
- We have checked the integrity of management's model, as well as agreeing underlying data to source;
- We have assessed whether management's mitigating actions are reasonably achievable based on our understanding of the business, including the nature of its cost base; and
- We have verified the level of support available to the Company from its ultimate parent company, and the ability of the
 parent company to be able to offer this support, including assessing whether the committed liquidity is sufficient to meet
 the funding requirements of the company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Report of the Directors, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Report of the Directors

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Report of the Directors for the year ended 31 December 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Report of the Directors.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited (continued)

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to health and safety and employment regulations, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as Companies Act 2006 and tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to manipulation of accounting estimates which could be subject to management bias or posting of unusual journals. Audit procedures performed by the engagement team included:

- Understanding and evaluating the key elements of the company's internal control related to estimates;
- Reviewing accounting estimates for bias and validating the support behind the assumptions and judgements made by management including challenging against possible alternatives;
- Obtaining an understanding of the control environment in monitoring compliance with laws and regulations;
- Reviewing legal expense accounts, board minutes and in-house legal counsel documentation;
- Reading the minutes of the Board meetings to identify any inconsistencies with other information provided by management;
- Substantive testing of journal entries, particularly focused around journals which have unexpected account relationship;
- · Incorporating elements of unpredictability.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report. In our engagement letter, we also agreed to describe our audit approach, including communicating key audit matters.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the members of Molson Coors Brewing Company (UK) Limited (continued)

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- · we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us, or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Accounting policies

Statement of compliance

Molson Coors Brewing Company (UK) Limited is a company limited by shares, incorporated and domiciled in England & Wales with registration number 00026018. The address of its registered office is:

137 High Street Burton upon Trent Staffordshire DE14 1JZ.

The financial statements of Molson Coors Brewing Company (UK) Limited have been prepared in accordance with the requirements of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' ("FRS102") and the Companies Act 2006.

The financial statements of Molson Coors Brewing Company (UK) Limited were approved for issue by the board of directors on 22 September 2023.

Basis of preparation

The financial statements have been prepared on the going concern basis and under the historic cost modified by revaluation of financial assets and financial liabilities held at fair value through profit and loss.

The financial statements are prepared in Pounds Sterling, which is the functional currency of the Company, and are rounded to the nearest £'000.

The principal accounting policies of the Company, which are set out below, have been consistently applied to all the financial years presented, unless otherwise stated.

Basis of consolidation

The financial statements present information about the Company as an individual undertaking and not about its group. The Company has not prepared group financial statements as it is exempt from the requirement to do so by Section 401 of the Companies Act 2006 as it is a subsidiary undertaking of Molson Coors Beverage Company, a company registered in the USA, and is included in the consolidated financial statements of that company.

Going concern

The financial statements have been prepared on a going concern basis. In adopting a going concern basis, the Company has considered business activities, principal risks and uncertainties as set out within the Strategic report, and the impact of macroeconomic factors such as the ongoing cost of living crisis. The Directors have performed an assessment of the businesses' ability to continue as a going concern for a period of at least 12 months from the date of approval of these financial statements. In order to make this assessment, a cash flow forecast up to the period ending 31 December 2024 has been prepared. A reasonable severe but plausible scenario has also been modelled. Under both scenarios the business has sufficient funding to meet liquidity requirements to support its ongoing operations through the remainder of 2023 and 2024.

In addition, the directors have received confirmation from the Company's ultimate parent undertaking that the Company will receive support, if required, in order to meet its liabilities as they fall due for a period of not less than 12 months from the approval date of these financial statements. As a result, the directors consider it appropriate to prepare the financial statements on a going concern basis.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Accounting policies (continued)

Summary of disclosure exemptions

The Company is a wholly owned subsidiary of Molson Coors Holdings Limited and is included in the consolidated financial statements of the ultimate parent company, Molson Coors Beverage Company (a company incorporated in the USA), which are publicly available.

The Company has taken advantage of the exemptions available within FRS102 paragraph 1.12 from the requirement to prepare a Statement of Cash Flows and the requirement to disclose details of transactions with wholly owned group companies as the requirements of FRS102 paragraph 1.11 have been satisfied.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported as assets and liabilities as at the reporting date and the amounts reported as revenues and expenses during the financial year. However, the nature of estimation means that actual outcomes could differ from those estimates.

The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Lease classification

The Company has entered into lease agreements in respect of the use of property and plant and equipment. The classification of such leases as operating or finance leases requires the Company to determine, based on an evaluation of the terms and conditions of the arrangements, whether it retains or acquires the significant risks and rewards of ownership of those assets and accordingly whether the lease requires an asset and liability to be recognised in the Statement of Financial Position. Details of finance lease liabilities at 31 December 2022 are provided in note 21 to these financial statements. Details of commitments under operating leases are provided in note 27.

Pensions and other post-employment benefits

During 2017, the plan became broadly fully funded on a technical provision basis resulting in a significant reduction in the directors' expectations regarding the future funding requirement for the company to pay contributions into the scheme. As a result, the directors have reconsidered the basis upon which the net defined benefit asset is recognised in the financial statements and have determined that, in accordance with the terms and conditions of the defined benefit plans, and in accordance with statutory requirements (including minimum funding requirements) for the plan, the present value of expected refunds from or reductions in future contributions to the scheme no longer supports the net defined benefit asset. As such the net defined benefit asset was derecognised at 31 December 2017 and continues to be derecognised at 31 December 2022.

The following are the Company's key sources of estimation uncertainty:

Intangible assets

The Company establishes a reliable estimate of the useful life of intangible assets on acquisition based on a variety of factors such as the expected use of assets acquired, brand life cycle, and any legal, regulatory or contractual provisions that can limit useful life. At 31 December 2022, the Company's Statement of Financial Position included intangible assets with a net book value of £74,397,000 (2021: £81,568,000).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

1. Accounting policies (continued)

Pensions and other post-employment benefits

The Company has an obligation to pay pension benefits and other post-employment benefits to certain employees. The cost of the benefits and the present value of the obligation is determined on an actuarial basis using the projected unit method and involves the estimation of a number of parameters including life expectancy, salary increases, asset valuations and the discount rate on corporate bonds. The parameters are estimated based on historical experience and current trends. The assumptions are discussed in more detail in note 24.

At 31 December 2022, the Company's Statement of Financial Position included a net asset of £nil (2021: £nil) relating to the defined benefit pension scheme and other post-employment benefits.

Due to the complexity of the valuation, the underlying assumptions and the long-term nature of these plans, such estimates are subject to significant uncertainty. Significant changes to the assumptions over the next financial year could result in significant changes to the carrying value of the pension scheme asset.

Impairment of non-financial assets

Where there are indicators of impairment of individual assets, the Company performs impairment tests based on fair value less costs to sell or a value in use calculation. The value in use calculation is based on the present value of estimated future cash flows.

Deferred tax asset

In determining the amount of deferred tax assets that can be recognised, estimation of the likely timing and level of future taxable profits is required together with an assessment of the effect of future tax planning strategies. Further details are contained in note 12.

Bad debt provision

The Company has recognised provisions for bad debts relating to trade debtors and trade loans. This is based on an assessment of ageing of receivables and other risk indicators. The judgement of management is then applied to provide for debts which are no longer considered to be recoverable.

Dilapidations provision

Provisions are made for dilapidations based on management's best estimate of the present value of the likely cash outflow. Provisions are reassessed on a quarterly basis.

Customer Rebates

Provisions are made for rebates due to customers based upon management's best estimate of the future value of rebates based upon volume during the year. These provisions are reviewed on a monthly basis.

Intangible assets

Intangible assets are capitalised and amortised on a straight-line basis over the useful life of the asset, which is between 10 and 25 years.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

1. Accounting policies (continued)

Impairment of non-financial assets

The Company assesses at each reporting date whether an asset may be impaired. If any indication of impairment exists, the Company estimates the recoverable amount of the asset. If it is not possible to estimate the recoverable amount of the individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. If the recoverable amount is less than its carrying amount, the carrying amount of the asset is impaired and it is reduced to its recoverable amount through an impairment in the Income Statement. Where a property is carried at deemed cost less accumulated depreciation and impairment losses, any reduction in the carrying amount to its recoverable amount is eliminated against any revaluation reserve in respect of that property, with any excess being charged to the Income Statement.

An impairment loss for all assets, including intangible assets, is reversed in a subsequent period if and only if the reasons for the impairment loss have ceased to apply.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Cost includes costs directly attributable to making the asset capable of operating as intended.

Land and Construction in Progress is not depreciated. Depreciation is provided on all other tangible fixed assets at rates calculated to write off the cost, less estimated residual value, of each asset on a straight-line basis over its expected useful life.

The expected useful lives of assets are as follows:

Land and buildings:

Breweries and maltings freehold buildings

Freehold buildings

Plant and machinery

25 years

40 years

5 – 20 years

Fixtures and fittings:

Office furniture and fittings 3-10 years Equipment in retail outlets 2-7 years Information Technology equipment 3-5 years

Construction in progress is not depreciated.

In the case of land and buildings valued at deemed cost, previous valuation surpluses realised on sale are transferred from the revaluation reserve to retained earnings.

Equity investments

The Company's equity investments are not publicly traded and the fair value of those investments cannot be reliably measured. Equity investments are therefore held at cost less provision for impairment, with cost including transaction costs.

In the event of a reliable measure of fair value becoming available, equity investments are re-measured at fair value with the movement in the carrying value being recognised in the Income Statement. Where an equity investment has been measured at fair value but a reliable measure of fair value is no longer available, the fair value on the last date on which a reliable measure of fair value was available is treated as the cost of the investment.

Trade loans

Trade loans are held at cost less provision for impairment.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

1. Accounting policies (continued)

Turnover recognition

Turnover is measured at the fair value of the consideration received or receivable in respect of the sale of goods and services in the ordinary course of the Company's activities. It is stated net of trade discounts, rebates and Value Added Tax.

Subject to the conditions below, turnover is recognised at the point at which the significant risks and rewards of ownership of goods have transferred to the customer. In the case of beer sales, this is the point of delivery. In the case of contract brewing services, it is the point of collection.

Turnover is only recognised when it is probable that economic benefits will flow to the Company, when the amount of turnover can be measured reliably, and when the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Turnover includes interest received or receivable from customers in respect of trade loans, as the commercial substance of those transactions is that they are part of the normal terms of trade. Interest income is credited to the Income Statement in the period to which it relates.

Royalty income is recognised on an accruals basis in accordance with the substance of the relevant agreement.

Income relating to dividends from investments are recognised when the Company's right to receive payment is established.

Government grants

Grants of a revenue nature are recognised in "other income" within profit or loss in the same period as the related expenditure. This includes the Government Coronavirus Job Retention Scheme ('Furlough').

Exceptional restructuring costs

The Company classifies certain one off charges or credits relating to restructuring activities as exceptional restructuring costs. These are separately disclosed to provide further understanding of the Company's financial performance.

Stocks

Stocks are stated at the lower of cost and net realisable value.

Cost includes all costs incurred in bringing stocks to their present location and condition, including materials, direct labour and an attributable proportion of manufacturing overheads based on normal levels of activity. Materials are measured on a first-in first-out basis.

Net realisable value is based on estimated selling price, less further costs expected to be incurred to completion and disposal.

At each reporting date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to sell. The impairment loss is recognised immediately in the Income Statement.

Research expenditure

Research expenditure is written off as incurred.

Provisions for liabilities

Provisions are recognised where the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be reliably estimated.

Provisions are charged as an expense in the Income Statement in the year that the Company becomes aware of the obligation, and are measured at the best estimate of the amount required to settle the obligation at the date of the Statement of Financial Position, taking into account relevant risks and uncertainties.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

Accounting policies (continued)

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Income Statement, except that a charge or credit attributable to an item of income or expense recognised in other comprehensive income is also recognised directly in other comprehensive income.

The current tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates taxable income.

Deferred tax is accounted for to recognise the impact of timing differences between the recognition of gains and losses in the financial statements and their recognition for tax purposes. A deferred tax liability is recognised where a transaction or event that occurred prior to the reporting date results in the Company having an obligation to pay tax in future periods in excess of the amount which would be payable if the transaction or event had not occurred. A deferred tax asset is recognised where a transaction or event that occurred prior to the reporting date gives the Company the right to pay less tax in the future than would have been payable if the transaction or event had not occurred.

Deferred tax assets are only recognised if it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the period end.

Foreign currency translation

Transactions in foreign currencies are initially recorded in Pounds Sterling by applying the spot exchange rate ruling at the date of the transaction or, if hedged, at the forward contract rate. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date or, if appropriate, at the forward contract rate. All differences are taken to the Income Statement.

Non-monetary items measured at historical cost are translated into Pounds Sterling using the exchange rate at the date of the transaction. Non-monetary items measured at fair value are translated into Pounds Sterling using the exchange rate at the date on which fair value was determined.

Financial instruments

The Company has chosen to adopt Section 11 and Section 12 of FRS 102 in respect of financial instruments.

Basic financial assets, including trade and other receivables and cash and bank balances are initially measured at cost and are subsequently measured at amortised cost using the effective interest rate method. At the end of each reporting period, financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired, an impairment loss, being the difference between the carrying amount of the asset and the present value of the estimated cash flows discounted at the asset's original effective interest rate, is recognised in the Income Statement.

Other financial assets including investments in equity instruments which are not subsidiaries, associates or joint ventures, are measured, initially and subsequently, at fair value.

Basic financial liabilities, including trade and other payables, bank loans and loans from group undertakings are initially measured at cost. Debt instruments are subsequently carried at amortised cost using the effective interest rate method.

Derivatives, including forward purchase contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date the Company is bound by the terms of the relevant contract and are subsequently measured at fair value. Changes in fair value are recognised in the Income Statement as cost of sales.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

1. Accounting policies (continued)

Cash and cash equivalents

Cash comprises cash in hand and deposits at banks which are repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments with an original maturity date of no more than three months that are readily convertible to known amounts of cash with insignificant risk of change in value.

Trade debtors

Trade debtors are amounts due from customers in respect of goods sold and services provided in the ordinary course of business.

Trade debtors are recognised at the transaction price less provision for impairment. A provision for impairment of trade debtors is established where there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as current liabilities if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and are subsequently measured at amortised cost using the effective interest method.

Leasing and hire purchase

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have been transferred to the Company are capitalised in the Statement of Financial Position and depreciated over the shorter of the lease term and the useful life of the asset. A corresponding liability is recognised for the lower of the fair value of the asset and the present value of the minimum lease payments. Lease payments are treated as consisting of capital and interest elements. The capital element is applied to reduce the outstanding obligation and the interest element is charged to the Income Statement so as to achieve a constant rate of interest on the balance of the liability.

Rentals payable under operating leases are charged in the Income Statement on a straight line basis over the lease term. Lease incentives are recognised on a straight line basis over the term of the lease.

Sale and leaseback

Under a sale and leaseback arrangement, the profit on sale is deferred and amortised over the shorter of the term of the lease or the UEL of the property. Upon the recognition of the transaction as a sale-leaseback, the current holding value of the property associated with the transaction is derecognized at its net book value and a new leased asset and a matching capital lease liability recorded at an assessed fair value.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the consideration received or receivable, net of the direct costs incurred in issuing the equity instruments. If consideration is deferred and the time value of money is material, initial recognition is at the present value of consideration receivable.

Capital contribution

Capital contribution received from equity investors is recorded as an increase in equity. Capital contribution made by the Company is recorded as an increase in its investment.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

1. Accounting policies (continued)

Pensions and other post-retirement benefits

The Company operates a funded defined benefit pension scheme for employees who joined the Company prior to April 2006. Assets of the scheme are held separately from those of the Company in trustee administered funds. On 4 April 2009, the fund was closed to future accruals of retirement benefits.

The difference between the fair value of assets held in the pension scheme and the scheme's liabilities measured on an actuarial basis using the projected unit method are recognised in the Statement of Financial Position as a pension asset or liability as appropriate. Any resulting pension scheme asset is recognised to the extent that the balance is considered to be recoverable through reduced contributions in the future or through refunds from the scheme. Any resulting liability is recognised in full.

Current and past service costs are recognised in the Income Statement in administrative expenses. Net interest is recognised in the Income Statement as other finance costs. Actuarial gains and losses are recognised in Other Comprehensive Income.

The Company also operates a defined contribution pension scheme. Contributions are recognised in the Income Statement in the period to which they relate. Contributions outstanding at the reporting date are included in creditors.

2. Turnover

Turnover represents amounts derived from the provision of goods and services which fall within the Company's ordinary activities, stated net of trade discounts and Value Added Tax.

Turnover relates mainly to the sale of beer and other beverages but also includes amounts receivable from contract brewing services, royalty income and interest receivable from customers in respect of trade loans.

All of the Company's turnover in the financial year and the preceding financial year related to continuing operations.

Turnover is analysed as follows:

	2022 £'000	2021 £'000
Sale of goods	1,473,365	1,138,090
Royalty income	24,566	21,277
Contract Brewing	9,341	8,502
Interest receivable on trade loans	123	151
	1,507,395	1,168,020
Analysis of the Company's turnover by market is as follows:		
	2022 £'000	2021 £'000
United Kingdom	1,461,111	1,129,044
Rest of the World	46,284	38,976
-	1,507,395	1,168,020
		· · · -

The comparative information for 2021 have been represented with no change to the total.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

3.	Other operating income		
		2022 £'000	2021 £'000
	Coronavirus Job Retention Scheme	-	4,835
		-	
4.	Exceptional restructuring costs		
		2022	2021
		£'000	£'000
	Recognised in arriving at operating profit/ (loss):		
	Charge relating to termination payments on restructuring	-	65
	Other restructuring costs		4,834
			
		-	4,899

The charge relating to termination payments on restructuring comprises movements in the provision for redundancy payments to employees who are to be made redundant as a result of restructuring activities, and payments to employees who have been made redundant as a result of restructuring activities where no previous provision for that payment has been recognised. These restructuring activities commenced in 2019 and completed in 2021. The cost of redundancy payments is recognised when the Company has either a legal or constructive obligation to make those payments.

Other restructuring costs mainly relate to costs associated with the closure of the Company's Burtonwood Brewery in 2021.

5. Operating profit

Operating profit is stated after charging/(crediting):

	£'000	2021 £'000
Excise duty on own products	604,789	505,027

Decelerated capital allowances Land and buildings Tax losses Other timing differences	21,393 10,488 15,711 4,258	30,368 10,384 6,537 5,208
Deferred tax asset excluding pension related balances	51,850	52,497
Total deferred tax asset	51,850	52,497

A deferred tax asset of £51,850,000 (2021 - £52,497,000) has been recognised, relating to decelerated capital allowances, land and buildings, tax losses and other timing differences. The Directors believe it is probable that the Company will continue to generate taxable profits in future, against which this asset will be recovered.

Factors affecting current and future tax charges

On 3 March 2021 the UK Government announced that the main rate of corporation tax would be increasing to 25% from 1 April 2023. This change was substantively enacted on 24 May 2021 and the Company's deferred tax assets and liabilities at 31 December 2021 and 31 December 2022 have been calculated at this rate.

The amortisation charge for the financial year is included in the Income Statement under the heading of administrative expenses.

Included in the carrying amount of intangible assets of £74,397,000 (2021: £81,568,000) at 31 December 2022 is £52,892,000 (2021: £56,738,000) relating to the perpetual royalty free licence for Miller branded products in Europe acquired in 2016. That asset is being amortised on a straight line basis over 20 years, being the directors' estimate of the useful economic life of the asset. The remaining amortisation period at 31 December 2022 is 13.75 years (2021: 14.75 years).

Also included in the carrying amount of intangible assets of £74,397,000 (2021: £81,568,000) at 31 December 2022 is £14,955,000 (2021: £16,462,000 relating to the brand rights from Rekorderlig (UK) Limited in 2015. The asset is being amortised on a straight line basis over 17 years, being the period over which the Company has the right to distribute the associated product. The remaining amortisation period at 31 December 2022 is 9.9 years (2021: 10.9 years).

All land and buildings are freehold. Included in the cost or valuation of land and buildings of £86,975,000 (2021: £88,680,000) is £1,500,000 (2021: £5,395,000) relating to assets held at valuation

On 12 January 2017, the Company entered into a Sale and Purchase agreement ("SPA") with Weis Group ("Weis") for the sale of the UK National Distribution Centre's ("NDC") Land and Building for £33.4m, with completion of the sale and sale proceeds funds received on that date. The property is being leased back to the Company from Weis for a period of 20 years. Upon the evaluation of Sale and Leaseback Criteria, the Company is considered to be undertaking a capital lease arrangement. As a result, the Company is required to defer the profit on sale of the NDC of £23.9m and amortise this profit over the shorter of the term of the lease, or the UEL of the property – in this case the lease term of 20 years. Upon the recognition of the transaction as a sale-leaseback, the current holding value of the property associated with the transaction, £9m, was derecognised at its net book value. A new leased asset and matching capital lease liability was recorded at an assessed value of £25.1m. The leased asset is being depreciated over a 20 year term at £1.3m per annum.

On 1 March 2018, the Company entered into an arrangement with Close Brewery Rentals Limited where kegs owned by the company were sold to Close Brewery for £22.0m. There is no profit or loss arising from this transaction. These kegs were placed into an 8 year lease agreement, with kegs and casks previously being rented also being transferred and the existing rental agreements terminated. At the end of the 8 year lease term there is a repurchase obligation for the kegs that remain. The previously owned kegs are recorded as a finance lease and are retained within fixed assets on the balance sheet.

The historical cost of land and buildings at 31 December 2022 is £86,975,000 (2021 - £88,680,000). The revaluation reserve relating to assets held at deemed cost at 31 December 2022 was £795,000 (2021 - £795,000). None of the Company's plant and machinery or fixtures and fittings are held at valuation. Interest capitalised in the year is £127,000 (2021 - £6,000). The interest rate used to capitalise is 2.2% (2021 - 2.2%).

Restructuring provision

Provision relates to redundancy payments to employees who are to be made redundant as a result of restructuring activities.

Onerous lease provision

Provision has been made for the cost of fulfilling contractual obligations in relation to various onerous lease agreements. It is anticipated that this provision will not be fully utilised until 2046.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2022

24. Pensions and other post-retirement benefits

The Company operates the Molson Coors (UK) Pension Plan ("the Plan") in the United Kingdom; a contributory, self-administered, defined benefit pension plan. Assets of the Plan are held separately from those of the Company and are in the care of a corporate Trustee, Molson Coors Brewing Company (UK) Pensions Limited. The Plan provides defined benefit (DB) and other related benefits, including protection for dependants in the event of death in service. The Plan closed to future accrual on 4 April 2009. All active members changed their status to deferred and were offered membership of the contract-based DC arrangement. Contributions to the Plan are assessed in accordance with the advice of an independent qualified actuary using the projected unit method, where applicable, and as agreed with the trustee of the Plan. Total contributions made by the Company to the Plan in the financial year ended 31 December 2022 amounted to £nil (2021: £nil).

The most recent triennial actuarial valuation of the Plan was carried out by the Plan actuary at 30 June 2022 using the projected unit method. Scheme assets are stated at their fair values at the balance sheet date.

A full assessment of liabilities as at 31 December 2022 was carried out by Mercer, an independent and professionally qualified actuary.

The assets and liabilities of the scheme at 31 December are:

	2022 £'000	2021 £'000
Scheme assets at fair value:		
Equities	19,503	116,979
Debt instruments	603,278	930,092
Property	55,907	1 1 0,861
Cash	41,605	11,914
Buy-in	323,742	463,000
Other assets	256,133	378,339
Fair value of scheme assets	1,300,168	2,011,185
Present value of scheme liabilities	(1,127,922)	(1,754,023)
Net Pension Asset	172,246	257,162

The Plan has not invested in any of the Company's own financial instruments nor in properties or other assets used by the Company.

During 2017, the Plan became broadly fully funded on a technical provision basis resulting in a significant reduction in the directors' expectations regarding the future funding requirement for the Company to pay contributions into the Plan As a result, the directors have reconsidered the basis upon which the net defined benefit asset is recognised in the financial statements and have determined that, in accordance with the terms and conditions of the defined benefit plans, and in accordance with statutory requirements (including minimum funding requirements) for the Plan, the present value of expected refunds from or reductions in future contributions to the Plan no longer supports the net defined benefit asset. As such the net defined benefit was derecognised at 31 December 2017.
