GENERAL INFORMATION

The Company is a private company limited by shares and is incorporated in England. The address of its registered office is South Boulevard, Hessle Road, Hull, East Yorkshire, HU3 4DY.

STATEMENT OF COMPLIANCE

The financial statements of Andrew Johnson Knudtson Limited have been prepared in compliance with United Kingdom Accounting Standards, including the provisions of FRS 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") section 1A small entities and the Companies Act 2006.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

BASIS OF PREPARATION

These financial statements are prepared on the going concern basis, under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom.

EXEMPTIONS FOR QUALIFYING ENTITIES UNDER FRS 102

FRS 102 allows a qualifying entity certain disclosure exemptions, if certain conditions, have been complied with, including notification of and no objection to, the use of exemptions by the Company's shareholders. A qualifying entity is defined as a member of a group that prepares publicly available financial statements, which give a true and fair view, in which that member is consolidated.

As a qualifying entity, the Company has taken advantage of the following exemptions:

- from the requirement to prepare a statement of cash flows as required by paragraph 3.17(d) of FRS 102;
- from the requirement to present certain financial instrument disclosures, as required by sections 11 and 12 of FRS 102;
- from the requirement to present a reconciliation of the number of shares outstanding at the beginning and end of the period as required by paragraph 4.12(a)(iv) of FRS 102; and
- from the requirement to disclose the key management personnel compensation in total as required by paragraph 33.7 of FRS 102.

BASIS OF TURNOVER RECOGNITION

Turnover is recognised, over the period of the relevant contract, on an accruals basis and represents the amounts (excluding value added tax) derived from the rental of properties during the year.

TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are stated at historic purchase cost less accumulated depreciation. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. Depreciation is calculated to write off the cost of tangible fixed assets, less their residual values, over their expected useful lives using either the straight line or reducing balance basis. The expected useful lives of the assets to the business are reassessed periodically in the light of experience. Freehold land is not depreciated.

The annual rates of depreciation used are:-

Freehold buildings	2% - 5% on a straight line basis
Plant and fixtures	10-33% on a straight line basis
Motor Vehicles	25% - 33% on a reducing balance basis
Computer equipment	14% on a straight line basis

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date.

A net deferred tax asset is recognised when recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis.

Accounting policies

for the financial year ended 31 March 2017

OPERATING LEASES

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

GOVERNMENT GRANTS

Government grants are treated as deferred income on receipt and are released to the profit and loss account in line with the depreciation policy of the particular asset to which the grant relates.

PENSIONS

The Group operates defined contribution pension schemes. The assets of these schemes are held separately from those of the Group in independently administered funds. Contributions are charged to the profit and loss account as incurred.

JUDGEMENTS AND ESTIMATED UNCERTAINTY

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Key accounting estimates and assumptions.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Impairment of fixed assets

The Company considers whether fixed assets are impaired. Where an indication of impairment is identified there is an assessment of the recoverable value of the cash generating units (CGUs). This requires estimation of the future cash flows from the CGUs and also selection of appropriate discount rates in order to calculate the net present value of those cash flows.
