COMPANIES HOUSE 24 NOV 1992 5

CHAIRMAN'S STATEMENT

I have pleasure in presenting the directors' report and accounts for the year ended 30th April, 1992.

Sadly, John Goodwin, Chairman and Managing Director for twenty three years, died in March. He provided foresight and stability to the Company and will be a great loss. It is a tribute to him that, faced with catastrophic decline in our traditional coal and steel markets, new products and outlets have been developed to secure the Company's future.

The year's trading resulted in a reduced profit before taxation of £402,000 on marginally increased sales of £14,205,000. All markets were adversely affected by recession and production costs were increased by higher interest—'es. Continued investment improved our market share and enabled volumes to be maintained with sales outside the U.K. increasing by ten per cent. The Board recommends a dividend of 0.655p per share.

Your Board has been re-structured. Mr. Richard Goodwin has been appointed Managing Director and, together with Mr. Harold Horton, is responsible for running the Group's subsidiaries. Messrs. R. J. Dyer, P. J. Horton and P. F. Tindall have been appointed Associate Directors. After twenty years of loyal service, Mr. S. G. Peach retired and has been replaced by Mrs. P. Higgs as Company a restary.

The Board's policy, supported by the Goodwin family majority shareholders, is to focus on efficiently manufacturing and trading products with technical merit in growth markets. This will necessitate continued internally funded investment to further develop export sales. The Company's principal asset remains the skill and knowledge of its employees and their motivation to out-perform the competition is a prime goal.

Every effort is being made to improve performance through all our divisions, but this will depend upon the economic climate within which profits are currently harder to maintain. In the long term prospects should be more favourable as customers see the hard won effects of our more efficient manufacture.

My thanks go to all employees whose team work and dedication have seen us through a difficult year.

J. W. GOODWIN,

Chairman.

9th October, 1992

REPORT OF THE DIRECTORS

NOTES TO THE ACCOUNTS

1. Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the group's accounts:

Basis of accounting

The accounts have been prepared under the historical cost accounting rules and in accordance with applicable Accounting Standards.

(b) Consolidation principles

- (i) The group accounts include the results of the parent company and all of its subsidiary undertakings made up to 30th April.
- (ii) The excess cost of shares in subsidiary undertakings over the book value of the net tangible assets acquired is written off against reserves in the group accounts.
- (iii) The company a not required to present its annual profit and loss account in addition to the consolidated profit and loss account.

Depreciation

Depreciation is calculated so as to write off the cost of fixed assets over their estimated useful lives. The method of calculation and the annual rates applied are as follows: Freehold land Nil

Freehold buildings-Industrial 21/2% on cost -Quarry 10% on cost ••• ...

Leasehold property Over period of lease ••• ••• •••

Plant and machinery Mccor vehicles ... 15% on reducing balance or 25% on cost ,,, *** *** ***

...

15% or 25% on reducing balance Over commercial life when this is less than ten years Mineral reserves ...

(d) Stock and work in progress

Stock and work in progress is valued at the lower of cost and net realisable value. Cost includes relevant overheads where appropriate.

(e) Foreign exchange

The accounts of overseas subsidiary undertakings have been translated into sterling at the rates of exchange ruling at the year end. Exchange differences arising on the retranslation of opening net assets of overseas subsidiary undertakings are taken directly to reserves, as are those on currency loans used for overseas investment.

Transactions denominated in foreign currencies are translated into sterling and recorded at the rates of exchange ruling at the dates of the transactions. Balances denominated in foreign currencies are translated into sterling at the exchange rates ruling at the balance sheet date.

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Provision is made for deferred taxation only to the extent that it is probable that an actual liability will crystallise.

Unutilised advance corporation tax is deducted from any provision made. Deferred taxation is not provided on earnings retained in overseas subsidiary undertakings.

Revenue based Government grants are credited to the profit and loss account so as to match them with the expenditure to which they are intended to contribute.

The costs of operating leases are charged to the profit and loss account in the year in which they are incurred.

Pension costs

The group contributes to a number of defined contribution pension schemes for certain senior employees. The assets of these schemes are held in independently administered funds. Group pension costs are charged to the profit and loss account in the year for which contributions are payable.
