DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that year. In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In so far as the directors are aware

- there is no relevant audit information of which the group's auditor is unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information

This includes an assessment of whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by directors, and the overall presentation of the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2009

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets and financial instruments

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company and all group undertakings. These are adjusted, where appropriate, to conform to group accounting policies. Acquisitions are accounted for under the acquisition method and goodwill on consolidation is capitalised and written off over five years from the year of acquisition. The results of companies acquired or disposed of are included in the profit and loss account after or up to the date that control passes respectively. As a consolidated profit and loss account is published, a separate profit and loss account for the parent company is omitted from the group financial statements by virtue of section 408 of the Companies Act 2006.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a group cash flow statement in the financial statements on the grounds that the company is small

Turnover

Turnover represents investment income, interest receivable from short term loans, cash deposits and income from property

Fixed assets

All fixed assets are initially recorded at cost Tangible fixed assets are stated at cost less depreciation

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Office Equipment - Straight line over 5 years

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2009

1. ACCOUNTING POLICIES (continued)

Investment properties

Investment properties are shown at their open market value in accordance with SSAP 19 Accounting for Investment Properties Changes in the market value of such properties arising from the annual revaluation are transferred to an investment revaluation reserve except where a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year

No depreciation is provided on investment properties, which is a departure from the requirements of the Companies Act 2006. In the opinion of the directors these properties are held primarily for their investment potential and so their current value is of more significance than any measure of consumption, and to depreciate them would not give a true and fair view. The provisions of SSAP 19 have therefore been adopted in order to give a true and fair view.

If this departure from the Act had not been made, the profit for the year would have been reduced by depreciation. However, the amount of depreciation cannot reasonably be quantified and the amount which might otherwise have been shown cannot be separately identified or quantified.

Pension costs

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.

Financial instruments

a) Investments

All investments are initially recorded at cost, being the fair value of the consideration given and including acquisition costs associated with the investment All purchases and sales of investments are recognised using trade date accounting

After initial recognition, investments, which are classified as held for trading and available-forsale, are measured at fair value. Gains or losses on investments held for trading are recognised in the profit and loss account. Gains or losses on available-for-sale investments are recognised as a separate component of capital until the investment is disposed of or until its value is impaired, at which time the cumulative gain or loss previously reported in equity is included in the profit and loss account.

Investments are fair valued using quoted market prices, independent appraisals, discounted cash flow analysis or other appropriate valuation models at the balance sheet date

b) Trade and other debtors

Trade and other debtors are recognised and carried forward at invoiced amounts less provisions for any doubtful debts. Bad debts are written off when identified

c) Cash and cash equivalents

Cash and cash equivalents are included in the balance sheet at cost. Cash and cash equivalents comprise cash at bank and in hand and short term deposits with an original maturity of three months or less.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2009

1. ACCOUNTING POLICIES (continued)

Investments

Listed investments are stated at market value with the resulting difference between cost and market value transferred to the revaluation reserve annually. Where a fall in value to below cost occurs, then the deficit is taken to the profit and loss account if the diminution is considered permanent. Unlisted investments are accounted for on the same basis where a market value is readily available. Where no market value is available the investment is valued at cost, with an annual review by the directors for any permanent diminution in value.

Grants and trust projects

Grants and trust projects are included in the accounts when the expenditure has been incurred Amounts authorised by the directors to which no binding commitments are made are noted in the directors' report
