#### **DIRECTORS RESPONSIBILITIES STATEMENT**

The directors are responsible for preparing the directors report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the directors report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

## **NOTES TO THE FINANCIAL STATEMENTS**

**YEAR ENDED 31 DECEMBER 2015**

### **1. STATEMENT OF COMPLIANCE**

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

### **2. ACCOUNTING POLICIES**

#### **Basis of preparation**

Deritend Investments (Cheetham) Limited (the "Company") is a company limited by shares and incorporated in the UK. The Company's Registered Office is Freshwater House, 158-162 Shaftesbury Avenue, London WC2H 8HR. The presentation currency of these financial statements is sterling.

The financial statements have been prepared under the historical cost convention except that investment property is measured at fair value.

The financial statements have been prepared in accordance with the accounting principles appropriate to a going concern, as the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due, based on the net current asset position of the company and available sources of finance.

#### **Transition to FRS 102**

The entity transitioned from previous UK GAAP to FRS 102 as at 1 January 2014. Details of how FRS 102 has affected the reported financial position and financial performance is given in note 16.

#### **Disclosure exemptions**

FRS 102 grants certain first-time adoption exemptions from the full requirements of FRS 102 in the transition period. The following exemption has been taken in these financial statements:

- Lease arrangements - in order to determine whether an arrangement contains a lease, the Company has analysed facts and circumstances existing at 1 January 2014 rather than commencement date of the arrangement.

In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to the end of the period;
- Cash Flow Statement and related notes;
- Key Management Personnel compensation; and
- Basic and Other Financial Instruments.

The Company's intermediate parent undertaking, Metropolitan Properties Company Limited, includes the Company in its consolidated financial statements. The consolidated financial statements of Metropolitan Properties Company Limited are prepared in accordance with FRS102 and are available to the public and may be obtained from Freshwater House, 158-162 Shaftesbury Avenue, London WC2H 8HR.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

### YEAR ENDED 31 DECEMBER 2015

#### 2. ACCOUNTING POLICIES *(continued)*

##### **Judgements and key sources of estimation uncertainty**

Judgements made by the directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 15.

##### **Turnover**

Turnover comprises rents and service charges receivable. Rental income from investment property leased out under operating leases is recognised in the profit and loss account on a straight line basis over the period to first break clause. Lease incentives granted to tenants are recognised on a straight line basis over the period to first break clause. Service charge income is recognised as the services are provided.

##### **Property outgoings**

The costs of repairs are recognised in the profit and loss account in the year in which they are incurred.

Lease payments under operating leases are recognised in the profit and loss account on a straight line basis over the term of the lease.

##### **Taxation**

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is expected tax payable or receivable on the taxable income or loss for the year, using rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Provision is made for consideration payable to or receivable from other group undertakings for the surrender of losses under group relief provisions.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is provided in respect of the additional tax that will be paid or avoided on differences between the amount at which an asset (other than goodwill) or liability is recognised in a business combination and the corresponding amount that can be deducted or assessed for tax.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. For investment property that is measured at fair value, deferred tax is provided at the rate and allowances applicable to the sale of the property.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

YEAR ENDED 31 DECEMBER 2015

### 2. ACCOUNTING POLICIES *(continued)*

#### **Investment properties**

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Investment properties are recognised initially at cost.

Subsequent to initial recognition

- Investment properties whose fair value can be measured reliably without undue cost or effort are held at fair value. Any gains or losses arising from changes in the fair value are recognised in the profit and loss account in the period that they arise; and
- No depreciation is provided in respect of investment properties applying the fair value model.

This treatment, as regards the company's investment properties, may be a departure from the requirements of the Companies Act concerning depreciation of fixed assets. However, these properties are not held for consumption but for investment and the directors consider that systematic annual depreciation would be inappropriate. The accounting policy adopted is therefore necessary for the financial statements to give a true and fair view. Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Investment property fair value is based on a valuation by an external, independent valuer, having an appropriate recognised professional qualification and recent experience in the location and class of property being valued.

#### **Disposals of properties**

The company generally holds its properties for the long term in order to generate rental income and capital appreciation although in the right circumstances any property could be available for sale. When an outright sale does occur the resulting surplus based on the excess of sales proceeds over valuation is included within the company's profit on ordinary activities, and taxation applicable thereto is shown as part of the taxation charge. Disposals are recognised on the date the significant risks and rewards of ownership have been transferred. In addition the company also 'sells' leasehold extensions when requested by leaseholders. The proceeds of these leasehold extension sales, less directly applicable costs, are also included in profit on disposal of investment properties.

## NOTES TO THE FINANCIAL STATEMENTS *(continued)*

YEAR ENDED 31 DECEMBER 2015

### 2. ACCOUNTING POLICIES *(continued)*

#### Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all its financial liabilities.

#### Basic financial instruments

##### Trade and other debtors

Trade and other debtors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate for a similar debt instrument.

##### Trade and other creditors

Trade and other creditors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate for a similar debt instrument.

#### Income and expenses

##### Interest receivable and Interest payable:

Interest income and interest payable are recognised in the profit and loss account as they accrue, using the effective interest method.

Borrowing costs that are directly attributable to the acquisition, construction or redevelopment of an asset that takes a substantial time to be prepared for use are expensed as incurred.

Interest receivable and similar income include interest receivable on intercompany loans and late payment charges.

#### Related party transactions

The company has taken advantage of the exemptions in FRS102 in order to dispense with the requirements to disclose transactions with other companies in the Metropolitan Properties Company Limited group.

### YEAR ENDED 31 DECEMBER 2015

#### 15. ACCOUNTING ESTIMATES AND JUDGEMENTS

##### i. Property valuations

The valuation of the company's property portfolio is inherently subjective, depending on many factors, including the individual nature of each property, its location and expected future net rental values, market yields and comparable market transactions (as set out in Note 7). Therefore the valuations are subject to a degree of uncertainty and are made on the basis of assumptions which may not prove to be accurate, particularly in periods of difficult market or economic conditions. As noted in Note 2 above, all the company's properties are valued by external valuers with appropriate qualifications and experience.

##### ii. Trade debtors

Management uses details of the age of trade debtors and the status of any disputes together with external evidence of the credit status of the counterparty in making judgements concerning any need to impair the carrying values.

**16. TRANSITION TO FRS 102** *(continued)*

The following were changes in accounting policies arising from the transition to FRS102:

**Investment properties:**

Previously, the company's investment properties were held at market value, with the aggregate surplus or deficit on revaluation being recorded in the revaluation reserve, with the exception of permanent diminutions in value which were written off through the profit and loss account. Under FRS 102 these properties are held at fair value, with changes in fair value being recorded in the profit and loss account.
