## Notes to the Financial Statements

Year Ended 31 December 2022

---

### 1. General Information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Martens Road, Northbank Industrial Park, Irlam, Manchester, M44 5AX.

### 2. Statement of Compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

### 3. Accounting Policies

#### Basis of Preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity and have been rounded to the nearest £1,000.

#### Going Concern

The financial statements have been prepared on the going concern basis which assumes that the company will continue in operational existence for the foreseeable future. If the company were unable to continue trading then certain adjustments would have to be made to restate assets to their recoverable amounts, to provide for future liabilities which may arise and to reclassify long term assets and liabilities as current.

The validity of this assumption depends on the continued support of the other group companies. In the opinion of the directors, the other group companies will continue to support the company for the foreseeable future, and therefore, the going concern assumption is appropriate.

#### Judgements and Key Sources of Estimation Uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### Significant judgements

The judgements (apart from those involving estimations) that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements are as follows:

- Determination of recoverability of trade debtors. A specific provision is made against certain debts where in the opinion of the directors the debt is not fully recoverable.

#### Key sources of estimation uncertainty

Management do not consider there to be any key estimates contained within the financial statements.

## Notes to the Financial Statements *(continued)*

### Year Ended 31 December 2022

---

#### 3. Accounting Policies *(continued)*

##### Revenue Recognition

Turnover represents the value of services provided during the year, exclusive of Value Added Tax.

In respect of long-term contracts and contracts for on-going services, turnover represents the value of work done in the year, including estimates of amounts not invoiced. Turnover in respect of long-term contracts contracts for on-going services is recognised by reference to the stage of completion.

##### Income Tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

##### Investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

##### Impairment of Fixed Assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs.

##### Financial Instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
