#### **DIRECTORS' REPORT**

#### FOR THE YEAR ENDED 31 DECEMBER 2000

The directors present their report and the abbreviated financial statements for the year ended 31 December 2000.

#### Principal activity

The principal activity of the company throughout the year continued to be that of manufacturer and distributor of chemicals to the textile industry.

#### **Business review**

The year 2000 has been the most difficult year of trading in the history of CHT (UK) Limited. This is against a backdrop of the well-reported demise of the textile industry that the company services.

During the course of the year there have been a large number of both existing and potential customers who have closed, through a variety of circumstances – liquidation, orderly closure and the transfer of business into Eastern economies.

Such closures have resulted in a significant loss of revenue although this has been replaced, at least in part, through new business generated as a result of the company's competitive nature. However, due to the bad debts suffered as a result of these closures, the profit for the year has been significantly reduced.

In an effort to expand the company's coverage of the textile industry, which is of course its core business, the directors have actively recruited in the Coatings (Technical Textile) area to exploit the parent company's development in this field. This is a very competitive market sector, but with the company's developing strategy, the directors expect that this area will have made a significant contribution to its development by the end of 2001.

The future for the textile industry within the UK is uncertain. Further closures are inevitably expected, but with a flexible approach, the directors have great expectations for a consolidation of the company's position as a leading supplier within the industry.

The company's balance sheet as detailed on page 7 shows a satisfactory position with shareholders' funds amounting to £2,154,568 (1999 - £2,155,125).

#### Profits, dividends and appropriations

The results for the year are shown in the profit and loss account on page 6.

An ordinary dividend amounting to £300,000 (1999 - £450,000) was paid during the year and the resulting deficit for the year is to be transferred to reserves.

#### DIRECTORS' REPORT (cont...)

#### FOR THE YEAR ENDED 31 DECEMBER 2000

#### Fixed assets

Changes in fixed assets during the year are set out in note 8 to the accounts.

In the opinion of the directors there is no significant difference between the present market value of the company's properties and the amounts at which they are stated in the accounts. Details are set out in note 8.

#### STATEMENT OF DIRECTORS' RESPONSIBILITIES

We are required under company law to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing those financial statements we are required to:

- select suitable accounting policies and apply them consistently;
- make reasonable and prudent judgements and estimates;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

#### We are also responsible for:

- keeping proper accounting records;
- safeguarding the company's assets;
- taking reasonable steps for the prevention and detection of fraud.

#### NOTES TO THE ABBREVIATED ACCOUNTS

#### FOR THE YEAR ENDED 31 DECEMBER 2000

#### 1. Accounting policies

#### Basis of accounting

The financial statements have been prepared in accordance with applicable Accounting Standards and under the historical cost accounting rules.

#### **Depreciation**

Depreciation of fixed assets is calculated to write off their cost or valuation less any residual value over their estimated useful lives as follows:

Freehold buildings

2% on cost

Plant and equipment

10% to 33% on cost

Motor vehicles

25% on cost

Fixtures and fittings

25% on cost

#### Stocks

Stocks are valued at the lower of cost and net realisable value. Cost is computed on a first in first out basis. Net realisable value is based on estimated selling price less the estimated cost of disposal.

#### Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

#### **Deferred taxation**

Provision is made at appropriate rates for taxation deferred in respect of all material timing differences only to the extent that, in the opinion of the directors, there is a reasonable probability that a liability or asset will crystallise in the foreseeable future.

#### Leases

Rentals paid under operating leases are charged to the profit and loss account as incurred.

#### **Pensions**

#### **Defined contribution scheme**

Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.
