## Strategic report for the year ended 31 December 2017

The directors present their strategic report together with the consolidated audited financial statements for the year ended 31 December 2017.

#### Review of the business

As set out on page 9 the group turnover increased in the year to £130,636,000 (2016 - £127,671,000) an increase of 2.3%. The gross profit value increased by 3.0% with gross margin percentage increasing slightly to 23.91% (2016 – 23.75%) The biggest factor in the gross margin stagnation is the continued weakness of Sterling since the Brexit vote in June. The group brings in a majority of its cleaning equipment from the Euro Zone.

Retail sales grew in 2017 with our Outdoor range performing particularly well during the year and ended the 2017 with double digit growth year on year. Our share of the domestic high pressure washer market also grew in the financial year and delivered strong growth on 2016. New product development in other Outdoor products, including our portable cleaner, the OC3, helped grow this product sector. Indoor products, such as domestic vacuums and window vacuums fell short of expectation. Although, our share of the steam market has grown the UK steam market has shrunk significantly over the last few years.

Professional sales on the whole remained flat compared with 2016, as we did not see significant tender activity on our retail cleaning & floorcare products. Core Professional products, such as the hot and cold high pressure washers and vacuums grew well in the year with stable margins as a result of increases in pricing to offset exchange effect on bought in goods. Our continued focus on aftermarket services for our customers saw very good growth, as a result of our continued investment in engineering infrastructure and efficiency in processes. Machine hire turnover saw strong double digit growth in the year.

Group administration and distribution costs decreased by 2.4% verses 2016 (excluding 2016's exceptional income). In collaboration with the company's parent company, the management team introduced a set of projects to increase process efficiencies and create cost reductions, which have tightened the cost basis, despite having a full year of higher new Head Quarters running costs. The significant spend for the group in the year was on warehouse and carriage, advertising and marketing expenses and personnel costs. The average consolidated headcount increased by 1 to 324 (2016 – 323). The group made an operating profit in 2017 of £1,246,000 (2016 - £2,192,000) with profit on ordinary activities after interest and taxation of £396,000 (2016 - £1,372,000).

Product stock values reduced year on year by 16.1%. This was due to a strong last quarter of sales and a second half of the year stock reduction program. Trade receivables remain within company's debtor day expectations and key performance indicators for the group.

Consolidated net assets increased by £3,496,000 year on year with the majority of the movement due to the change in value of our derivative financial instruments and reduction in our intra-group trade creditor at the year-end. The movement in the derivatives created an asset of £933,000 (increase of £3,735,000) and the reduction in intra-group creditor increases our assets by a further £4,983,000. The offset against these increases comes mainly from stock reduction, which decreased by £1,688,000 to £8,785,000 and net fixed assets which reduced by £1,192,000 to £14,231,000 after several years of significant investment. We aim to protect our core business by using forward contracts to help build more certainty into our future cash flows.

The wider UK economy post-Brexit remains; a major concern for many import businesses like ours and the uncertainty makes investment and planning more complex. The reduction in consumer confidence does impact our business directly. Consumer price inflation rose steadily through 2017, ending the year at 3.1% and for the first time in many years, inflation has overtaken wage growth in the UK. This puts pressure on our cost base, as unemployment is also quite low at present.

In 2017 the currency effect (Sterling verses the Euro) negatively swung 10.8% from a low of £0.835 in April to a high of £0.925 in August. Between January 2016 and December 2017, the UK faced an adverse exchange swing of 17.4% over the 24 month period. As a majority of our products sold in the UK are imported from the Euro zone, the management of our product cost base requires significant management focus and necessary price adjustment.

## Strategic report for the year ended 31 December 2017 *(continued)*

The UK team, in conjunction with our German parent company, ran a highly successful series of projects to help alleviate these macro-economic factors, which directly improved our profitable returns and working capital in the year. These measures will continue in the coming years as we can expect the period of uncertainty to continue for the next 2 years as negotiations continue for the UK to exit the EU.

Our brand strength, continued innovation of our product range and close collaboration with our customers, will continue to be the focus for the business in 2018. These factors, plus the strategic measures that have been introduced to protect the principles and assets of Kärcher, mean that we are in a good position to continue added value projects and profitable growth for the business.

#### Principal risks and uncertainties

The macroeconomic effect on the UK economy after the decision to leave the European Union clearly remains uncertain, and remains a significant focus for the management.

The business anticipates that a slowdown in growth, further reduced consumer confidence and the potential continued depreciation of the pound to be the key risks to the plans of the management.

With this in mind, deployment of risk mitigating policies such as foreign currency hedging, cash flow planning and, strategic plans to improve working capital and profit generation have already proved a valuable barrier to the financial impacts of the economic changes.

The Group as a whole has a strong brand and culture, both of which are the backing of long terms plans, which underpin the UK business, and with the recent investment in new Head Quarters in the UK, will provide the business with a firm foundation to continue to strengthen the brand awareness and grow over the long term.

#### **Key Performance Indicators**

The group produce regular management information for review and discussion by the directors, business division managers and employees. Management produce key performance indicators specifically on a business unit, value stream and sales channel level. The financial key performance indicators are sales performance, gross margin and product contributions as well as capital and overhead spend. These are evaluated against previous years, forecasts and budgets and then used to adjust strategic planning to ensure the assets and returns of the business are protected.

Included in management information submissions are non financial measures including headcount per cost centre, employee productivity, cost to serve our customers, product return volumes, health and safety data, customer service levels and orders delivered 'on time & in full' through our outsource partner and in-house warehousing and distribution.

Working capital measures are reviewed and set for the coming periods by the management and they include stock range, debtor days, cash collection targets, creditor days, currency hedging effectiveness and liquidity statistics.

A majority of the financial performance indicators are relevantly assessed on a company and sales channel level, therefore not presented in this report however a key indicator for the measurement of the business is our return on company assets. This is a ratio of our earnings over the 13 month average net assets.

At present there are no significant threats to any operating costs or outstanding debts of the business, with all business units and company key indicators within tolerance levels of management expectations.

This report was approved by the board on and signed on its behalf.

M R Venner Secretary 27 March 2018

## Report of the directors for the year ended 31 December 2017

The directors present their report together with the audited consolidated financial statements for the year ended 31 December 2017.

#### Results and dividends

The consolidated statement of comprehensive income is set out on page 9 and shows the profit for the year.

#### Management of financial risks

The group's operations and administration are open to currency, liquidity, credit, interest rate and returned product risks.

The group has exposure to the Euro currency, this is managed by forward hedged exchange contracts and reviewed regularly with our treasury department at head office to ensure we have no large exposures or risk to company margin and cost budgets.

The group's policy in respect of credit risk is to require appropriate credit checks on potential customers before sales are made and monitor all customers' credit worthiness on a regular basis. The credit limit management tools within our software applications and dunning process are fully integrated to collect monies due to the company in a timely and orderly manner. Credit insurance on significant debt is in place to further strengthen the protection of our receivable assets.

The group's policy in respect of interest rate risk and liquidity risk is to maintain medium term and short term debt finance from the parent company and readily accessible bank overdraft accounts to ensure the company has sufficient funds for operations. The cash deposits are held in a mixture of short term deposits with the parent company and current accounts that earn interest at a floating rate.

Returned products are managed by a dedicated retail collection team, reworked and sold via our outlet website. The company returns rates are regularly reviewed for each product range and appropriate provisions are made.

#### **Employment of disabled persons**

Full and fair consideration is given to the employment of applicants who are disabled persons, taking account of their disabilities and abilities. Employees who become temporarily or permanently disabled are retained in employment where possible with fair regard to their training needs, role and career development. All employees are fairly and equally provided opportunities for any promotion opportunities.

#### **Employee involvement**

The group creates platforms and encourages regular consultation with employees and management throughout the business. Employees are notified of the business performance and future developments through monthly operating updates, weekly team leader review meetings and company's annual conference. All employees have performance reviews, learning & development plans and self-assessment appraisal meetings at least twice a year. We have recently invested in an all-encompassing software package to help manage these functions and align ourselves with the global human resource management processes The group has now also successfully achieved 'Investors in People' accreditation.

In 2017 we performed another group wide employee survey in conjunction with our Culture Excellence and ran workshops with all our employees and the results of which are now being evaluated.

#### Research and development

The group had no investment in this area in the year.

## Report of the directors for the year ended 31 December 2017 (continued)

#### **Directors**

The directors of the company during the year were:

H O Jenner S C Keeping M R Venner M J Asch C May

#### **Directors' responsibilities**

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom accounting standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and of the profit or loss of the group for that period.

In preparing these financial statements the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's transactions, to disclose with reasonable accuracy at any time the financial position of the group and to enable them to ensure that the financial statements comply with the Companies Act 2006.

They are also responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### Disclosure of information to auditors

Each of the persons who are directors at the time when this directors' report is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- that director has taken all the steps that ought to have been taken as a director in order to be aware of any
  relevant audit information and to establish that the company's auditors are aware of that information.

# Report of the directors for the year ended 31 December 2017 (continued)

### Auditors

The auditors, BDO LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006

This report was approved by the board on and signed on its behalf.

Nennei Director

27 March 2018

S C Keeping Director

27 March 2018

#### Independent auditor's report

#### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF KÄRCHER (UK) LIMITED

#### **Opinion**

We have audited the financial statements of Kärcher (UK) Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 December 2017 which comprise the consolidated statement of comprehensive income, the consolidated balance sheet, the consolidated statement of changes in equity, the consolidated statement of cash flows, the company balance sheet, the company statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the group's and of the parent company's affairs as at 31 December 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Directors have not disclosed in the financial statements any identified material uncertainties that may
  cast significant doubt about the group's or the parent company's ability to continue to adopt the going
  concern basis of accounting for a period of at least twelve months from the date when the financial
  statements are authorised for issue.

#### Independent auditor's report (continued)

#### Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the report of the directors for the financial year for which
  the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the report of the directors have been prepared in accordance with applicable legal requirements.

#### Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns;
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

#### Responsibilities of directors

As explained more fully in the report of the directors, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

#### Independent auditor's report (continued)

#### Auditor's responsibilities for the audit of the financial statements

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <a href="https://www.frc.org.uk/auditorsresponsibilities">www.frc.org.uk/auditorsresponsibilities</a>. This description forms part of our auditor's report.

## Notes forming part of the financial statements for the year ended 31 December 2017

#### 1 Accounting policies

The group's principal activities include the sale, hire and repair of cleaning equipment. The registered office of the parent company (Kärcher (UK) Limited) is Kärcher House, Brookhill Way, Banbury, Oxfordshire, England OX16 3ED. The company is incorporated in England and Wales under the Companies Act 2006.

#### Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (see note 2).

#### Parent company disclosure exemptions

In preparing the separate financial statements of the parent company, advantage has been taken of the following disclosure exemptions available in FRS 102:

- Only one reconciliation of the number of shares outstanding at the beginning and end of the period has been presented as the reconciliations for the group and the parent company would be identical;
- No cash flow statement has been presented for the parent company;
- Disclosures in respect of the parent company's financial instruments and share-based payment arrangements have not been presented as equivalent disclosures have been provided in respect of the group as a whole; and
- No disclosure has been given for the aggregate remuneration of the key management personnel of the parent company as their remuneration is included in the totals for the group as a whole.

The following principal accounting policies have been applied:

#### Basis of consolidation

The consolidated financial statements present the results of Kärcher (UK) Limited and its subsidiaries ("the group") as if they formed a single entity. Intercompany transactions and balances between group companies are therefore eliminated in full.

The consolidated financial statements incorporate the results of business combinations using the purchase method. In the balance sheet, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained.

#### Going concern

The financial statements have been prepared on the going concern basis. The directors have considered the principal risks and uncertainties that apply to the business, including the ongoing availability and sufficiency of financing facilities and the ability of the company to meet its liabilities as they fall due. Accordingly, the directors believe it is appropriate to prepare the accounts on the going concern basis.

# Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 1 Accounting policies (continued)

#### Turnover

Turnover is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Turnover is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

#### Sale of goods

Turnover from the sale of goods is recognised when all of the following conditions are satisfied:

- the group has transferred the significant risks and rewards of ownership to the buyer;
- the group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of turnover can be measured reliably;
- it is probable that the group will receive the consideration due under the transaction;
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### Rendering of services and equipment hire

Turnover from a contract to provide services and equipment hire is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of turnover can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably, and;
- the costs incurred and the costs to complete the contract can be measured reliably.

#### Intangible assets

#### Goodwill

Goodwill represents the excess of the cost of a business combination over the fair value of the group's share of the net identifiable assets of the acquired subsidiary or business at the date of acquisition. Goodwill on acquisitions of subsidiaries is included in 'intangible assets'. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is carried at cost less accumulated amortisation and accumulated impairment losses. Goodwill amortisation is calculated by applying the straight line method to its estimated useful life. Goodwill recognised following transition to FRS 102 is being amortised to 'administrative expenses' over 10 years.

Estimates of the useful economic life of goodwill are based on a variety of factors such as the expected use of the acquired business, the expected useful life of the cash generating units to which the goodwill is attributed, any legal, regulatory or contractual provisions that can limit useful life and assumptions that market participants would consider in respect of similar businesses.

#### Other intangibles

Externally acquired intangible assets are initially recognised at cost and subsequently amortised on a straight-line basis over their useful economic lives.

Intangible assets are recognised on business combinations if they are separable from the acquired entity or give rise to other contractual/legal rights. The amounts ascribed to such intangible assets are arrived at by using appropriate valuation techniques.

## Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 1 Accounting policies (continued)

#### Other intangibles (continued)

Brands are amortised over their useful economic lives of 5 years. The valuation method uses estimated discounted cash flows to determine the cost of brands acquired.

Customer lists are amortised over their useful economic lives of 5 years. The valuation method takes account of the historic customer relationship and uses discounted cash flows to determine the cost of customer relationships acquired.

On disposal, the difference between the net disposal proceeds and the carrying amount of the intangible asset is recognised in profit or loss.

#### Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Land and assets under construction are not depreciated. Depreciation on other assets is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method. The estimated useful lives range as follows.

Depreciation is provided on the following bases:

Freehold property

10% straight line

Leasehold property Plant and machinery

Over the term of the lease 25% to 33.33% straight line

Equipment for hire

20% straight line

Other fixed assets

10% to 33.33% Straight line

#### Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

#### Operating leases: Lessee

Rentals paid under operating leases are charged to the profit or loss on a straight line basis over the period of the lease.

#### Assets held for rental

Equipment leased to customers under operating leases is capitalised within tangible fixed assets and is depreciated in accordance with the accounting policy above. Income is accounted for on a straight line basis.

#### Stocks

Stocks are valued at the lower of cost and net realisable value. Cost is based on the cost of purchase, net of discounts, together with all associated costs attributable to the present condition and location of the stock. Net realisable value is based on estimated selling price less additional costs to completion and disposal.

## Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 1 Accounting policies (continued)

#### Financial instruments

The group recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The group's accounting policies in respect of financial instruments transactions are explained below:

#### Financial liabilities

#### At amortised cost

Financial liabilities at amortised cost including bank borrowings are initially recognised at fair value net of any transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the balance of the liability carried into the balance sheet.

#### Financial assets

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (e.g. trade receivables), but also incorporate other types of contractual monetary asset. They are initially recognised at fair value plus transaction costs that are directly attributable to their acquisition or issue, and are subsequently carried at amortised cost using the effective interest rate method, less provision for impairment.

Impairment provisions are recognised when there is objective evidence (such as significant financial difficulties on the part of the counterparty or default or significant delay in payment) that the company will be unable to collect all of the amounts due under the terms receivable, the amount of such a provision being the difference between the net carrying amount and the present value of the future expected cash flows associated with the impaired receivable. For trade receivables, which are reported net, such provisions are recorded in a separate allowance account with the loss being recognised within administrative expenses in the income statement. On confirmation that the trade receivable will not be collected, the gross carrying value of the asset is written off against the associated provision.

#### Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

#### Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the statement of cash flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Kärcher (UK) Limited's cash management.

## Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 1 Accounting policies (continued)

#### Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

#### Hedge accounting

Kärcher (UK) Limited has entered into forward foreign currency contracts to manage its exposure to foreign exchange rate risk in relation to forecast purchases. These derivatives are measured at fair value at each reporting date. To the extent the hedge is effective; movements in fair value are recognised in other comprehensive income and presented in a separate cash flow hedge reserve. Any ineffective portions of those movements are recognised in the income statement for the period.

#### Foreign currency translation

#### Functional and presentation currency

The group functional and presentational currency is GBP.

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Nonmonetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement except when deferred in other comprehensive income as qualifying cash flow hedges.

#### Finance costs

Finance costs are charged to the income statement over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount.

#### Pensions

The group operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payments obligations.

The contributions are recognised as an expense in the income statement when they fall due. Amounts not paid are shown in accruals as a liability in the balance sheet. The assets of the plan are held separately from the company in independently administered funds.

#### Rebate provisions

The provision for sales credit notes due in respect of rebates is treated as a reduction to turnover and trade receivables.

#### Conditions of sale

The group guarantees the products it supplies. Provision is made for any costs which are expected to be incurred after the year end under the terms of those guarantees.

## Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 1 Accounting policies (continued)

#### Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except that a change attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

## Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 2 Judgments in applying accounting policies and key sources of estimation uncertainty

In applying the group's accounting policies set out above management is required to make certain estimates and judgements concerning the future. These judgements are regularly reviewed and updated as necessary. The estimates and judgements that have the most significant effect on the amounts included in these financial statements are as follows:

#### a) Useful lives of property, plant and equipment

Depreciation is provided so as to write down the assets to their residual values over their estimated useful lives as set out in the company's accounting policy. The selection of these estimated lives requires the exercise of management judgement. Useful lives are regularly reviewed and should management's assessment of useful lives shorten then depreciation charges in the financial statements would increase and carrying amounts of property, plant and equipment would reduce accordingly.

#### b) Useful life of goodwill and other intangibles

Amortisation is charged so as to write down goodwill to its residual value over the estimated useful life as set out in the company's accounting policy. Useful lives are regularly reviewed and should management's assessment of the useful life shorten then amortisation charges in the financial statements would increase and the carrying amount of goodwill would reduce accordingly.

#### c) Impairment of investments

Investments in subsidiaries are measured at cost less accumulated impairment. Investments are remeasured to market value at each period end and where the market value falls below the carrying value the investment is impaired to reduce the carrying value accordingly.

#### d) Trade debtors

The group reviews the recoverability of trade debtors and makes allowances for doubtful debts where considered appropriate.

#### e) Inventory provisions

The group's policy is to fully provide for all items of inventory aged over 12 months and to provide for specific items which are unlikely to be sold at a price greater than cost, such as display and demonstration stock. Inventory levels are constantly reviewed and, should there be an indication of impairment or obsolescence, the inventory is written down to its assessed net realisable value.

#### f) Financial instruments

Certain financial assets and financial liabilities included within the company financial statements require measurement at fair value.

The market values of financial instruments as at the year-end have been considered by management in consultation with the Kärcher group treasury function. Management have assessed estimates provided and consider them to be a reasonable reflection of the fair value of the financial instruments as at the balance sheet date.

#### g) Warranty and returns provision

Warranty and returns provisions are made in accordance with managements review and consideration of historical costs incurred by the company and sales made under relevant warranty or returns arrangements.

	Taxation on profit on ordinary activities	<u>474</u>	

#### Factors affecting tax charge for year

The tax assessed for the year is lower than (2016 - lower than) the standard rate of corporation tax in the UK of 19.25% (2016 - 20%). The differences are explained below:

	2017 £000	2016 £000
Profit on ordinary activities before tax	870	1,704
Profit on ordinary activities multiplied by the standard rate of corporation tax in UK at 19.25% (2016 - 20%)	167	341
Effects of: Fixed asset differences Expenses not deductible for tax purposes Chargeable gains Adjustments to tax charge in respect of prior periods Effect of tax rate change on opening balance	181 143 - - (17)	(491) 202 383 (48) (55)
Tax on profit on ordinary activities	474	332

#### Factors that may affect future tax charges

Subject to agreement by HM Inspector of taxes, there are tax losses of £nil (2016 - £678,000) available against future trading profits.

A number of changes to the UK corporation tax system were announced in the March 2017 Budget, including that the main rate of corporation tax would reduce to 17% with effect from 1 April 2020. This will reduce the company's tax charge accordingly.

#### 18 Financial instruments

The Group's financial instruments may be analysed as follows:

	Group 2017 £000	Group As restated 2016 £000
Financial assets Financial assets that are debt instruments measured at amortised cost Derivative financial instruments designed as hedges of foreign currency movements	23,101 933	20,867
	24,034	20,867
Financial liabilities Financial liabilities measured at amortised cost Derivative financial instruments designed as hedges of foreign currency movements	(25,094) -	(26,915) (2,802)
	(25,094)	(29,717)

Financial assets measured at amortised cost comprise trade debtors, other debtors, amounts owed by group undertakings and cash at hand and in bank.

Financial Liabilities measured at amortised cost comprise trade creditors, bank overdrafts, group investment loan, amounts owed to group undertakings, obligations under hire purchase agreements, deferred consideration and accruals.

Derivative financial instruments designated as hedging instruments comprise forward currency contracts.

Hedge of foreign exchange risk arising on forecast purchases

The group has entered into a number of forward foreign currency contracts to hedge the potential volatility in future cash flows on forecast purchases arising from movements in Euro exchange rates.

The forward contracts are accounted for as a hedge of foreign exchange risk in accordance with FRS 102 and had a fair value of £933,000 gain (2016 - £2,802,000 loss) at the balance sheet date. The cash flows arising from the forward contracts may continue until their maturity in 2019 but may be utilised before this date. The change in fair value in the period was £3,735,000 gain (2016 - £9,316,000 gain) with the entire gain being recognised in other comprehensive income as the hedge was considered to be 100% effective.

20	Provisions	
	Group	Warranty and return provision £000
	At 1 January 2017 Charged to the profit or loss Utilised in year	1,150 810 (270)
	At 31 December 2017	1,690

The provision represents an estimate of the costs to be incurred by the company in respect of returns and warranties on machines sold. It is estimated that the year end provision will be utilised within two years.

Company	Warranty and return provision £000
At 1 January 2017 Charged to the profit or loss Utilised in year	1,150 810 (270)
At 31 December 2017	1,690

#### 21 Reserves

The following describes the nature and purpose of each reserve within equity:

#### Share capital

This represents the nominal value of shares in issue.

#### Other reserves

Other reserves represent the effective portion of the change in fair value of designated cash flow hedging instruments.

#### **Profit and loss account**

All other net gains and losses and transactions with owners (e.g. dividends) not recognised elsewhere.

22	Share capital	2017 £000	2016 £000
	Allotted, called up and fully paid 2,320,000 ordinary shares of £1 each	2,320	2,320

Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 23 Pension commitments

The group operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the group in an independently administered fund. The pension charge amounted to £654,000 (2016 - £638,000). There were no outstanding or prepaid contributions at either the beginning or end of the financial year.

#### 24 Related party transactions

The company is a wholly owned subsidiary of Alfred Kärcher GmbH & Co KG and has taken advantage of the exemption conferred by FRS102 'Related party disclosures' not to disclose transactions with Alfred Kärcher GmbH & Co KG or other wholly owned subsidiaries within the group.

Loans and transactions concerning directors and officers of the company

Simon Keeping, a director of the company, owed £nil at the year-end date (2016 - £nil). The maximum amount of the loan in the year was £nil (2016 - £40,363). Interest is charged at 4%. A total of £nil interest was charged in the period (2016 - £1,242).

Mark Venner, a director of the company, owed £nil at the year-end date (2016 - £nil). The maximum amount of the loan in the year was £nil (2016 - £9,501). Interest is charged at 4%. A total of £nil interest was charged in the period (2016 - £281).

Key management personnel include all directors and a number of senior managers across the group who together have authority and responsibility for planning, directing and controlling the activities of the company. The total compensation paid to key management personnel for services provided to the company was £1,332,000 (2016 - £1,268,000), pension contributions of £132,000 (2016 - £108,000) were also made on their behalf.

#### 25 Commitments under operating leases

At 31 December 2017 Kärcher (UK) Limited had total future minimum lease payments under non-cancellable operating leases as follows:

,	Group	Group	Company	Company
	2017	2016	2017	2016
	£000	£000	£000	£000
Not later than 1 year	687	940	642	895
Later than 1 year and not later than 5 years	928	1,072	793	892
Later than 5 years	281	362	281	364
Total	1,896	2,374	1,716	2,151

Notes forming part of the financial statements for the year ended 31 December 2017 (continued)

#### 26 Prior year restatements

Directors' remuneration for the year ended 31 December 2016 has been corrected within these financial statements to £634,000 from £513,000 as disclosed in the approved financial statements for the year ended 31 December 2016.

Key management personnel remuneration for the year ended 31 December 2016 has also been corrected within these financial statements to £1,268,000 with pension contributions of £108,000, from £544,000 with pension contributions of £68,000 as disclosed in the approved financial statements for the year ended 31 December 2016.

Financial liabilities measured at amortised cost as at 31 December 2016 have been corrected within these financial statements to £26,915,000 from £24,091,000 as disclosed in the approved financial statements for the year ended 31 December 2016.

There is no impact on the profit and loss account or on net assets arising from any of the above restatements.

#### 27 Ultimate parent company and parent undertaking of a larger group

The directors regard Kärcher Beteiligungs GmbH, a company incorporated in Germany, as the immediate parent company and Alfred Kärcher GmbH & co KG, a company incorporated in Germany, as the ultimate parent company and controlling party.

The largest and smallest group in which the results of the company are consolidated is that headed by Alfred Kärcher GmbH & co KG, incorporated in Germany.
