#### Strategic report for the period ended 30 September 2021

The Directors present their strategic report for the period ended 30 September 2021.

#### **Principal activities**

The principal activity of Fiberweb Geosynthetics Limited during the period was the manufacture and sale of non-woven geotextiles and extruded plastic net and printed film.

#### Review of operations

Despite the current period being a shorter 9 month period, turnover has increased by £1,166,000 to £25,733,000 from £24,567,000 in the prior 12 month period. Operating profit before exceptional items has increased by £245,000 to £2,545,000 from £2,300,000 due to good cost control across the business. Profit before tax was £2,404,000 (2020: loss before tax of £2,061,000).

During the current period the business has seen inflationary pressures from suppliers which have been successfully passed on to customers. This is evidenced by relatively consistent gross profit margins of 29.7% in the prior year to 28.7% in the current period. The business exercised good cost control, limiting the impact of the inflationary pressures experienced and improving the operating profit before exceptional items. The business continues to invest in R&D using new production technology methods and labour utilisation.

The directors believe that the Berry Global Inc. supported strategy to continue to increase market share in core product areas should continue to enhance the performance of the Company.

#### Principal risk and uncertainty

Price risk: The Company is exposed to commodity price risk, in relation to polymer prices in particular. The Company manages this risk by purchasing raw materials from multiple suppliers where possible in order to maximise price competition.

Credit risk: The Company's principal financial assets are its bank balances and cash, and trade debtors. Provisions are made as required for any doubtful debts where there is an identified loss event which could give rise to a reduction in the recoverability of cash flows. The Company has no significant concentration of credit risk, with exposure spread over a number of customers.

Exchange rate/Interest rate risk: A proportion of the Company's turnover is to companies in countries outside the UK and, as such, the Company is exposed to movements in exchange rates. The Company does not use foreign exchange forward contracts to hedge this but it does look at the net position of gains and losses to make a judgement as to whether the policy of not hedging remains valid. Interest rate risk stemming from group loans is mitigated through regular review of cash flow forecasts and through loan repayments to limit the interest payable. The interest rates incurred on intercompany loans are fixed and are not linked to LIBOR or other benchmarks impacted by the interest rate reform.

Liquidity risk: In order to maintain liquidity the company needs to ensure there is sufficient funds available for ongoing operations and future developments. The Company also has access to funds through its parent company and the wider Berry Group. The company has intercompany loans payable amounting to £4.4m (2020: £6.1m). These loans will only be repaid when the company has excess cash available which has been the case in the current period.

Competition Risk: The Company is at risk from competition but manages this risk through an increasingly diverse product portfolio and commercially new solutions.

COVID-19: The directors have taken steps to mitigate the impact of COVID-19 on the Company operations and continue to do so in the current and future reporting periods.

### Strategic report for the period ended 30 September 2021

#### **Section 172 Statement**

Under Section 172 of the Companies Act 2006, there is a general duty on every Director to act in a way that they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its shareholders as a whole.

The Directors consider that they have performed their duty in good faith to engage under section 172 of the Companies Act 2006, to promote the success of the Company for the benefit of the members as a whole, while taking into consideration, amongst other matters:

- The likely consequences of any decisions in the long term;
- The interests of the Company's employees;
- The need to foster the Company's business relationships with suppliers, customers and others:
- The impact of the Company's operations on the community and the environment;
- Maintaining a reputation for high standards of business conduct; and
- The need to act fairly between the members of the Company.

#### **Employees**

The company's long-term success is predicated on the commitment of our workforce to our purpose and its demonstration of our values daily. We engage with our workforce to ensure a safe and healthy work place for its employees that promotes training, development and equality.

We have invested in Health & Safety and provided appropriate training and personal protective equipment throughout the period. During the COVID-19 pandemic additional communication, guidance and training was provided to staff, particularly to those working from home. We also seek to share our vision and longer-term strategy with staff through our internal communication portal and monthly virtual business reviews.

#### Customers

We establish good relationships with our customers and have dedicated account management for larger accounts. We strive to understand what products our customers require and how to improve our customer service. We work with our customers from the design stage and throughout the supply chain to deliver innovative, differentiated and environmentally sustainable solutions. We continue to prioritise customer service and strive for continual improvements.

#### **Suppliers**

Our suppliers are fundamental to the quality of our products and to ensuring that as a business we meet the high standards of conduct that we set ourselves. We have created a Supplier Code of Conduct to outline what we expect from our suppliers with respect to labour and employment rights, environmental health and safety, ethics and social responsibility, and global trade practices. Suppliers are expected to adhere to our Supplier Code of Conduct and must operate in full compliance with all applicable laws and regulations.

#### Our community/the Environment

As a global leader in packaging and protection solutions, Berry Global have a responsibility to play a positive role in the communities and environments in which we operate and serve.

A common value that is demonstrated at each of our facilities is the commitment of our employees to partner with their local community to create a positive impact.

We are focused on developing and providing new products designed for sustainability.

### Strategic report for the period ended 30 September 2021

Key performance Indicators ("KPI's")
The company's key financial performance indicators during the period were as follows:

|                      | 9 month period<br>ended 30<br>September 2021 | Year ended 31<br>December 2020 |

On behalf of the board

A M McCarthy Director

22 June 2022

### Directors' report for the period ended 30 September 2021

The Directors present their report and the audited financial statements of the company for the period ended 30 September 2021.

#### Results and dividends

The profit for the period ended 30 September 2021 amounted to £5,681,000 (2020: loss of £2,061,000). During the period the company paid a dividend of £nil (2020: £nil). No further dividends were proposed at the period end (2020: £nil).

#### **Directors**

The Directors, who served throughout the period and up to the date of signing the financial statements, unless otherwise stated, are as follows:

A M McCarthy A Schalk

The company maintains a Directors and officers insurance policy that is appropriate to the company.

#### **Future developments**

The Directors intend to continue Fiberweb Geosynthetics Limited (the "Company") as a manufacturer and wholesaler of non-woven geotextiles and extruded plastic net and printed film for the foreseeable future. The directors aim to maintain the management policies to increase market share in core and new product areas.

Continued investment in R&D to identify opportunities to develop new and existing products in niche markets areas will assist in gaining market share in new lucrative markets.

#### Financial risk management

The Company's ultimate parent, Berry Global Group, Inc., manages the interest rate, price and liquidity risks associated with the whole group, as disclosed in the financial statements of that company, which are publicly available.

#### Going concern

In assessing going concern, management assessed the future projections of the business for at least 12 months from approval of the financial statements. The Directors believe that preparing the accounts on the going concern basis is appropriate due to the underlying profitability of the business and the continued financial support of the ultimate parent company Berry Global Group, Inc. The Directors have received confirmation that Berry Global Group, Inc. intend to support the company for at least one year after these financial statements are signed.

### Statement of Directors' responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, and applicable law).

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

### Directors report for the period ended 30 September 2021 (continued)

#### Statement of Directors' responsibilities (continued)

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The Directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

#### Strategic Report

The Company has taken advantage of section 414C (11) of the CA 2006 to include disclosures in the Strategic Report that would otherwise be required to be included in the Directors' Report where it is of strategic importance to the Company.

#### Statement on disclosure of information to auditor

Each of the persons who are a Director at the date of approval of this report confirms that, so far as each Director is aware, that there is no relevant audit information of which the company's auditor is unaware. Each Director has taken all the steps that they ought to have taken in their duty as a Director in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

#### Appointment of auditor

Following an audit tender process RSM UK Audit LLP were appointed as auditor by the Directors during the period.

Pursuant to section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and RSM UK Audit LLP will therefore continue in office.

#### Change in reporting year

To align the year end to that of the wider Berry Global group, the accounting period has been shortened to 30 September 2021. Therefore the current period amounts presented in the financial statements are for the period from 1 January 2021 to 30 September 2021 and therefore are not entirely comparable to the previous period, that being the 12 months to 31 December 2020. The directors do note however that the prior period did incur a 2-3 month shutdown period due to the global pandemic and therefore the results for the current period are more comparable than would typically be expected by the shortening of the current period.

On behalf of the board

A M McCarthy Director 22 June 2022

### Independent auditor's report to the members of Fiberweb Geosynthetics Limited

#### **Opinion**

We have audited the financial statements of Fiberweb Geosynthetics Limited (the 'company') for the period ended 30 September 2021 which comprise the profit and loss account, statement of comprehensive income, the balance sheet, the statement of changes in equity and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2021 and
  of its profit for the period then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue. Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

#### Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

#### Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

 the information given in the strategic and the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and

### Independent auditor's report to the members of Fiberweb Geosynthetics Limited

 the strategic and the directors' report have been prepared in accordance with applicable legal requirements.

#### Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

#### Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# The extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities are instances of non-compliance with laws and regulations. The objectives of our audit are to obtain sufficient appropriate audit evidence regarding compliance with laws and regulations that have a direct effect on the determination of material amounts and disclosures in the financial statements, to perform audit procedures to help identify instances of non-compliance with other laws and regulations that may have a material effect on the financial statements, and to respond appropriately to identified or suspected non-compliance with laws and regulations identified during the audit.

In relation to fraud, the objectives of our audit are to identify and assess the risk of material misstatement of the financial statements due to fraud, to obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud through designing and implementing appropriate responses and to respond appropriately to fraud or suspected fraud identified during the audit.

### Independent auditor's report to the members of Fiberweb Geosynthetics Limited

However, it is the primary responsibility of management, with the oversight of those charged with governance, to ensure that the entity's operations are conducted in accordance with the provisions of laws and regulations and for the prevention and detection of fraud.

In identifying and assessing risks of material misstatement in respect of irregularities, including fraud, the audit engagement team:

- obtained an understanding of the nature of the industry and sector, including the legal and regulatory framework that the company operates in and how the company is complying with the legal and regulatory framework;
- inquired of management, and those charged with governance, about their own identification and assessment of the risks of irregularities, including any known actual, suspected or alleged instances of fraud;
- discussed matters about non-compliance with laws and regulations and how fraud might occur
  including assessment of how and where the financial statements may be susceptible to fraud.

As a result of these procedures we consider the most significant laws and regulations that have a direct impact on the financial statements are FRS 102, UK tax legislation and Companies Act 2006. We performed audit procedures to detect non-compliances which may have a material impact on the financial statements which included reviewing financial statement disclosures and the tax computation.

The most significant laws and regulations that have an indirect impact on the financial statements are those in relation to compliance with patent and health & safety legislation. We performed audit procedures to inquire of management and those charged with governance whether the company is in compliance with these law and regulations.

The audit engagement team identified the risk of management override of controls as the area where the financial statements were most susceptible to material misstatement due to fraud. Audit procedures performed included but were not limited to testing the appropriateness of journal entries and other adjustments, assessing whether the judgements made in making accounting estimates are indicative of a potential bias, and evaluating the business rationale of any significant, unusual transactions that are entered into outside the normal course of business.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: <a href="http://www.frc.org.uk/auditorsresponsibilities">http://www.frc.org.uk/auditorsresponsibilities</a> This description forms part of our auditor's report.

#### Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Capital contribution**

During the year ended 31 December 2015, a loan of £20,000,000 attributed to the parent group undertaking was formally written off. This has been shown as a capital contribution.

### Notes to the financial statement for the period ended 30 September 2021

### 1 Accounting policies

Fiberweb Geosynthetics Limited ("the company") is a private company limited by shares that is registered in England and incorporated and domiciled in the United Kingdom. The registered office is Sapphire House, Crown Way, Rushden, NN10 6FB.

#### Basis of accounting

The financial statements have been prepared on a going concern basis under the historical cost convention and accounting policies have been consistently applied except as disclosed in the accounting policies in this note.

These financial statements were prepared in accordance with Financial Reporting Standard 102 and the Companies Act 2006. The Company is a qualifying entity for the purposes of FRS 102 as it is a member of a group which prepares publicly available consolidated financial statements and it is included in the consolidation for that group.

The disclosure exemptions adopted by the Company in preparation of these financial statements in accordance with FRS 102 are as follows:

- Section 7 'Statement of Cash Flows' Presentation of a Statement of Cash Flow and related notes and disclosures;
- Section 33 'Related Party Disclosures' Compensation for key management personnel.
- Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instrument Issues'

   Carrying amounts, interest income/expense and net gains/losses for each category of financial instrument; basis of determining fair values; details of collateral, loan defaults or breaches, details of hedges, hedging fair value changes recognised in profit or loss and in other comprehensive income.

#### Key sources of estimation uncertainty

RDEC tax credit - Project costs and the associated tax credit has not been finalised, therefore, an estimate has been included within these financial statements. The carrying amount is £53,000 (2020: £389,000).

Stock obsolescence - A provision is made for obsolete, slow moving or defective items, being a percentage of items that have not moved over a medium term. The carrying amount is £128,000 (2020: £134,000).

Dilapidation cost - The provision is based on estimated costs where available over the term of the lease (the term of the lease includes the expected extension). The carrying amount is £312,000 (2020: £227,000).

Allowance for doubtful debt — An allowance is held to provide against debtors where there is evidence that the Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount is £88,000 (2020: £65,000).

Legal provision - A provision has been made in respect of a lost legal case involving a patent infringement, the provision reflects the loss of profit suffered by the claimant.

#### Going concern

The company responded quickly to the COVID-19 outbreak to protect the business, its employees and other stakeholders whilst trading throughout in-line with the Government guidance and best practices in order to provide its employees with a safe place of work. The impact of and uncertainty associated with COVID-19 and the global pandemic is reducing with time, and therefore the directors believe that the impact on the going concern assessment is minimal.

### 1 Accounting policies (continued)

#### Going concern (continued)

In assessing going concern management assessed the future projections of the business for at least 12 months from approval of the financial statements. This included an assessment of the levels of cash in order to ensure sufficient resource was available to continue to trade.

The Directors believe that preparing the accounts on the going concern basis is appropriate due to the above assessment and the continued financial support of the ultimate parent company Berry Global Group, Inc. The Directors have received confirmation that Berry Global Group, Inc. intend to support the company for at least one year after these financial statements are signed.

#### Revenue

Revenue, which excludes value added tax, other sales taxes and trade discounts, represents the invoiced value of goods supplied. Revenue is recognised in the income statement when products and associated equipment are supplied to external customers in line with contractual arrangements. In these instances, significant risks and rewards of ownership have passed to third parties, the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company.

#### Research and development

Research expenditure is written off to the profit and loss account in the period in which it is incurred. Development expenditure is written off in the same way unless the directors are satisfied as to the technical, commercial and financial viability of individual projects. In this situation, the expenditure is deferred and amortised over the period during which the Company is expected to benefit.

#### Foreign currencies

Trading transactions denominated in foreign currencies are translated into sterling at the exchange rate ruling when the transaction was entered into. Monetary assets and liabilities are translated into sterling at the rate of exchange on the date of the balance sheet. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. All other foreign exchange differences are taken to the profit and loss account in the period in which they arise.

#### Property, plant and equipment

Items of property, plant and equipment are stated at cost together with any incidental expenses of acquisition less accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated so as to write off the cost of each part of an item of property, plant and equipment less any residual value on a straight-line basis over the expected useful economic lives of the assets concerned, as follows:

Leasehold land and buildings Plant and machinery

Over the period of the lease 10% and 25% Straight line method

#### **Debtors**

Debtors are recognised on the trade date, being the date that the Company commits to sell the asset and are initially measured at transaction price less attributable transaction costs and subsequently measured at amortised cost less any provision for impairment. A provision for impairment is made when there is evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Company will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Balances are written off when the probability of recovery is assessed as being remote.

### Notes to the financial statement for the period ended 30 September 2021

### 1 Accounting policies (continued)

#### **Stocks**

Stocks are stated at the lower of cost and net realisable value. For finished goods, cost is taken as production cost which includes the cost of the raw materials and an appropriate proportion of overheads. Where necessary, provision is made for obsolete, slow moving and defective stocks.

#### Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade creditors are classified as current liabilities if the Company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

#### Impairment of tangible assets

At each balance sheet date, the Company reviews the carrying amount of the Company's assets, other than stocks, and deferred tax assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

#### Leases

Where the Company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a 'finance lease'.

The asset is recorded in the balance sheet as property, plant and equipment and is depreciated over its estimated useful life or the term of the lease, whichever is shorter. Future instalments under such leases, net of finance charges, are included within creditors. Rentals payable are apportioned between the finance element, which is charged to the profit and loss account, and the capital element which reduces the outstanding obligation for future instalments.

All other leases are accounted for as 'operating leases' and the rental charges are charged to the profit and loss account on a straight-line basis over the expected life of the lease.

### Notes to the financial statement for the period ended 30 September 2021

### 1 Accounting policies (continued)

#### **Provisions**

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, when appropriate, the risks specific to the liability.

#### **Taxation**

The tax expense represents the sum of the current taxes payable and deferred tax.

The current tax payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised on deductible temporary differences where they can be offset against taxable temporary differences or to the extent that it is probable that taxable profits will be available against which they can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

#### Employee benefits - Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the years during which services are rendered by employees.

### Notes to the financial statement for the period ended 30 September 2021

### 2 Revenue

The analysis of the company's revenue for the period from continuing operations is as follows:

| Sale of goods           | 9 month<br>period ended<br>30 September<br>2021<br>£000<br>25,733 | Year ended 31<br>December<br>2020<br>£000<br>24,567 |
|-------------------------|---|---|
| By Geographical market: |   |   |
| United Kingdom          | 19,111  | 15,974  |
| Europe                  | 5,362   | 7,181   |
| Rest of world           | 1,260   | 1,412   |
|                         | 25,733  | 24,567  |

All revenue is attributable to the company's principal activity.

### 3 Operating profit/(loss)

### 4 Exceptional administrative expenses

|  | 9 month<br>period ended<br>30 September<br>2021<br>£000 | Year ended 31<br>December<br>2020<br>£000 |
|--|---|---|
| Provision for legal proceedings and associated costs | -   | 4,019                                     |
| Irrecoverable VAT                                    | -   | 170                                       |
|  | -   | 4,189                                     |

#### Provision for legal proceedings and associated costs

By verdict of the United Kingdom's High Court in March 2020 and appeal dismissal in June 2021, the Company lost a patent infringement dispute with a competitor regarding the sales of a certain product which is protected by a patent held by the competitor. In a separate but related Court procedure, the amount to be paid by the Company for the infringement of the patent will be assessed. A trial commenced in May 2022, and a Court decision is expected in the second half of 2022.

There is a range of outcomes and based on the historical data of the related product sales, the Company has assessed the potential financial risk of this Court decision and in the prior recorded an expense of £4,019,000 in the financial statements in order to cover this risk and any associated costs. An amount of £3,500,000 remains provided for on the balance sheet at 30 September 2021 (see note 12).

At the same time, the Company has reached out to its ultimate parent company Berry Global Group, Inc for financial support to cover this risk. Berry Global Group, Inc have confirmed to fully guarantee the obligations of the Company towards its creditors for a period of 12 months from the date of signing these accounts, which should adequately cover any risk arising from this matter.

### 5 Interest payable and similar expenses

| Impact of change in tax rates          | (761)                      | -                                      |
| Adjustment in respect of prior periods | (2,516)                    | -                                      |
| Group relief surrendered               | 170                        | -                                      |
| R&D allowances                         | 7                          | <u>.</u>                               |
| Total tax charge/(credit)              | (3,277)                    | _                                      |

#### Factors that may affect future tax charges

UK Finance Bill 2021 was substantively enacted on 24 May 2021, which included the increase in main rate of UK corporation tax from 19% to 25%, effective 1 April 2023. This will increase the company's future current tax charge accordingly. The Company's deferred tax assets and liabilities at 30 September 2021 have been calculated at 25%.

On 29 September 2017, the UK Government invoked Article 50 of the Treaty of Lisbon, notifying the European Council of its intention to withdraw from the European Union (the 'EU'). On 24 December 2020 the UK and the EU entered into EU-UK Comprehensive Trade Agreement having received Royal Assent. The agreement respects the autonomy of the UK and EU respectively. The treaty, beyond expressing transparency and mutual areas of co-operation was silent on UK tax laws and rates. The directors have continued to assess the impact and have not identified any significant matters affecting the financial statements.
